Index 508-T01 Traffic Control Devices for Movable Span Bridge Signals

Design Criteria

Traffic Engineering Manual (TEM); Manual on Uniform Traffic Control Devices (MUTCD)

Design Assumptions and Limitations

Index 508-T01 provides typical applications of traffic control devices for movable span bridges.

See Notes on ***Index 508-T01***.

The use of ***Index 508-T01*** requires a Technical Specifical Provision. Refer to the ***Specifications Handbook*** for development of Technical Special Provisions.

Coordinate with the District Traffic Operations Engineer

Plan Content Requirements

See ***FDM 940 and 941***. Include details for all traffic control devices in Plans.

Payment

Payment for the Traffic Control Devices for Movable Span Bridge Signals must be clearly defined in the Technical Special Provision. See the *Basis of Estimates Manual* (***BOE***).
