

## **Index 830-T01 Railroad Crossings**

### **Design Criteria**

***FDOT Design Manual (FDM); Traffic Engineering Manual (TEM); Manual on Uniform Traffic Control Devices (MUTCD); Federal Railroad Administration; AASHTO Policy on Geometric Design of Highways and Streets, Highway-Rail Crossing Handbook 3<sup>rd</sup> Edition, AREMA Manual for Railway Engineering***

### **Design Assumptions and Limitations**

The use of ***Index 830-T01*** requires a Technical Specific Provision. Refer to the ***Specifications Handbook*** for development of Technical Special Provisions.

To be used in conjunction with ***Indexes 509-070 and 509-100***.

See Notes on ***Index 830-T01***.

For highway-railroad crossings on the State Highway System, see ***FDM 220***.

### **Plan Content Requirements**

See ***FDM 915***.

### **Payment**

Payment for the Railroad Crossings must be clearly defined in the Technical Special Provision. See the ***Basis of Estimates Manual (BOE)***.
