

Index 160-001 Median Stabilizing Details

Design Criteria

*FDOT Standard Specifications ([Specifications](#)), Section 160; *FDOT Flexible Pavement Design Manual ([FPDM](#))*; and *FDOT Rigid Pavement Design Manual ([RPDM](#))**

Design Assumptions and Limitations

Index 160-001 provides minimum limits for stabilizing the subgrade at median openings for crossovers, turn lanes, and traffic separators.

For additional information about stabilized subgrade, refer to the *Flexible Pavement Design Manual ([FPDM](#))* and *FDOT Rigid Pavement Design Manual ([RPDM](#))*.

Plan Content Requirements

Provide the limits and bearing requirements of stabilized subgrade on the roadway Typical Sections.

Payment

| Item number | Item Description | Unit Measure |
|-------------|----------------------|--------------|
| 160-4 | Type B Stabilization | SY |

See the [BOE](#) and [Specification 160](#) for additional information on payment, pay item use and compensation.
