STANDARD PLANS INSTRUCTIONS
FY 2027-28 REVISIONS LOG

Standard Plans Index	Description
536-001	Part E: Revised language to explain the new "Post Cap" option added to the Standard Plans and Standard Specifications.
100-020	Replace "Multi-Post Sign-LRFD v1.1" with "Multi-Column Ground Sign program".
102-200	Updated terminology in Temporary Bridge Pile Data Table figure.
102-201	Updated terminology in Temporary Bridge Pile Data Table figure.
110-200	SPI changes to accompany Index 110-200 updates.
353-001	The purpose of the revisions are simply to provide better clarification of what needs to be shown in the contract plans, and what needs to be quantified.
425-001 & 425-015	Moved Manhole information to the new Index 425-015.
425-010	We used to have the Table 6.4-2 (Minimum Structure Sizes for Single Pipe Connection Per Side) in the standard plans, and it was removed a few years ago when there was a push for the standard plans to only contain contractor information and not anything specific for the EOR. It now lives in the Drainage Design Guide, which is not criteria. Due to this change, we are occasionally getting push back for shop drawings to meet this. We would like to request this get moved to the SPI for 425-010 as it seems like a better fit.
425-015	New Index - Moved Manhole information from Index 425-001.
450-450	Added new Figure 8b detailing a link-slab option at intermediate bents or piers. Revised Figure 9 to now include a detail for adding one layer of organic type II felt to better retain the poured concrete within the shear key.
455-001	Revised Pile Data Table notes.
455-001 thru 455-031	Change column header title from "Down Drag" to "Drag Load".
455-054	Revised Pile Data Table notes.
455-060	Revised Pile Data Table notes.
455-101	Revised Pile Data Table notes.
455-154	Revised Pile Data Table notes.
455-160	Revised Pile Data Table notes.
455-500	SPI to support new index 455-500.
521-001	Plan Content Requirements: Added guidance for Environmental Classification.
521-005	Replaced all GTR references with updated FDM references. Plan Content Requirements: Added guidance for Environmental Classification.
521-511	Plan Content Requirements: Updated guidance for environmental classification.

STANDARD PLANS INSTRUCTIONS
FY 2027-28 REVISIONS LOG

Standard Plans Index	Description
