

Index 830-T01 Railroad Crossings

Design Criteria

FDOT Design Manual (FDM); Traffic Engineering Manual (TEM); Manual on Uniform Traffic Control Devices (MUTCD); Federal Railroad Administration; AASHTO Policy on Geometric Design of Highways and Streets, Highway-Rail Crossing Handbook 3rd Edition, AREMA Manual for Railway Engineering

Design Assumptions and Limitations

The use of **Index 830-T01** requires a Technical Specific Provision. Refer to the *Specifications Handbook* for development of Technical Special Provisions.

To be used in conjunction with **Indexes 509-070 and 509-100**.

See Notes on **Index 830-T01**.

For highway-railroad crossings on the State Highway System, see **FDM 220**.

Plan Content Requirements

See **FDM 915**.

Payment

Payment for the Railroad Crossings must be clearly defined in the Technical Special Provision. See the *Basis of Estimates Manual (BOE)*.
