#### **COMMENT:**

Due to distracted driving now a days, consider installing Roadworker ahead sign W 21-1 at 350' in advance of work area. This advance warning sign may help work area presence to the drivers.

**RESPONSE:** *Comment is acknowledged. The Department will continue to monitor innovative and new ideas for implementation as Standards. It is unknown what affect the additional sign may have, if any; therefore, it will not be standardized at this time.*

**No Change**
