**Contact Information:**
Date: June 8, 2021  
Originator: James McGinnis  
Phone: (850) 414-4952  
Email: james.mcginnis@dot.state.fl.us

**Standard Plans:**
Index Number: 102-660  
Sheet Number (s): 2 of 2  
Index Title: Sidewalk Closure

**Summary of the changes:**
Sheet 2: Changed Note 4 - "work zone" to "work operations"; Added Note 5 - "Option 2 may only be used for work zone speeds of less than or equal to 35 mph and when called for in the Plans or as approved by an Engineer"; Changed title "TEMPORARY PEDESTRIAN WAY" to "PEDESTRIAN SPECIAL DETOUR"; Changed title "TEMPORARY PEDESTRIAN WAY DIVERTING TRAFFIC INTO THE TRAVELED WAY" to "PEDESTRIAN DETOUR INTO THE TRAVELED WAY - OPTION 1"; Added new detail "PEDESTRIAN DETOUR INTO THE TRAVELED WAY - OPTION 2".

**Commentary / Background:**
The duration provisions of the index are intended to apply to the length time needed to perform the specific temporary traffic control work “operation” shown, which is independent of the duration of an overall construction project. The term “Work Zone” is being replaced with “Work Operation” to clarify the intent.

**Other Affected Offices / Documents:** (Provide name of person contacted)
- Yes  
  - Other Standard Plans –  
  - FDOT Design Manual –  
  - Basis of Estimates Manual –  
  - Standard Specifications –  
  - Approved Product List –  
  - Construction –  
  - Maintenance –

- No

**Origination Package Includes:**
(Email or hand deliver package to Rick Jenkins)
- Yes N/A  
  - Redline Mark-ups  
  - Proposed Standard Plan Instruction (SPI)  
  - Revised SPI  
  - Other Support Documents

**Implementation:**
- Design Bulletin (Interim)  
- DCE Memo  
- Program Mgmt. Bulletin  
- FY-Standard Plans (Next Release)

The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" signs (G20-2), along with associated work zone sign distances, may be omitted when the work zone will be in place for 24 hours or less.

Option 2 may only be used for work zone speeds of less than or equal to 35 mph and when called for in the Plans or as approved by an Engineer.

Temporary Pedestrian Way

ADDED NOTE 5:

Option 2 may only be used for work zone speeds of less than or equal to 35 mph and when called for in the Plans or as approved by an Engineer.
NOTES:
1. L = Taper Length
   B = Buffer Length
   X = Work Zone Sign Distance
   See Index 102-600 for "L", "B", "X", channelizing device spacing values.

2. Provide a 5' wide temporary pedestrian way with a maximum cross-slope of 0.22%, except where space restrictions warrant a minimum width of 4'.
   Provide a 3' x 5' passing space for temporary pedestrian ways less than 5' in width at intervals not to exceed 200'.

3. When temporary pedestrian ways require curb ramps, meet the requirements of Index 522-002. Detectable warnings are not required for curb ramps diverting pedestrian traffic into a closed lane.

4. The "Speeding Fines Doubled When Workers Present" signs (MOT-13-06) and "End Road Work" signs (G20-2), along with associated work zone sign distances, may be omitted when the work operation will be in place for 24 hours or less.

5. Option 2 may only be used for work zone speeds of less than or equal to 35 mph and when called for in the Plans or as approved by an Engineer.

SYMBOLS:
- Work Area
- Temporary Pedestrian Way
- Channelizing Device (See Index 102-600)
- Pedestrian Longitudinal Channelizing Device (LCD)
- Work Zone Sign
- Arrow Board
- Crash Cushion
- Lane Identification and Direction of Traffic
