COMMENTARY

The sign image needs to be changed to match the size and SF that is mentioned in the table.

COMMENTS AND RESPONSES

BLACK = Industry Review Comments **BLUE** = Standard Plans Response **GREEN** = Change Made to Index

COMMENT:

Consider upgrading accessory sign assemblies to have matching width to the main sign panels. For example, 36x36 stop signs should have 36x30 Divided Highway Signs or larger 30x21 M6-4 sign panels with 3 Digit Route Shield signs. Using larger sign panels due to speed or legibility should apply to all the panels within the assembly for equal attention.

RESPONSE: Thank you for your suggestion. I will make the Traffic Office aware of your suggestion.

CHANGE MADE TO INDEX: No.
