

FY 2026-27 Standard Plans – 102-200 Temporary Acrow 300 Series Detour Bridge General Notes and Details

Update annotations and details

For review by the Chief Engineer

Summary of the Revisions:

Updated details to clearly define which components are provided by FDOT and which are required to be supplied by the contractor. Reformatted the bearing details for clarity. The previous format used break lines and created a compact detail. A new sheet with expanded bearing details was provided removing the break lines and expanding for clarity.

Are changes in line with promoting and making meaningful progress on improving safety, enhancing mobility, inspiring innovation, and fostering talent; explain how?

Yes, clarity in detailing helps ensure proper construction and eliminates confusion which potentially adds cost and impact to project schedule.

What financial impact does the change have; project costs, pay item structure, or consultant fees?

There are no changes to financial impact.

What impacts does the change have on production or construction schedules?

Clarity eliminates potential errors and increases project efficiency.

How does this change improve efficiency or quality?

Clarity eliminates potential errors and increases project efficiency.

Which FDOT offices does the change impact?

No changes to office impacts.

What is the impact to Districts with this change?

No new challenges are anticipated for Districts.

Does the change shift risk and to who?

These changes do not shift any risks.

Provide summary and resolution of any outstanding comments from the districts or industry?

All comments from Industry and Internal Review have been reviewed, addressed and responded to. These specific comments are available for review on the [Track the Status Page](#).

What is the communication plan?

After completion of FHWA Review/Approval, this index will be published by November 1st of this year with FY 2026-27 Standard Plans (Effective July 1, 2026). Standard Plans Update Training will be provided prior to January 1, 2026. All documents will be available on our website.

What is the schedule for implementation?

- *The FY 2026-27 Standard Plans will be published on or before November 1, 2025.*
- *Standard Plans Update Training webinars will be provided for revisions in December of 2025.*
- *The FY 2026-27 Standard Plans will be effective for all projects let in July 2026 or after.*
