

FY 2026-27 Standard Plans – 700-102 (Special Sign Details) –

Renumbering and Adding Signs

For review by the Chief Engineer

Summary of the Revisions:

The Department is redeveloping this index by renumbering and reordering all FTP and TTC (formerly MOT) signs to coincide with the TEM and Sign Library. The signs have been grouped by type (Guide, Regulatory, Recreational, Etc.) and numbered to make it easier to add more signs to those groups as they are developed. Along with this redevelopment, some signs were added to the index, many coming directly from the Sign Library. Among those new signs are 3 Emergency Stopping Site signs. These changes were done in coordination with the Traffic Office.

Are changes in line with promoting and making meaningful progress on improving safety, enhancing mobility, inspiring innovation, and fostering talent; explain how?

Yes, this change promotes meaningful progress on improving safety and enhancing mobility by providing more details and sign options to our designers for our roadways.

What financial impact does the change have; project costs, pay item structure, or consultant fees?

Project costs will not change.

What impacts does the change have on production or construction schedules?

Production and construction schedules will not change.

How does this change improve efficiency or quality?

This will provide a more efficient way to navigate our Standard Plans and Sign Library along with improving the quality of our roads with newer signage. Provides more consistency between the Standard Plans and Sign Library.

Which FDOT offices does the change impact?

This update impacts the Design, Maintenance, Construction and Traffic offices.

What is the impact to Districts with this change?

No new challenges are anticipated for Districts.

Does the change shift risk and to who?

These changes do not shift any risks.

Provide summary and resolution of any outstanding comments from the districts or industry?

All comments from Industry and Internal Review have been reviewed, addressed and responded to. These specific comments are available for review on the [Track the Status Page](#).

What is the communication plan?

After completion of FHWA Review/Approval, this index will be published by November 1st of this year with FY 2026-27 Standard Plans (Effective July 1, 2026). Standard Plans Update Training will be provided prior to January 1, 2026. All documents will be available on our website.

What is the schedule for implementation?

- *The FY 2026-27 Standard Plans will be published on or before November 1, 2025.*
- *Standard Plans Update Training webinars will be provided for revisions in December of 2025.*
- *The FY 2026-27 Standard Plans will be effective for all projects let in July 2026 or after.*
