SWEPT

- The *State-Wide Environmental Project Tracker* is a web-based tool supporting FDOT's environmental process.

- Documenting PD&E scopes
- Tracking project schedules
- Managing project files
- Assigning/notifying review teams
- Processing environmental documents
- Recording QA/QC results and audit findings

T2CE Simplification – Section Reviewers Removed

- Simplification of the *District Section Review* options and workflow for the Type 2 Categorical Exclusion (T2CE)

- 1) On the form's *Status* page, the District no longer has to assign individual section editors or reviewers. Anyone who is an editor on the *District Project Team* can edit the T2CE.

Please note, District review and comment will occur outside of SWEPT.

STATUS	
Review Status for Each Section	
Section	District Status

T2CE Simplification - QA/QC Checklist

- [QA/QC Checklist](#)

- 2) When a section is ready for review by the District:

- Select the *Ready for Review by District* checkbox at the bottom of the page.
- The internal *District Section Review* has been replaced with the [QA/QC checklist](#) that will be completed outside of SWEPT.
- The draft T2CE can be exported to Microsoft Word to facilitate review outside of SWEPT.

Ready for Review by District ☒ 2a

Note: District Review should be completed using the [QA/QC checklist](#) before submitting to OEM.

Type 2 Categorical Exclusion QA/QC Checklist

December 2024 - PDF version

Project Name: _____

FM #: _____

Project Limits: _____

Consultant: _____

Reviewer: _____ Date: _____

Additional Information:

☐ OEM POC QA Complete Date: _____ ☒ POC Responsibility

☐ OEM Engineer QA Complete Date: _____ ☒ Engineer Responsibility

☐ Both

The purpose of this guidance is to facilitate the preparation and review of quality Type 2 Categorical Exclusions (CEs) and ensuring the SWEPT project file is maintained. This guidance is applicable to Florida Department of Transportation (FDOT) District and consultant preparers and Quality Control (QC) reviewers of Type 2 CE's. This guidance covers common QC items but is not intended to be all inclusive. The preparer will comply with the requirements set forth in Part 1, Chapter 5 (Type 2 Categorical Exclusion) of the Project Development & Environment (PDE) Manual and all other applicable chapters of the PDE Manual. Information to include in each section is found in the [PDE Manual](#) chapter referenced next to each section heading.

Recent Re-eval Enhancements

- 1) On the re-evaluation form in section C. *Prior Re-evaluations*, click the **Yes** radio button and a blue information box is displayed

- 2) To import, click the **View Segment(s)** button
 - a) From the dialog, click the **Add Row** button to import a previously approved segment(s)
 - b) Close the dialog by clicking the **Close** button in the bottom, right of the dialog

- 3) To add manually, click the **Add Row** button
 - a) Using the provided fields, enter a previously approved segment(s) and include the following information:
 - FM Number, the type, the date they were approved by the District, and the date the lead agency approved, if applicable.
 - If Lead Agency approval was not required, include the Date Lead Agency Consultation.

- Import or manually add previously approved re-evaluation segment(s)

Standard Statements – T2CE PDF & Word

Standard Statement (automatically included in the PDF):

Through coordination with the Natural Resources Conservation Service, it has been determined that the project area which is located in the urbanized area of [redacted] does not meet the definition of farmland as defined in 7 CFR Part 658. Therefore, the provisions of the Farmland Protection Policy Act of 1981 do not apply to this project.

User input needed

Standard Statement (automatically included in the PDF):

Through coordination with the Natural Resources Conservation Service, it has been determined that the project area which is located in the urbanized area of Sample City does not meet the definition of farmland as defined in 7 CFR Part 658. Therefore, the provisions of the Farmland Protection Policy Act of 1981 do not apply to this project.

User input

- Standard statements are displayed consistently across the user interface, PDF, and Word-generated documents

5.1 Protected Species and Habitat

The following evaluation was conducted pursuant to Section 7 of the Endangered Species Act of 1973 as amended as well as other applicable federal and state laws protecting wildlife and habitat.

Standard statement in approved environmental document

- After approval of the Environmental Document, the colors are removed

Delete a SWEPT Form or Project

Help Guide:
How to Delete a SWEPT Form or Project

OVERVIEW

The option to delete a SWEPT Form or Project in the StateWide Environmental Project Tracker (SWEPT) is only available to the District Environmental Manager or their delegates. No approvals can be associated with the form or project being deleted and it must be in a **draft** status – If these conditions are not met, you will need to contact the FDOT OEM Help Desk for assistance. Additionally, no email notifications are sent when a form or project is deleted.

Note: Scope of Service (SOS) forms cannot be manually deleted and you must contact the FDOT OEM Help Desk for assistance.

DELETING A SWEPT FORM

- 1) Locate the form for deletion on the main **Project Details** page in the **Project Documents** section.
- 2) Click the red **Delete** button towards the right side of the page.
- 3) A dialog displays asking **Are You Sure?** Click **Yes** to delete the form or **No** to cancel the action.
- 4) After clicking **Yes**, the page will refresh and a green message box is displayed stating the form was successfully deleted.
 - Note:** Any associated documents with the form being deleted, will remain as part of the project file.

DELETING A SWEPT PROJECT

- 1) Locate the project in SWEPT, scroll to the bottom of the main **Project Details** page, and click the red **Delete Project** button.
- 2) A dialog displays asking **Are You Sure?** Click **Yes** to delete the project or **No** to cancel the action.
- 3) After clicking **Yes**, the SWEPT home page is shown with a green message box displayed stating the project was successfully deleted.

The FDOT OEM Help Desk is available to assist you at swapt@fdot.com or 888-455-5334.
Page 1 of 1

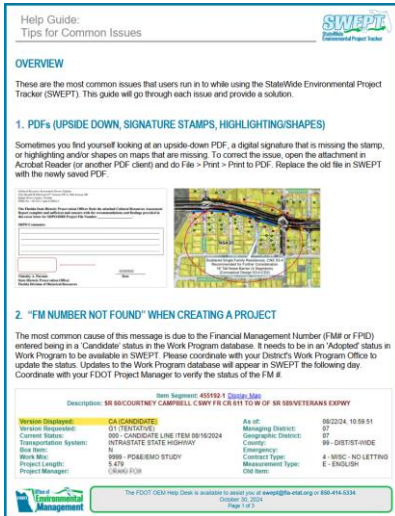

- Completed by District Environmental Manager or their delegate
- No approvals associated with the form or project being deleted
- Must be in draft status
- If the above conditions are not met, contact the [Help Desk](#)

SWEPT Training & Help

OEM Training Website

Training Program

Welcome to the Environmental Management Training Program!

Our goal on this site is to provide FDOT staff, consultants, resource agency partners and Local Agency Program (LAP) partners with information about our training program and delivery plan. We offer a wide range of opportunities for training in various delivery formats including live webinars, on-demand, and instructor-led courses as well as access to relevant training materials from previous classes. Topics in our curriculum range from the National Environmental Policy Act (NEPA) Assignment Program, the Project Development and Environment (PDE) Process, Environmental Permitting, Efficient Transportation Decision Making (ETDM) Process, Section 4(f), and more.

Our **on-demand training** includes Computer Based Trainings (CBTs), videos, and recorded webinars. On-demand training provides a great opportunity for the learner to work at their own pace, whether you are a new employee just starting out or a seasoned professional that may need a refresher. **Live webinars** offer provide direct access to OEM staff and our agency partners, such as the US Army, Corps of Engineers or National Marine Fisheries Service. No more missing out on training due to schedule conflicts, as the Training Academy includes recordings of these webinars for those that may have missed the scheduled event or those that may just want to review the material again. For certain topics, we are able to provide **instructor-led** courses. These are scheduled based on need and as staff availability and budget allow. OEM's goal with these courses is to provide more extensive and personal experience for the learner, especially when there are changes in FDOT procedures.

The Environmental Management Training Academy Tracks are organized by category and accessible through the below individual links. Learners are responsible for keeping track of their progress and transcripts. Continuing education credits are not offered for any of our online materials.

Environmental Management Training Academy Tracks

- Track 1: National Environmental Policy Act (NEPA) Assignment Program
- Track 2: Statewide Environmental Project Tracker (SWEPT) Training
- Track 3: Project Development and Environment (PDE) Process
- Track 4: Statewide Acceleration Transformation (SWAT) Process-Removed in 2024
- Track 5: Environmental Coordination, Consultation and Permitting

ETDM/EST

- The Efficient Transportation Decision Making (ETDM) process is Florida's approach to evaluating transportation projects while considering their environmental impacts.
- Developed in response to the "Environmental Streamlining" initiative, the ETDM process promotes early and continuous agency participation and efficient environmental reviews.
- The Environmental Screening Tool (EST) supports agency participation and community involvement throughout Florida's ETDM Process

Environmental Screening Tool

ETDM/EST Home

Welcome to the Environmental Screening Tool (EST) supporting agency participation and community involvement throughout Florida's Efficient Transportation Decision Making (ETDM) Process. To begin, use the **Quick Links** to the right or click an option on the navigation bar to the left. You can find more information under **Help**.

The 5 most recent entries are displayed. Click the Show All button to display all entries.

04/28/2025

We're pleased to announce a redesign of the ETDM Public Access website! The updated site features refreshed styles and streamlined navigation, making it easier for the public to explore project information and resources. These changes are focused on improving overall usability and accessibility.

06/11/2025

ETDM/EST

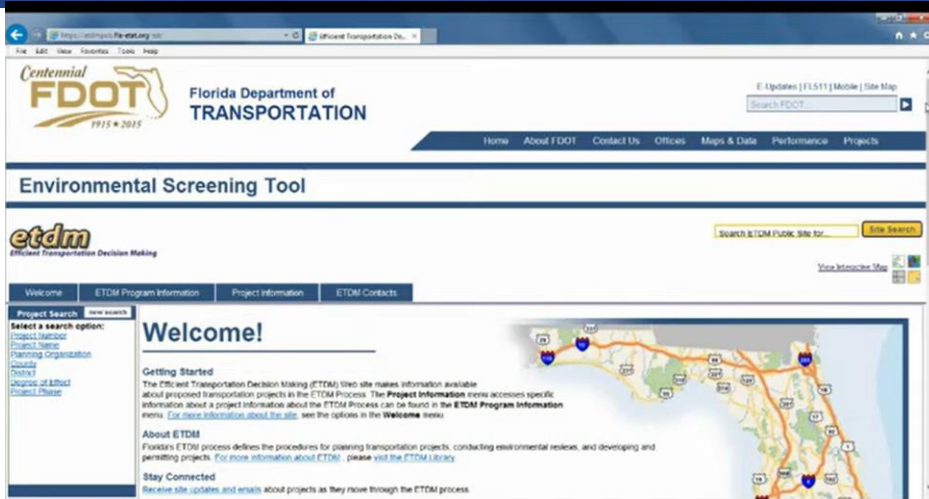

- We're pleased to announce updates to the user experience of the Environmental Screening Tool! These changes, which include style updates for better visibility and navigation, are aimed at enhancing your experience. For more information, please see the attached guide.
- Additionally, users will now be required to acknowledge the Rules of Acceptable Use annually, starting with an initial acknowledgment on 6/14/25. Once a user signs in but before they proceed to the site, a page will show the Rules for Acceptable Use and require the user to check a box acknowledging they have reviewed, read, and understood the rules.

ETDM/EST Training & Help

OEM Training Website

Training Program

Welcome to the Environmental Management Training Program!

Our goal on this site is to provide FDOT staff, consultants, resource agency partners and Local Agency Program (LAP) partners with information about our training program and delivery plan. We offer a wide range of opportunities for training in various delivery formats including live webinars, on-demand, and instructor led courses as well as access to relevant training materials from previous classes. Topics in our curriculum range from the National Environmental Policy Act (NEPA) Assignment Program, the Project Development and Environment (PDE) Process, Environmental Permitting, Efficient Transportation Decision Making (ETDM) Process, Section 405, and more.

Our **on-demand training** includes Computer Based Trainings (CBTs), videos, and recorded webinars. On-demand training provides a great opportunity for the learner to work at their own pace, whether you are a new employee just starting out or a seasoned professional that may need a refresher. **Live webinars** often provide direct access to OEM staff and our agency partners, such as the US Army Corps of Engineers or National Marine Fisheries Service. No more missing out on training due to schedule conflicts, as the Training Academy includes recordings of these webinars for those that may have missed the scheduled event or those that may just want to review the material again. For certain topics, we are able to provide **instructor led** courses. These are scheduled based on need and as staff availability and budget allow. OEM's goal with these courses is to provide more extensive and personal experience for the learner, especially when there are changes in FDOT procedures.

The Environmental Management Training Academy Tracks are organized by category and accessible through the below individual links. Learners are responsible for keeping track of their progress and transcripts. Continuing education credits are not offered for any of our online materials.

Environmental Management Training Academy Tracks

- Track 1 - National Environmental Policy Act (NEPA) Assignment Training
- Track 2 - Statewide Environmental Project Tracker (SEPT) Training
- Track 3 - Project Development and Environment (PDE) Training
- Track 4 - Statewide Acceleration Transformation (SWAT) Process-Removed in 2024
- Track 5 - Environmental Coordination, Consultation and Permitting
- Track 6 - Section 405 Training
- Track 7 - Efficient Transportation Decision Making (ETDM) Process Training
