A green, rectangular sign with rounded corners and a white border, tilted upwards. The word "Questions" is written in a large, white, sans-serif font across the center of the sign. The sign is supported by two metal poles. The background is a bright blue sky with scattered white clouds.

Questions

GUEST SPEAKERS

Eddy Gonzalez, P.E.

ACEC-FL D5 Liaison Chair

Jeremy Dilmore

District Transportation Systems Management and Operations (TSMO)
Program Engineer

Can we get a copy of
Jeremy's presentation?

will there be training on
smart signals in the future

Loreen Bobo, P.E.

District Safety Administrator

Can the D5 safety idea
initiative contact email be
copied into the chat?

How do we register for the Industry Forum mentioned for Loreen? Will it be on the D5 cflroad CAP site? thanks

Driver's Education and Driver's License Renewals touch all drivers directly. How can FDOT engage with those processes to reinforce responsibility and respectfulness?

I'm currently in Seattle and I've seen quite a few safety features. I'll take pictures and send them to you.

What steps are being taken to
educate Pedestrians and
Bicyclists on their role in safety?
Its not all the driver's fault

Do you see more Complete
Streets Projects with the
Safety focus?

Loreen:
what improvements did Sweden
implement to reduce their
fatalities so significantly.

Michelle Sloan

District 5 Procurement Services Manager

Cost is always an issue. Has
FDOT renegotiated their
reimbursement contracts with
the utility providers - since LED's
draw so much less power = \$\$

What do you see as a reasonable minimum time between shortlist and interview or presentation?

How about Written Technicals
instead of interviews for
projects with design fee less
than \$ 1million?

Katherine Alexander

District Program Management Administrator

Ed Kestory, P.E.

District Consultant Project Management Engineer

If the Design Analysis Report is developed after NTP, What happens if there are recommended improvements that would require additional services (Survey/geotech/etc)?

Naziru Isaac, P.E.

District Roadway Design Engineer

Is there a process
established to define Target
Speed for the project?

**Nick Benedico, PE, PMP, AICP,

3D Task Team Chair

Ayman Mohamed, PhD, P.E., PTOE

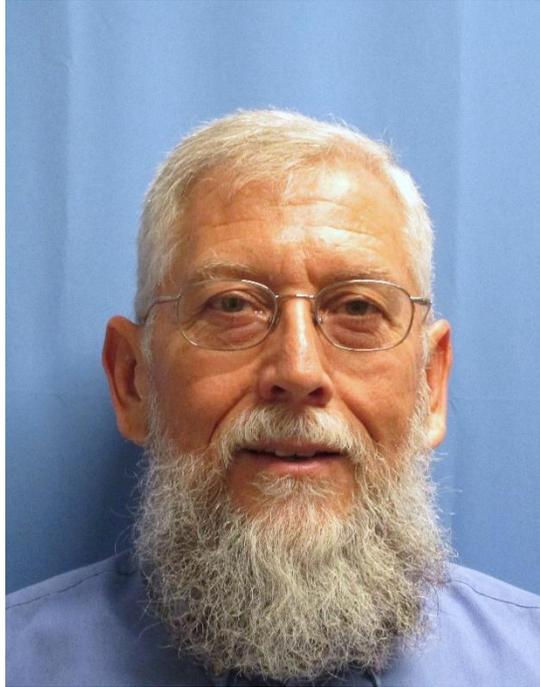

District Traffic Design Engineer

Can other software other than AGI-32 be used for photometric analysis?

If not doing a lighting component plan set because lighting is being done through a RISA, how does this information get shown?

Will this new pole data table
be required on all active
projects as well?
