

# PSEE Module Data Sources

The various modules in PSEE aggregate data from several independent sources, displaying it in a format which is easily viewable. Sometimes, however, it may be necessary to access or view this data from the disparate source systems in which it resides. The following is a list of all currently implemented modules with the sources for their data.

- **Address Book Module:** Obtains data from PSEE and SRS.
- **Commitments Module:** Obtains data from PSEE, RWMS, and EDMS.
- **Contracts Module:** Obtains data from PSEE, EDMS, CITS, and IEI.
- **Design Approval Requests Module:** Obtains data from PSEE and EDMS.
- **Environment Module:** Obtains data from PSEE, ERC, EDMS, SRS, RWMS, and PSM.
- **External Agency Module:** Obtains data from PSEE, TVI, and FM.
- **Permits Module:** Obtains data from PSEE and EDMS.
- **Project Fact Sheet Module:** Obtains data from PSEE, PSM, SRS, GIS, and ERTS.
- **Project Status Module:** Obtains data from PSEE and EDMS.
- **RTM Module:** Obtains data from PSEE, EDMS, SRS, CCTS, and IEI.
- **Survey Work Order Module:** Obtains data from PSEE, EDMS, and SRS.
- **Critical Schedule Change Request Module:** Obtains data from PSEE, EDMS and Primavera.
- **Estimates Change Request Module:** Obtains data from PSEE, EDMS and the ERTS Service.
- **Project Change Package Module:** Obtains data from PSEE and EDMS.
- **Scheduling Change Request Module:** Obtains data from PSEE, EDMS and Primavera.
- **Scope Change Request Module:** Obtains data from PSEE and EDMS.
- **Work Program Change Request Module:** Obtains data from PSEE, EDMS and FM.
- **WP Phase 52 Change Request Module:** Obtains data from PSEE, EDMS and FM.
- **Documents Module:** Obtains data from PSEE and EDMS.
- **ERC Module:** Obtains data from the ERC Service.
- **Financial Module:** Obtains data from the ERTS Service.
- **GIS Module:** Does not obtain data. It only displays the GIS Enterprise view.
- **Local Agency Program Module:** Obtains data from the LAPIT Service.
- **Project Impacts Module:** Obtains data from the GIS Framework Service.
- **PSM Module:** Obtains data from PSM.
- **Related Projects Module:** Obtains data from PSEE and FM.
- **Video Log Module:** Does not obtain data. It only displays the Video Log.
- **Journal Module:** Obtains data from PSEE.

## **Addendum**

Some data sources/systems are not well known or documented, and/or aggregate data from other data sources themselves. In order to better assist in understanding the data, a list of the data sources for these systems is presented below.

- **ERTS (Estimate Report Tracking System):** Obtains data from LRE, FM, and IEI.
- **IEI (Integrated Enterprise Information):** Obtains data from CST, CIT, CRS, DCP, PSI, and SIM.
