

Welcome to the

OFFICE OF ENVIRONMENTAL MANAGEMENT

ENVIRONMENTALLY RESPONSIBLE
TRANSPORTATION DELIVERED

FLORIDA'S RESOURCES

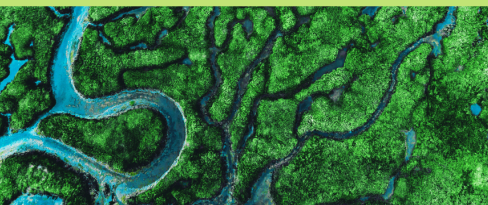

SPECIES AND HABITATS

We help protect over 100 endangered or threatened species across Florida through additional planning, roadway alignments, and wildlife crossings.

WATERS AND FLOODPLAINS

Our team helps design FDOT projects to protect natural waters and reroute stormwater and drainage to help prevent flooding.

POLLUTION AND CONTAMINATION

Our engineers make sure our projects and actions are safe for you and the environment by assessing factors like noise, air quality, and contamination.

CULTURE AND HISTORY

Our history is a part of our cultural environment, so our projects consider cultural resources like historic roads, bridges, structures, and archaeological sites.

OUR LOCAL COMMUNITIES

FDOT makes public involvement an important part of our projects to make sure our local community's thoughts and concerns are heard.

The Road To ENVIRONMENTAL RESPONSIBILITY STARTS HERE

NEPA ASSIGNMENT

In 2016, OEM received NEPA Assignment, taking on the responsibilities of FHWA under NEPA. This allows us to complete NEPA reviews quickly and more efficiently.

ENGINEERING REVIEW AND ANALYSIS

Our engineering team provides expert guidance on physical environmental conditions like air quality, highway noise, water quality, and contamination. They also manage statewide programs such as Transportation Enhancements, Scenic Highways, and Landscape Architecture.

ENVIRONMENTAL REVIEW AND ANALYSIS

Our two Environmental Review and Analysis teams consider natural, cultural, and community resource considerations throughout project phases. They also develop and maintain environmental policy, procedures, manuals, and guidelines.

PROCESS AND PERFORMANCE MANAGEMENT

Our Process and Performance team is responsible for the administrative and technology-based functions of our environmental programs and tools. They also perform quality assurance reviews, provide training and direction, and coordinate with other state and federal agencies.

BUSINESS AND OFFICE MANAGEMENT

Our Business and Office Management team is responsible for contract and budget management, invoicing, and office administration. They coordinate frequently with federal and state agencies and other FDOT offices in support of the FDOT ETDM Process.
