

# HERLONG RECREATIONAL AIRPORT

## HEG

**Airport:** Herlong Recreational Airport (HEG)

**City:** Jacksonville, Florida

**County:** Duval

**Sponsor:** Jacksonville Aviation Authority

**Role:** General Aviation Reliever (Local)

**CFASPP Region:** Northeast  
[cfaspp.com](https://cfaspp.com)

**FDOT District:** 2

**Website:** [Herlong Rec.](https://www.herlongrec.com)

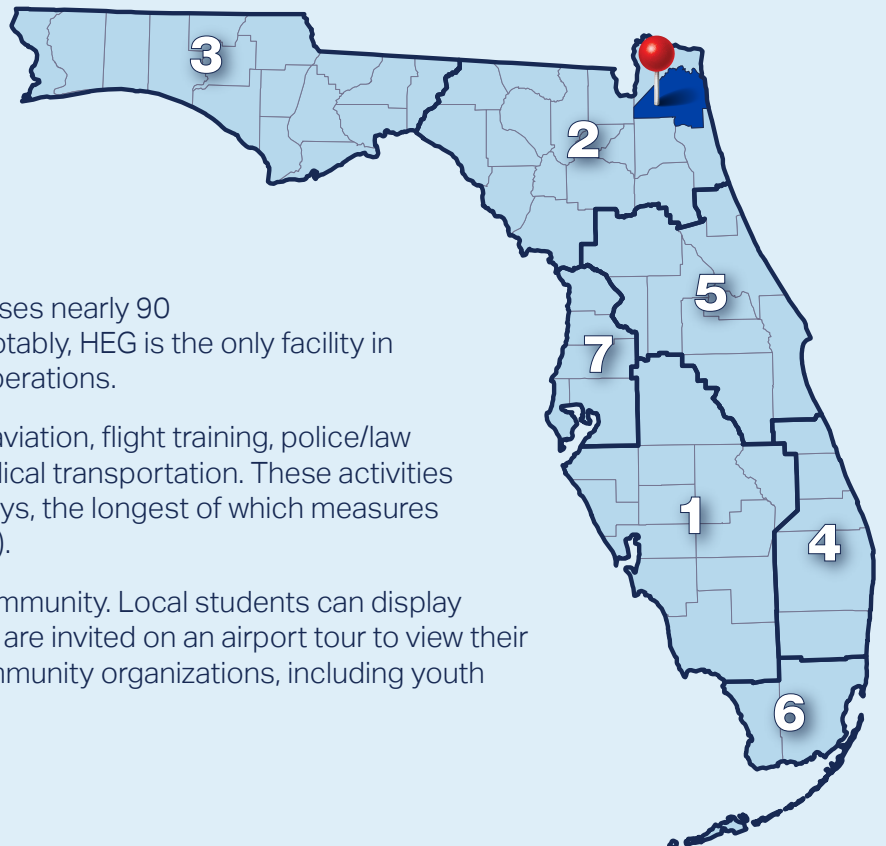

Located in southwest Jacksonville, Herlong Recreational Airport (HEG) provides a convenient and attractive option for recreational pilots flying in the region. The smallest of the four airports operated by the JAA, HEG fulfills an important role in the local aviation landscape.

HEG caters to recreational flying, which composes nearly 90 percent of activities occurring at the airport. Notably, HEG is the only facility in Jacksonville with based glider and skydiving operations.

The airport also supports business/corporate aviation, flight training, police/law enforcement activities, and emergency air medical transportation. These activities are accommodated by HEG's two paved runways, the longest of which measures 4,001 feet long by 100 feet wide (Runway 7-25).

HEG prides itself on engaging with the local community. Local students can display their artwork at the airport, and featured artists are invited on an airport tour to view their work. In addition, HEG offers tours to other community organizations, including youth groups and homeschooled students.

Runway 7-25: 4,001' x 100'

Runway 11-29: 3,500' x 100'

LONGEST RUNWAY: 4,001 ft

25

### Overview of the FASP 2043 Update:

Per Florida statute, the Florida Aviation System Plan (FASP) is periodically updated to summarize the airport and aviation needs in Florida while remaining consistent with the goals of the Florida Transportation Plan (FTP). The FASP 2043 Update focuses on reviewing the applicability of the various goals, objectives, and performance measures to support two primary goals: 1) provide for more efficiency in decision making within FDOT to support funding and development decisions, and 2) provide airports within the system with recommendations for development that support their individual missions while contributing to the overall strength and health of the Florida airport system.
