

OCALA INTL. - JIM TAYLOR FIELD

OCF

Airport: Ocala International Airport - Jim Taylor Field (OCF)

City: Ocala, Florida

County: Marion

Sponsor: City of Ocala

Role: General Aviation (National)

CFASPP Region: North Central (cfaspp.com)

FDOT District: 5

Website: Ocala - Jim Taylor

Ocala International-Jim Taylor Field (OCF) is a "Nationally" ranked Part 139 certified general aviation (GA) airport located approximately 70 miles northwest of downtown Orlando.

The airport has two runways, the longest of which measures 7,467 feet long by 150 feet wide (Runway 18-36). Recreational flying, flight training, freight/cargo, and business aviation represent the primary activities at the airport.

A state-of-the-art, 17,500 square foot GA terminal building was completed in 2020 and is home to the airport's fixed base operator (FBO), office space, and a restaurant that has been instrumental in attracting members of the public to the airport. Through its tenants, the airport supports a variety of career training and education opportunities for current and aspiring aviation professionals. Spanning over 800 acres of prime land for aviation and non-aviation opportunities, the Airport is proactively enhancing its infrastructure to support future growth and development.

OCF also serves as a gateway to the area's renowned equine industry and the recently opened World Equestrian Center (WEC), the largest equestrian complex in the U.S.

RUNWAY INFORMATION (2)

Runway 18-36: 7,467' x 150'

Runway 8-26: 3,009' x 50'

Overview of the FASP 2043 Update:

Per Florida statute, the Florida Aviation System Plan (FASP) is periodically updated to summarize the airport and aviation needs in Florida while remaining consistent with the goals of the Florida Transportation Plan (FTP). The FASP 2043 Update focuses on reviewing the applicability of the various goals, objectives, and performance measures to support two primary goals: 1) provide for more efficiency in decision making within FDOT to support funding and development decisions, and 2) provide airports within the system with recommendations for development that support their individual missions while contributing to the overall strength and health of the Florida airport system.
