Dade-Collier Training and Transition Airport (TNT) is in Ochopee in south Florida. The airport is operated by the Miami-Dade Aviation Department and owned by Miami-Dade County.

TNT provides one paved runway (Runway 9-27) that is 10,499 feet long by 150 feet wide. The airport offers an opportunity for commercial, recreational, and military pilots to safely practice instrument approaches.

Pre-authorization is required for all operations associated with commercial activities and aircraft over 12,500 pounds.

The Dade Collier Training and Transition Airport also supports aerial firefighting, law enforcement operations, and other emergency preparedness and response activities.

Runway 9-27: 10,499' x 150'

Overview of the FASP 2043 Update:

Per Florida statute, the Florida Aviation System Plan (FASP) is periodically updated to summarize the airport and aviation needs in Florida while remaining consistent with the goals of the Florida Transportation Plan (FTP). The FASP 2043 Update focuses on reviewing the applicability of the various goals, objectives, and performance measures to support two primary goals: 1) provide for more efficiency in decision making within FDOT to support funding and development decisions, and 2) provide airports within the system with recommendations for development that support their individual missions while contributing to the overall strength and health of the Florida airport system.
