

Resolution Tracking Search

The Resolution Tracking Search feature allows users to search for RTM Issues present in the PSEE System. For more information on RTM Issues, please read the [Resolution Tracking Module Help Document](#).

1. Select **Search** from the main menu on the upper right corner of the screen.

2. By default, the Project Search will be displayed. To view the Resolution Tracking Search, select the **Resolution Tracking** tab.

3. Select the values that should be used to search for Issues. You may provide a combination of one or many values.
 - **Project Search Options:** Check this checkbox to view all options from the Project Search. All of these options will be factored into the search along with any other options entered specific to Commitments. For details on using the Project Search, please reference the [Project Search Help Manual](#).

- **District:** The district is set to user's district by default. More options are available in the Project Search Options, discussed earlier.

- **Status:** Allows you to search for Issues based on their current Status.
