

Qualification Performance Report (QPR) Field Review**Slurry Testing**

Project Name/SR#: _____ FPN: _____ District/County: _____
 IA Observer: _____ Date: _____ Start/Finish Time: _____

Insp. Name: _____ Insp. Phone & Email: _____
 TIN: _____ Employer: _____
 Insp. Supervisor: _____ Super. Email: _____

Date of last field review or FT if it is the first time:

What is "Error/Warning Level" of the previous applicable review:

Fluid Density		Yes	No	N/A
1	Did the technician use a calibrated balance? (test it with pure water; you should read specific gravity of 1.0 or 62.4 pcf)			
2	Did the technician use a flat, level surface?			
3	Did the technician use a clean balance and vessel?			
4	Did the technician filled the vessel properly and cleaned the excess?			
Viscosity				
5	Did the technician use a clean and calibrated funnel (test it with pure water; you should get 25-27 secs)			
6	Did the technician fill funnel through the screen to the top line ?			
7	Did the technician use a clean, dry calibrated cup and performed the test filling up to the 1/4 gallon line?			
pH				
8	Did the inspector use a paper strip in good condition?			
9	Was the paper allowed to stabilize?			
10	If the technician used a meter did he check the calibration?			
Sand Content				
11	Did the technician use a clean, dry, calibrated glass?			
12	Did the technician pour mud to the proper level in glass?			
13	Was glass rinsed and emptied properly through the screen?			
14	Was the sand properly retained and returned back to the bottom of the glass, including sand from the funnel and glass walls?			
15	Did the fluid look acceptably clean of mud when the reading was performed? (technician should do more than one rinse if needed)			

Were all items during this field review performed/demonstrated in accordance with qualification standards? Yes No

If "NO" to above , what is the number of unsatisfactory items?

What is the "Error/Warning Level" ** after this field review?

ADDITIONAL NOTES/COMMENTS FROM THIS FIELD REVIEW:

*-Failure in one or more items marked with an asterisk will be grounds for an increase in the "Error/Warning Level"

**-"Error/Warning Level": 0- Review has no unsatisfactory items, 1-Verbal, 2-Written, 3-Revocation
