

## **SECTION 544 VEHICULAR IMPACT ATTENUATORS**

### **544-1 Description.**

Install redirective and non-redirective vehicular impact attenuators (VIA) of the sizes and types designated in the plans. Redirective VIA's are safety devices with capabilities to redirect the impacting vehicle over the full length of the device. Non-redirective VIA's allow controlled penetration of the impacting vehicle over the full length of the device.

### **544-2 Qualified Products List.**

Use Vehicle Impact Attenuators listed on the QPL. Manufacturers seeking evaluation of their VIA's shall furnish certified test reports showing that their products meet all test requirements of NCHRP 350.

### **544-3 Construction.**

Handle and install manufactured materials or articles in accordance with the manufacturer's instructions and the Design Standards.

Use attenuators delineated with a Type I Object Marker specified in Section 705.

Perform repairs necessary due to defective material, work, or operations without additional cost to the Department.

Restore the attenuator damaged by the traveling public after the installation is completed, accepted and serving its intended purpose on an open section of bridge or roadway within 24 hours.

### **544-4 Compensation.**

Price and payment will be full compensation for the complete system or module in place and accepted, including object marker. Restoration of the attenuator will be paid for at the invoice price plus 20%, for the new parts authorized by the Engineer. Payment for restoration will be full compensation for all necessary work and materials.

Relocation of an existing attenuator system to a permanent location called for in the plans shall be paid for at the Contract unit price for relocating existing systems. Price and payment will be full compensation for relocating and reinstalling the system in accordance with the manufacturer's instructions and the Design Standards.

Payment will be made under:
