

MASTER AGREEMENT BETWEEN
STATE OF FLORIDA
DEPARTMENT OF TRANSPORTATION
AND
STATE OF FLORIDA
DEPARTMENT OF CORRECTIONS
For Fiscal Year 2018 - 2019

THIS MASTER AGREEMENT (this "Agreement") made and entered into this 18th day of June, 2018, between the State of Florida, Department of Transportation (hereinafter referred to as "DOT"), and the State of Florida, Department of Corrections (hereinafter referred to as "FDC").

WITNESSETH:

WHEREAS, the Florida Transportation Code, Section 339.08(2), Florida Statutes, provides that DOT shall enter into contractual agreements with FDC for those specific maintenance functions which can be performed effectively by prison inmates under the supervision of FDC personnel, with technical assistance being provided by DOT; and

WHEREAS, Section 946.40, Florida Statutes, and Rules 33-601.201 and 33-601.202, Florida Administrative Code authorize the FDC to enter into agreements with other state agencies for the use of inmate labor in public works; and

WHEREAS, minimum and community custody inmates may be used for these purposes without being accompanied by a correctional officer, provided DOT provides proper supervision pursuant to the FDC's rules; and

WHEREAS, the cost of such agreements shall not exceed the cost that would be incurred by the DOT if such functions were to be performed by its personnel or by agreement with another entity unless, notwithstanding cost, the DOT can clearly demonstrate that it is in DOT's best interests to enter into this Agreement for reasons of expediency; and

WHEREAS, an appropriation of \$19,646,000.00 is available to DOT for the 2018-19 Fiscal Year to fund a contractual arrangement between DOT and FDC for use of inmate labor for maintenance pursuant to Section 339.08, and Section 946.40, Florida Statutes; and

NOW, THEREFORE, the parties hereto find it to be in the best interest of the State of Florida, and in consideration of the mutual benefits to be derived here from, the DOT and FDC agree as follows:

I. TERM AND RENEWAL

A. Term

This Agreement shall begin on the 1st day of July, 2018, or the date on which this Master Agreement is signed by both parties, whichever is later, and shall end at midnight on the 30th day of June, 2019.

B. Renewal

This Agreement may be renewed annually at the mutual agreement of the parties.

II. PURPOSE OF AGREEMENT

The purpose of this Agreement is for FDC to provide inmates working under the supervision of FDC ("FDC Supervised Work Crews") to perform regularly scheduled specific maintenance activities as directed by the DOT, and to provide inmates who are assigned to and working under the supervision of DOT ("Supplemental Support Labor"). A complete list of all possible maintenance activities is attached hereto and incorporated herein as Addendum "B". The specific maintenance activities, estimated quantities of maintenance activities, estimated number of inmates, hourly unit cost, work schedule, and locations shall be identified in the local agreement between each DOT District and FDC Facility ("Local Agreement"), the form of which is attached hereto and incorporated herein as Addendum "A". FDC Supervised Work Crews and Supplemental Support Labor may be assigned by DOT to a Maintenance Office, Operations Center, Asset Maintenance Contractor, or, if deemed appropriate by the DOT Maintenance Engineer in certain situations, FDC Supervised Work Crews may report directly to the work location.

III. SCOPE OF WORK

A. Responsibilities of DOT

1. Supplemental Support Labor. DOT shall regularly schedule work for minimum/community custody inmates provided by FDC pursuant to each Local Agreement. DOT shall compensate FDC at the wage rate, as set forth in Addendum "B" attached hereto and incorporated herein, for each hour for each inmate actually provided. Compensable inmate work time shall begin when inmates are made available to work, and shall end when inmates stop working at the work location as directed by DOT.

DOT will provide FDC at least 24 hours' notice in the event that DOT requires Supplemental Support Labor to perform routine or non-emergency work during other than normal work hours (e.g., evenings and/or nighttime). If approved by FDC, DOT will pick the inmates up from and return the inmates to the FDC facility.

2. FDC Supervised Work Crews. DOT, in cooperation with FDC, shall identify and regularly schedule specific maintenance activities to be performed by inmates under the supervision of FDC Officers.

DOT shall compensate FDC at the wage rate as set forth in Addendum "B" for each hour for each inmate actually provided, and subject to the limitations established below, DOT

shall compensate FDC for daily FDC Officer travel time required to transport inmates between FDC facilities and the DOT work location ("FDC Officer Travel Time") at the rate of Activity 036 in Addendum "B". FDC Officer Travel Time shall begin when the inmate crew leaves the FDC facility, and shall end when the inmate crew is made available to work. FDC Officer Travel Time at the end of the shift shall commence when the inmate crew leaves the DOT work location and will end when the inmate crew arrives at the FDC facility. Limitations: If FDC Officer Travel Time for an FDC Officer is less than 30 minutes for a day, no compensation will be provided for FDC Officer Travel Time for that FDC Officer for that day. If FDC Officer Travel Time for an FDC Officer is greater than 2 hours for a day, a maximum of 2 hours of compensation will be provided for FDC Officer Travel Time for that FDC Officer for that day.

Compensable inmate work time shall begin when the FDC Supervised Work Crew is made available to work, and shall end when the FDC Supervised Work Crew stops working at the work location as directed by DOT. Inmate travel to and from the work location shall not be compensable. Additional compensation will be considered by DOT in cases of extended, unforeseen emergency projects that result in overtime for FDC Officers supervising inmate labor. When a FDC Officer works on a work location more than 40 hours in a workweek, the FDC Officer's overtime will be compensated at the Activity 991 Emergency Maintenance rate per hour from Addendum "B". This compensation for the FDC Officer's overtime is in addition to the compensation for the work performed by the FDC Supervised Work Crew. The DOT Maintenance Engineer responsible for the Local Agreement must approve any overtime that will be paid by DOT concerning FDC.

3. DOT Supervision of Supplemental Support Labor. DOT shall provide supervision of inmates in accordance with FDC rules and regulations. In accordance with Rule 33-601.202 (6), Florida Administrative Code, prior to supervising inmates, each DOT employee who is to supervise inmates shall have a criminal history record check completed by FDC, be approved by the FDC to supervise inmates, and successfully complete training in supervising inmates provided by FDC.

DOT employees will supervise inmates assigned as Supplemental Support Labor on a two-to-one (2:1) ratio, except during lunch and non-work periods, or as otherwise provided herein. The two-to-one ratio may be exceeded in unusual circumstances if approved by the DOT Maintenance Engineer and with approval of the FDC Agreement Manager. Examples of unusual circumstances would include an emergency situation or the temporary unavailability of DOT personnel. The two-to-one (2:1) ratio shall not be exceeded on a continuing basis. A ratio greater than four inmates to one (4:1) DOT employee shall not be exceeded at any time. Any DOT employees' concerns with working with greater than a two-to-one ratio should be handled by DOT on a case-by-case basis.

DOT may include DOT employees, Other Personnel Services ("OPS") employees and contract employees.

4. DOT Support for FDC. DOT shall provide for and support FDC in performing the requirements of this Agreement as follows:

- a. DOT shall provide all tools, equipment, materials and personal items such as gloves, rubber boots, hard hats, rain gear, etc., as is necessary, appropriate, or required to perform the work, and provide for the storage of such items.
- b. DOT shall provide FDC Officers and Supplemental Support Labor with technical assistance and verbal and/or written instructions pertaining to work methods, reporting of production, and use of equipment/tools as required or necessary to perform the assigned tasks. Further, DOT:
 - (1) will require FDC Supervised Work Crews to operate tools/equipment such as crew cab trucks, concrete mixers, wood chippers, small forklifts, small front-end loaders, weed eaters, curb edgers, chainsaws, tractors, etc., when the operation of such equipment is a routine part of the assigned activity;
 - (2) will provide training for FDC Officers in a manner consistent with the practices used to train DOT employees in the utilization of assigned tools and equipment and proper work methods. As a standard practice, DOT will not provide training to inmates assigned to FDC Supervised Work Crews. For FDC Officers that do not have experience in the utilization of assigned tools and equipment or proper work methods, DOT will provide direction, to include verbal and written instructions necessary for the officer to be assessed competent by DOT in the utilization of assigned tools and equipment or proper work methods; and
 - (3) will verify competency of the FDC Officer in the same manner used to verify competency of a DOT employee. An inmate whose competency is verified by the FDC Officer is allowed to operate off-road equipment.
- c. DOT may require FDC Officers, FDC Supervised Work Crews, and Supplemental Support Labor to attend DOT safety meetings. Compensation shall be at the hourly rate for inmates. FDC will be given a list containing the names of officers and/or inmates attending safety classes or formal training within five (5) days of their completion date.
- d. DOT requires FDC Officers responsible for the installation and/or maintenance of traffic control devices meet Maintenance of Traffic ("MOT") training requirements in accordance with DOT Procedure 625-010-010, Temporary Traffic Control (Maintenance of Traffic) Training Procedure and the Temporary Traffic Control (Maintenance of Training) Training Handbook.
- e. DOT will offer DOT-provided MOT training courses to FDC Officers at no cost to FDC. DOT will advise FDC when DOT-provided MOT training opportunities are available. DOT will pay the administrative service fee for FDC Officers. FDC Officers may attend regularly scheduled MOT courses provided by DOT if space is available after DOT employees have registered for the course.
- f. If the DOT has Commercial Driver's License training sessions scheduled for DOT employees, DOT shall disseminate information on available training opportunities to FDC Officers who are required to hold a valid Commercial Driver's License as specified by Florida Statutes. If space is available, DOT will allow FDC Officers who are required to hold a valid Commercial Driver's License to attend DOT

Commercial Driver's License training sessions scheduled. DOT shall not be responsible for any costs associated with any FDC Officer obtaining or maintaining a Commercial Driver's License, which includes but is not limited to the cost of training. DOT will also not be responsible for holding or arranging Commercial Driver's License training sessions specifically for FDC Officers.

- g. DOT shall provide vehicles for transporting inmates between FDC facilities and DOT work locations and also to and from individual work locations. FDC shall provide FDC Officers to operate the DOT-provided vehicles for transporting inmates. All vehicle operating costs such as fuel, maintenance, and repairs shall be the responsibility of DOT. DOT vehicles used for transporting inmates shall be equipped with a two-way communication radio with adequate range to communicate directly with FDC or DOT personnel. All DOT vehicles used for transporting inmates shall meet DOT safety standards. DOT shall promptly make repairs to meet such standards.
 - h. DOT shall make all new DOT inmate supervisors available for thirty-two (32) hours of orientation and training, provided by FDC, prior to assuming supervision of inmates. All other DOT inmate supervisors who have previously completed this training shall be made available for eight (8) hours of refresher training, provided by FDC, during the 2018-19 Fiscal Year.
 - i. DOT shall notify FDC immediately in the case of an escape or misconduct by an inmate, or when inmates fail to perform assigned tasks in a satisfactory manner. DOT shall have the right to refuse any such inmate for use in subsequent work assignments. All such action shall be followed up by providing written notification to FDC from the DOT Maintenance Engineer, or designee.
 - j. DOT may train its employees to administer first aid and will provide first aid assistance to the extent of their training. DOT will provide first aid to FDC inmates on the same basis as that provided to DOT employees, and will promptly transport an injured inmate to a doctor or hospital should such care be needed. DOT supervisors shall immediately report all inmate injuries to FDC, regardless of severity. Medical-related complaints made by inmates to DOT shall be reported to FDC as soon as possible.
 - k. DOT shall provide notification in writing to FDC, when appropriate, when an FDC Officer fails to follow DOT rules, regulations, policies, and procedures pertaining to the performance and production of assigned work.
 - l. Payment shall be made only after receipt and approval of goods and services as provided in Section 215.422, Florida Statutes.
5. Legislative Appropriation. So long as there is legislative appropriation for DOT to use inmate labor as provided in Section 339.08(2) Florida Statutes, DOT will maintain or expand usage of inmate labor so that FDC will receive, as much as possible, the appropriation dollars for inmate labor as provided by the Legislature.
6. Use of FDC Supervised Work Crews or Supplemental Support Labor by DOT Contractors. It is understood that FDC is performing work under agreement with DOT. DOT is expanding its use of asset maintenance contractors to manage and operate its

transportation system. DOT and FDC agree to utilize FDC crews as has been done historically. DOT's contractual administrative responsibilities may be performed by an asset maintenance contractor. This Agreement, and its incumbent responsibilities, are directly between DOT and FDC, and DOT will continue to make payment directly to FDC for work performed under this Agreement.

B. Responsibilities of FDC

1. Required Number of FDC Officers and FDC Supervised Work Crews. FDC shall provide the scheduled number of officers and inmates each work day stipulated in the Local Agreement(s).
2. Required Number of Supplemental Support Labor. FDC shall provide the required number of minimum/community custody inmates each work day as established in the Local Agreement(s). The inmates provided shall exclude those classes of inmates listed in subsections (4) and (5) of Rule 33-601.202, Florida Administrative Code, as provided by Section 946.40(4), Florida Statutes, and no person convicted of a sexual battery pursuant to Section 794.011, Florida Statutes, shall be included among the inmates provided by FDC to DOT.
3. Retention of Trained FDC Officers. FDC will make reasonable efforts, to the maximum extent possible, to schedule and provide FDC Officers that have been previously trained by the DOT in the work to be performed to maximize production and increase effectiveness of previous training efforts.
4. FDC Relief Officers. FDC shall make every effort to provide a FDC Relief Officer when the assigned FDC Officer must be absent for training or approved leave. FDC will notify DOT of a FDC Officer's absence due to illness, as soon as practical upon the FDC Officer's notification to FDC of the illness-related absence. FDC Relief Officers must be familiar with provisions of this Agreement and the Local Agreement. FDC Relief Officers must be properly trained in DOT procedures and equipment before assignment to an FDC Supervised Work Crew.
5. Escapee/Problem Inmates. FDC shall be responsible for the apprehension of an escapee and handling problem inmates. FDC shall provide transportation from the work location to FDC facilities for inmates who refuse to work, become unable to work, or cause a disruption in the work schedule. If a replacement is immediately available, FDC shall provide a replacement inmate when an inmate must be removed from the work location.
6. Retention of Trained Inmates. FDC shall, to the maximum extent possible, retain the same inmates assigned to DOT on a day-to-day basis in order to maximize the effectiveness of previous training.
7. Safety Apparel. FDC shall provide high visibility safety apparel for FDC Officers supervising FDC Supervised Work Crews. FDC shall provide inmates with high visibility safety apparel and personal items of clothing appropriate for the season of the year. High visibility safety apparel shall meet the requirements of Index 600 (sheet 3 of 13) of the current FDOT Design Standards.
8. Food and Drinks. FDC shall provide food and drinks for inmates for the meal appropriate to the work schedule.

9. Inmate Physical and Mental Ability. FDC shall provide inmates who are physically and mentally able to perform various work assignments, including manual labor, as outlined in the Local Agreement. DOT will make reasonable efforts to cooperate with FDC to facilitate accommodations made by FDC for inmates with physical and mental disabilities, in accordance with the Americans with Disabilities Act (ADA).
10. DOT Equipment. FDC shall accept responsibility for all tools, equipment, supplies, materials, and personal work items (gloves, boots, hard hats, etc.) furnished by DOT. A hand-receipt shall be signed by the FDC Officer upon issuance and return of non-expendable items. FDC shall replace or repair to previous condition any tool or equipment that is damaged or lost as a result of negligence or abuse by FDC Officers or inmates. FDC is only responsible for replacing the tool or equipment in proportion to the damage or loss caused by such negligence or abuse. If an agreement cannot be reached regarding loss or damage to any tool or equipment, the following dispute resolution process shall be implemented:
 - a. The first level of review will be between the FDC Work Squad Monitor/Supervisor and the DOT employee assigned as coordinator for the Local Agreement, and/or his or her designee.
 - b. The second level of review will be the FDC Warden or Assistant Warden and the DOT Maintenance Engineer, and/or his or her designee.
 - c. The third level of review will be the FDC Regional Director and the DOT District Maintenance Engineer, and/or his or her designee.
 - d. The fourth and final level of review will be between the FDC Office of Institutions and the DOT Office of Maintenance.
11. Disciplinary Action. FDC shall be responsible for administering all disciplinary actions taken against an inmate for infractions committed while under DOT supervision. When appealable disciplinary action is taken, DOT shall provide witnesses needed to sustain such action.
12. Inmates Ready to Travel. FDC shall ensure that inmates are ready to travel to work locations at the appropriate times regardless of temperature or weather, unless notified by DOT of suspended work operations. The only exception shall be under conditions which would breach good security practices. FDC shall notify DOT if conditions would breach good security practices as early as possible. Supplemental Support Labor and FDC Supervised Work Crews are expected to be on time. If they are more than fifteen (15) minutes late, DOT will reduce the payments proportionate to the time not present.
13. Medical Treatment. FDC shall be responsible for the cost of medical treatment for inmates injured on-the-job.
14. Notification of DOT Supervisor's failure to follow FDC Rules. FDC shall notify DOT, in writing, when a DOT supervisor fails to follow FDC rules, regulations, policies and procedures for providing proper inmate supervision.
15. Accurate Records. FDC shall maintain accurate records of the number of inmates made available to DOT and the amount of work performed by FDC Supervised Work Crews each day. DOT Crew Report (Form No. 325-010-01) shall be used by FDC to report work completed. The FDC Officer shall complete the form, sign, and submit it to DOT

for review and signature prior to commencement of the following day's work. Any exceptions to this procedure shall be specified in the Local Agreement.

16. Training Schedule. FDC shall provide DOT with an annual schedule of upcoming initial training and refresher training courses for non-FDC personnel supervising inmates. Initial training will be coordinated between the agencies and scheduled as needed. Training shall be standardized and conducted in each district and shall cover all current FDC procedures, rules, policies and/or regulations applicable to supervising or working with inmates as provided in this Agreement. In addition, FDC shall provide the DOT Maintenance Engineer, or designated supervisory employee, with a copy of the training curriculum as a resource or referral document. FDC shall provide a Training Certification Card, Form DC6-244, to each DOT employee upon completion of training and prior to assuming supervision of inmates. Subsequent training sessions shall be scheduled as requested and/or required. Inmates shall not be supervised by DOT employees who have not completed the required training and issued a Training Certification Card.
17. FDC shall ensure FDC Officers successfully complete and update as necessary the appropriate course of MOT training as required and defined in DOT Procedure 625-010-010-h, Temporary Traffic Control (Maintenance of Traffic) Training Procedure and the Temporary Traffic Control (Maintenance of Traffic) Training Handbook for work zone traffic control prior to performing any work on the State Highway System for which the FDC Officer is responsible for installation and/or maintenance of traffic control devices. FDC Officers, including FDC Relief Officers and existing officers that have been reassigned duties, will complete the training prior to assignment to supervise a FDC Supervised Work Crew that requires traffic control setup. FDC Officers shall provide DOT documentation of MOT certification upon request.

FDC Officers with the appropriate MOT Training are responsible for training inmates in proper flagging techniques.

FDC shall register, schedule and provide travel arrangements as necessary for FDC Officers to attend DOT provided MOT training at no cost to the DOT.

18. License Requirements. FDC shall ensure FDC Officers who operate a DOT vehicle hold a valid license, with proper endorsement, commensurate with the vehicle being driven. In order to operate vehicles that are classified as a Commercial Motor Vehicle, the FDC Officer shall hold a valid Commercial Driver's License (CDL), as specified by Florida Statutes. FDC will make every effort to provide an FDC Officer with the appropriate license for the vehicle necessary for the work activity scheduled. If an FDC Officer with the appropriate license is not available, DOT may opt to reassign the work crew to an activity that does not require use of a Commercial Motor Vehicle.
19. Controlled Substances and Alcohol Use and Testing Program. FDC shall implement and maintain the federally-mandated Controlled Substances and Alcohol Use Testing Program for any of its FDC Officers who are required to operate any DOT vehicles that are classified as a Commercial Motor Vehicle.

The Controlled Substances and Alcohol Use and Testing Program must be in compliance with the provisions of United States Department of Transportation ("USDOT") Regulation 49 CFR Part 40; Federal Highway Administration ("FHWA") Regulation, 49 CFR Part 382, et.al.

C. FDC and DOT mutually agree as follows:

1. FDC and DOT will abide by the rules, regulations, policies and procedures of each agency as they pertain to the performance of assigned work and the supervision of assigned inmates under this Agreement.
2. FDC is not required to use a third-party MOT training provider, but FDC may choose to do so. DOT will not be responsible for the cost of MOT training provided by third party MOT training providers.

DOT will not be responsible for holding or arranging MOT training courses specifically to meet MOT training requirements for FDC Officers. DOT will not be responsible for the compensation of FDC Officers' time that is required to travel to DOT provided training.

FDC shall ensure the availability of MOT certified FDC Officers. If an FDC Officer with the required MOT certification is not available, and FDC has provided advanced notice to DOT, DOT may assign the work crew to another work activity. DOT will not schedule an FDC Supervised Work Crew for work requiring traffic control setup if the FDC Officer is not MOT certified.

3. In the event of an emergency declared by the Governor, request(s) for assistance in the areas covered by the declaration should be submitted to the State Emergency Operations Center (SEOC). FDC will make every effort to resume normal operations as soon as possible upon the conclusion of the emergency event. In the event of any other emergencies, FDC Officer and inmates shall respond to requests pending approval by the Warden or Regional Director. Upon notification and approval, FDC will respond to emergencies within a reasonable period of time.
4. Changes to normal working hours for FDC Officers, as established by each Local Agreement, will require an Addendum to be executed to modify the Local Agreement. Addendums modifying FDC Officer scheduled work hours must be approved by DOT and FDC two weeks prior to changing the work schedule.
5. FDC and DOT shall designate a local supervisory employee from each FDC facility and DOT work location that is the subject of the Local Agreement. The designated local supervisory FDC and DOT employees will be responsible for coordinating and scheduling of the FDC Supervised Work Crew operations, and the scheduling of Supplemental Support Labor working under DOT supervision (e.g., for FDC – the institution work squad monitor/supervisor and for DOT – the DOT employee assigned to coordinate the Local Agreement).
6. DOT and FDC agree that the primary duty and responsibility of the FDC Officer is to supervise assigned inmates in a manner consistent with FDC's responsibility to maintain security and protect the public. With the exception of crew cab trucks or other vehicles utilized to transport the work crew(s), tools and equipment routinely required for the assigned work activity will be operated by inmates assigned to the work crew. When there is no inmate on the crew with the competency to operate the required tools and equipment, DOT will assign the work crew to another work activity if available, or advise FDC that the crew's workday is finished. DOT and FDC will make every effort to amicably resolve the situation to prevent further interruptions to

the work effort. FDC will expedite the identification of an inmate(s) with the necessary competency (ies) for assignment to the crew(s).

7. The estimated costs of the executed Local Agreements shall not be construed as a guaranteed payment. The total combined payments from DOT to FDC for the fiscal year shall not exceed the fiscal year appropriation amount. No work will be performed by FDC Supervised Work Crews or Supplemental Support Labor once the fiscal year appropriation amount has been reached.

8. FDC and DOT shall:

Prepare individual Local Agreements; and

Establish a total cost for each Local Agreement which is reflective of the work that FDC can reasonably expect to accomplish based on the FDC Supervised Work Crews and/or Supplemental Support Labor identified in the Local Agreement.

The Local Agreement shall be signed by the FDC facility Warden and the DOT Maintenance/Operations Engineer responsible for the Local Agreement work locations. DOT and FDC agree to provide notification and contact information to the other party, if the identity of the responsible party changes.

No work may begin prior to the execution of a Local Agreement.

All Local Agreements shall become a part of this Agreement.

Copies of all Local Agreements shall be submitted to the FDC Bureau of Institutional Support Services, appropriate FDC Regional Office, the DOT District Maintenance Office, and the DOT Office of Maintenance upon approval by all parties.

9. To maximize the time available for FDC Supervised Work Crews to perform their assignments each regularly scheduled work day, DOT, in coordination with FDC, will plan and schedule FDC Supervised Work Crews to report directly to work locations, minimizing unnecessary travel at the beginning and end of the workday. Work schedules will be planned in advance. Changes in schedules will be communicated immediately between the DOT and FDC Officer.
10. Every month, DOT shall prepare a combined summary of the Maintenance Contract Payment Submittal that reflects in detail the services received from each FDC facility providing inmate labor. DOT shall provide the summary of Maintenance Contract Payment Submittal to the FDC facility by the 10th of the month following the month in which the work was performed. FDC will review and verify the accuracy of the Maintenance Contract Payment Submittal, retain a copy for their records, and return a copy to DOT to be used as the invoice.
11. This Agreement, together with Addendums "A" and "B", constitutes the complete understanding between the DOT and the FDC for the utilization of inmates by DOT, and supersedes all prior agreements.
12. Bills for fees or other compensation for services or expenses shall be submitted in accordance with DOT Topic No. 350-020-301-j. Travel expenses specifically

authorized by this Agreement shall be submitted on Travel Form No. 300-000-01 and will be paid in accordance with Section 112.061, Florida Statutes and the most current version of the Disbursement Handbook for Employees and Managers. (Section 287.058(b), Florida Statutes, Section 215.422(11), Florida Statutes, and Section 287.058(1) (b), Florida Statutes).

13. DOT and FDC may unilaterally cancel this Agreement in whole or in part, upon one hundred twenty (120) days' written notice, at any time the interest of the respective agency requires such termination, or if an agency were to refuse to allow public access to documents, papers, letters or other materials subject to the provisions of Chapter 119, Florida Statutes, and made or received by the agency in conjunction with this Agreement, or Local Agreement (s).
14. FDC shall provide written notice to DOT at least one hundred and twenty (120) days prior to FDC facility closures that will result in a reduction of inmate work crews as established in any Local Agreement.
15. Any dispute regarding performance under this Agreement shall be resolved informally at the local level. If the dispute cannot be resolved informally, DOT and FDC shall resolve the matter using the following dispute resolution process. For dispute resolution see Section III. B., Item 10, (a-d).
16. Modifications to this Agreement shall be valid only through execution of a formal Agreement amendment.
17. It is understood and agreed by the parties hereto that if any part, term, or provision of this Agreement is by the courts held to be illegal or in conflict with any law of the State of Florida, the validity of the remaining portions or provisions shall not be affected, and the rights and obligations of the parties shall be construed and enforced as if the Agreement did not contain the particular part, term, or provision held to be invalid.
18. Any questions or matters arising under this Agreement as to validity, construction, enforcement, performance, or otherwise, shall be determined in accordance with the laws of the State of Florida.
19. Venue for any and all actions arising out of or in any way related to the interpretation, validity, performance or breach of this Agreement shall lie exclusively in a state court of appropriate jurisdiction in Leon County, Florida.
20. Prison Rape Elimination Act (PREA): DOT will comply with the national standards to prevent, detect, and respond to prison rape under the Prison Rape Elimination Act (PREA), Federal Rule 28 C.F.R. Part 115. DOT will also comply with all FDC policies and procedures that relate to PREA.

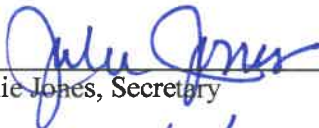

IN WITNESS WHEREOF, the parties hereto have caused this Master Agreement to be executed by their undersigned officials as duly authorized.

ADDENDUM "A"
CONTRACT _____

LOCAL AGREEMENT (FY 18/19)

This Local Agreement between the Florida Department of Transportation, District _____, hereinafter referred to as DOT, and the Florida Department of Corrections, hereinafter referred to as FDC, shall be made a part of the Master Agreement between the above-mentioned agencies dated _____ day of _____.

DOT agrees to compensate FDC for inmate labor, as provided for by this Local Agreement, for maintenance activities listed in the Master Agreement Addendum "B" (attached). The estimated amount of annual compensation for this Local Agreement is \$ _____.

DOT agrees to supervise _____ community and/or minimum custody inmates as supplemental support labor.

FDC agrees to provide _____ correctional officers to supervise _____ inmates for labor to be performed as scheduled by DOT.

The workweek shall be as follows:

(LIST WORK SCHEDULE TO INCLUDE DAYS, HOURS, ETC.)

(LIST ANY OTHER PROVISIONS TO BE INCLUDED IN THE LOCAL AGREEMENT)

Other provisions of this Local Agreement are as follows:

FDC shall provide notice to DOT within one (1) hour of work shift start time should an FDC Officer not be available to supervise assigned inmates on a scheduled work day.

FDC shall notify DOT in the event FDC cannot fulfill the obligations as described in this Local Agreement.

The effective dates of this Agreement are _____, through _____. Provisions of this Local Agreement may be amended by written agreement of the parties.

Agreed to and signed this _____ day of _____, 201__.
