**SUBJECT:** REMOVAL OF LANE CLOSURE INFORMATION SYSTEM (LCIS)

The Department has revised **Specification 102-3.3**, for the January 2019 Standard Specifications, eliminating the use of the Lane Closure Information System (LCIS).

**102-3.3 Lane Closures: Approval for all lane closures, mobile operations, and traffic pacing operations is required. Submit routine requests to the Engineer fourteen calendar days in advance of planned lane closures, mobile operations, and traffic pacing operations. For unforeseen events that require cancelling or rescheduling lane closures, mobile operations, and traffic pacing operations, revise the lane closure request as soon as possible.**

This memorandum serves as a blanket approval to process a \$0.00 contract change and use the new 102-3.3 specification language from the upcoming January 2019 Standard Specifications. It shall be attached to the Work Order or Supplemental Agreement for all active contracts.

If you have any questions, please call Amy Tootle at 850-414-4364.
