

Florida Department of Transportation State Sign Shop

Commodity Catalog

Signs (within the Sign Commodity Catalog) cannot be manufactured or sold to the general public or private businesses. We apologize for the inconvenience.

Sign Shop Catalog

This catalog consists of Signs commonly used on roadways maintained by the Florida Department of Transportation and manufactured by the FDOT State Sign Shop.

All orders for signs listed in the catalog **SHALL** be placed through the MSI system. Asset Maintenance Contractors (AM Contractors) can be granted access to the MSI System through the AARF (Automated Access Request Form) process (see page IV & V). However, until access is granted, they may order on a Manufacturing Operations Form #175-020-09.

SIGN FABRICATION:

For Sign Designs **not found** in this catalog or Asset Management orders, use the Manufacturing Operations Form #175-020-09. When using Manufacturing Operations Form the “**Commodity Number Only**” column is for use with the appropriate sign commodity/catalog number only. Leave this column blank when there is no assigned commodity number. Do not insert “Size” or “MUTCD designation” in this column. Insert MUTCD designation or size, in area under sign details and description. Limit the number of Commodities in this column to 10. Signs not listed in catalog will be assigned a Commodity number by Sign Shop personnel.

TRACKING SYSTEM:

For tracking purposes, the NUMBER SYSTEM FOR REQUISITION is as follows. All Asset Management orders must have a contract number followed by a number system, such as 01, 02, 03, etc. (ex. AA891-01).

All warehouses should use cost center followed by a number system (ex. 891-CD01).

FUNCTION CODES:

Attached any designs, specifications, or special instructions for special signs to the Manufacturing Operations Form #175-020-09.

*Signs being ordered for the Warehouse Inventory should be ordered using FCT 054.

*These signs should be issued out using the appropriate function code (FCT 520 or 521).

*The FCT 520 should be used for signs under 30 square feet.

*The FCT 521 should be used for signs over 30 square feet.

*AM Contractors will use Phase 71 and the appropriate FCT 520 or 521 code.

*For Financial Project Issues see Warehouse Issues for Routine Maintenance Activities, From the Maintenance Cost Handbook: [Performance Management - Maintenance Cost Handbook 03-27-12.pdf - All Documents \(sharepoint.com\)](#)

***Incomplete forms will be sent back to the user to make needed corrections.**

Completed forms should be sent to State Sign Shop either by hard copy or e-mail.

To assure prompt attention when using e-mail, send **To ALL EMAIL ADDRESSES Below:**

STEPS FOR ASSET MANAGEMENT CONTRACTOR TO ORDER SIGNS FROM THE STATE SIGN SHOP

1. The AM Contractor will need to initiate contact with the DOT Project Manager to begin the process of ordering signs.
2. The AM Contractor will request the DOT Project Manager to submit an AARF (Automated Access Request Form) request to access MSI and a VPN account.
 - Material Supply Inventory (MSI System) is used to order signs from the State Sign Shop.
 - The Project Manager can contact Kirk Hutchison or the Office of Information Technology (OIT) for assistance in completing the AARF.
 - When AARF is approved the contractor will be given a User ID to access the mainframe to order signs in MSI system.
 - VPN account is used to access the Departments internal programs.
3. Prior to ordering signs, the contractor will contact FDOT Project Manager for the Maintenance in-house Financial Project number (11 Digit Number) for the county where the signs will be placed.
 - Verify that it is a valid project number and has a phase 71 connected to that project number.
 - This can be done by your FDOT project manager contacting the Work Program Section in your area.
 - Note: Only project numbers with a phase 71 can be used in the MSI system to process your sign order.
4. There are two ways to order signs.
 - Standard signs are ordered through the MSI system by commodity number. Contact Kirk Hutchison for instructions to order through the MSI system.
 - Once an order has been placed in MSI the State Sign Shop will print the order and put the request into the production cycle.
 - Another way to order signs is using a Sign Fabrication Form for special signs. This form is available at this website: [asset-maintenance-contract-sign-ordering-process.pdf \(windows.net\)](#)
 - Sign Catalog and Monthly Pickup Schedule is available at this site too.
5. Instructions to fill out a special sign order using a Sign Fabrication form is listed below. Follow the attached sample form for better clarification.
 - **(1 – Unique Number)** This number consists of the contract number and sequence order number (Example – M-E4H52-001). Each time an order is submitted the sequence number is changed to the next numerical order. This number is used to log-in your order for tracking purposes.
 - **(2 – Company Name)** Your company name.

- **(3 – Company Address)** Your company mailing address.
- **(4 – Company City, State and Zip Code)** This information is necessary to process your order in the MSI system.
- **(5 – Company Phone Number)** Your company contact number for questions if needed.
- **(6 – Special Instructions)** This information can include contact name and phone number for the maintenance yard personnel for sign pickup. Also, this area can include special sign delivery information.
- **(7 – Sheeting Type)** Although this is labeled in commodity column it is referring to the next column of sheeting type. Please X the type of sheeting you want for this sign. If you do not know, contact the Sign Shop Personnel.
- **(8 – Quantity)** Only insert a numeric value.
- **(9 – Description)** A description of the signs is typed here, or you may state “See Attached Picture or Drawing” in this area.
- **(10 – Financial Project Number)** This is an 11-digit number assigned to this contract for accounting records. Note: You can contact Jackie Nichols to see if this number is valid in the MSI system.
- **(11 – Function Code)** This code indicates the size of the sign: 520 – Signs 30 Square Feet or smaller and 521 – Larger than 30 Square Feet.
- **(12 – Requestor’s Name)** Contact Name.
- **(13 – Requestor’s Phone Number)** In case there are any questions about the order.
- **(14 – Date)** Assists in record keeping.

The following are FDOT Personnel contact information for any questions on these steps:

Kirk Hutchison	850-410-5515
Janelle Inman-Albright	386-961-7121
Shawn Pace	386-961-7205
Cynthia Witt	386-961-7120

STOCK REPLENISHMENT – STATE SIGN SHOP (4)

Stock Replenishment should be done at the end of production week or the following Monday. This is because the State Sign Shop prints the tickets on Tuesday morning, and they are not printed during the week. These orders are being pulled to prepare for the production period for next week.

Steps for Stock Replenishment:

1. Go into TSO and then TSO MSI, press enter.
2. Select (A) Warehouse Operations Reports, press enter.
3. Select (B) Stock Replenishment, press enter.
4. Select (A) Stock Replenishment from a Particular Warehouse, press enter.
5. Enter “4” Sign Shop in Lake City, press enter.
6. Enter your Warehouse #: XXXX, press enter.

At this point, the Stock Replenishment automatically prints.

There will be a bunch of papers printed, the only one you need is “orders that are to be filled”.

After Stock Replenishment has printed, hit enter again.

7. Enter “X” for Exit; press enter.
8. Go into MSI Main Menu, press PF2 – Warehouse Operations Submenu
9. Enter issue Ticket # from report, Press PF8 – Stock Replenishment Change
This process will bring up the Stock Replenishment Request Change for your review, this will show an Incomplete Status
10. This page you will use to make all needed changes. You will place a “C” or “D” by the line under “ACT” that you are working on.

Example:

If you do not need a specific line, tab to that line and place a “D” for delete under the “ACT” column and press PF5 to process the delete.

To change a quantity tab to the “ACT” column and place a “C” for change, then update the “Actual Quantity”, and press PF5 to process change. Be sure to type over the quantity, even though the screen allows you to type in the space to the left of it.

The screen will accept multiple transactions at the same time.

11. Once you press the PF5, this changes it from Incomplete to Pending, it will automatically go to the Sign Shop. If you have more than one Sign Shop ticket, press PF6 and repeat with new ticket #.

RECEIVING STOCK REPLENISHMENT FROM STATE SIGN SHOP

(When you receive sign delivery from the Sign Shop)

12. From MSI Main Menu, press PF2 – Warehouse Operations Submenu
13. Enter Issue ticket #, press PF9 – Stock Replenishment Receipt
14. Put a “Y” by everything that came in and the quantity received. Press PF5 to receive and print.

*Signs shall be reviewed once received from the State Sign Shop for accuracy. For any discrepancies, call State Sign Shop for corrections, this includes any overages.

*Signs shall be received in the MSI system promptly.

*To receive signs, make sure to review Stock Replenishment Ticket. Place a “Y” by all signs to be received, including all signs that are shipped as zero (ex. “N” = 1 ordered, received 0, should read “Y” not “N” due to requisition required). The “N” is a place holder and none of the lines with an “N” will be processed or cleared out. To clear out an item that needs to be removed, such as, a Manufacturing Operations Form #175-020-09 you will need to replace the “N” with a “Y” and leave the quantity at zero.

*The only time an “N” should be used to with a partial order (ex. Ordered 6, received 4; use the “N” until the additional 2 come in; then receive with the “Y”).

HOW TO USE SIGN CATALOG

To use catalog, select your MUTCD guide as listed below:

801 – Guide Signs

802 – Regulatory Signs

803 – School Signs

804 – Weight Stations

805 – Warning Signs

806 – Information / Motorist Service Signs

807 – Construction Signs

812 – Object Markers and Delineators

813 – Miscellaneous

814 – Florida Route Markers

815 – Mile Markers

Go to that section in the catalog and review signs until you locate the one you need. If you do not locate your sign, feel free to call the State Sign Shop for assistance.

Specialty signs will not be included in the catalog and will require a Manufacturing Operations Form #175-020-09.
