**TROPICAL STORM MILTON  
FDOT EMERGENCY ORDER 24-12  
(Pursuant to Executive Order No. 24-214)**

**WHEREAS**, on October 5, 2024, Governor Ron DeSantis issued Executive Order 24-214 regarding showers and thunderstorms associated with an area of low pressure located over the southwestern Gulf of Mexico, now identified as Tropical Storm Milton; and

**WHEREAS**, atmospheric and oceanic conditions are anticipated to support rapid intensification over the Gulf of Mexico, and Tropical Storm Milton is forecast to become a hurricane by early Monday; and

**WHEREAS**, this system could become a major hurricane near or at landfall along the West Florida Coast by the middle of next week; and

**WHEREAS**, there is an increasing risk of life-threatening storm surge and wind impacts for portions of the western Florida Peninsula beginning as soon as later Tuesday or Wednesday; and

**WHEREAS**, areas of heavy rainfall will impact portions of Florida well ahead of the tropical system, impacting Florida Gulf Coast communities still recovering from recent Major Hurricane Helene; and

**WHEREAS**, current computer modeling shows rainfall predictions of four to eight inches across the Florida Peninsula, with locally higher amounts in excess of eight to twelve inches possible; and

**WHEREAS**, much of Florida has recorded above normal rainfall over the past 30 days; North Florida has experienced rainfall totals of six to twelve inches above normal, with portions of the eastern Florida Panhandle measuring fifteen to twenty inches above normal for this time of year; and

**WHEREAS**, this level of soil saturation will likely lead to a more rapid onset to flash, urban, and riverine flooding next week; and

**WHEREAS**, heavy rainfall, flooding and gusty winds will cause power outages due to downed trees and powerlines due to the already vulnerable state of Florida's vegetation and coastal infrastructure; and

**WHEREAS**, the consequences of these impacts could damage the operational capability of critical infrastructure including major interstates and roadways, bridges, airports, schools, hospitals, power grids, in addition to prolonging recovery efforts from Major Hurricane Helene; and

**WHEREAS**, the Florida Department of Transportation is prepared to deploy resources to support the disaster response efforts related to Tropical Storm Milton.

NOW, THEREFORE, I, JARED W. PERDUE, P.E., Secretary of the Florida Department of Transportation, hereby find that the Department of Transportation's timely performance of disaster response functions related to Tropical Storm Milton is hindered by the application of procedures imposed by statute, rule, or order.
