MATERIALS BULLETIN NO. 03-15

TO: DISTRICT MATERIALS AND RESEARCH ENGINEERS

FROM: *for* Timothy J. Ruelke, P.E., Director, Office of Materials

COPIES: Paul Vinik, Mike Bergin

SUBJECT: Revisions to the Materials Manual Volume II Section 9.2 – Delete the Absorption Testing Requirement

The Materials Manual Volume II Section 9.2 is being revised to delete the requirement for aggregate absorption quality control testing at the concrete production facility. Absorption data shall be as provided to the concrete production facility by the aggregate producer providing the coarse and fine aggregate.

When no data is provided or the data appears to be suspect, the concrete production facility will test the coarse aggregate to determine the absorption, in accordance with FM 1-T 085.

Absorption test data from the aggregate producer or as developed by the concrete production facility shall be available for review by the Department.
