Florida Turnpike Enterprise

Northern Turnpike Connector Task Force Vice Chair

I definitely am going to have my listening ears on. I want to soak in all the different perspectives. I hope that these task forces and this process brings out all the different perspectives. And so, we can just have a good balance of all the perspectives, all the information and then come to a consensus on what's the right decision.

I have never seen or even heard of such a collaborative approach to investing and planning for Florida's infrastructure and investing in the people. So, I'm just so excited to be a part of this and it's just such a great opportunity for our state.
