Greg Evans

FDOT District Two Secretary

Suncoast Connector Task Force Chair

I think the goal of the task force and all the task forces put together is to have an opportunity for our communities and our special interest groups and other organizations have opportunities to have input on what this multi-use, multi-modal corridor will actually consist of. Things that we need to consider as guiding principles in the planning and design process.

We need to hear from everyone related to their concerns or their input that they want to provide, whether it be considered as a positive or a negative. As chairman of the task force, I'm not the one to be judge and jury over what is positive, what is negative. We consider all input to be valuable.

We want to get as close to the people within each county. It's unfair for people from Jefferson County having to drive down to Tampa to give input. So, we'll go to Jefferson County and allow that opportunity for input and feedback.
