

MPO Staff Directors

# Performance Measures

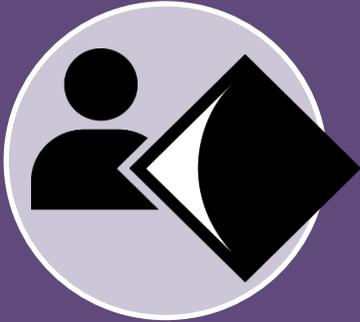

Doug McLeod

FDOT Mobility Performance Measures Manager

October 29, 2015

# Why Measure Performance?

Measure and evaluate what matters.

Let technical work inform policy choices.

Are we making progress towards our goals?

MAP-21 reporting requirements

# Statewide Mobility Performance Measures Team Purpose

To provide guidance and support to FDOT and the state's MPOs on multimodal mobility performance measures including reporting for internal and MAP-21 purposes

Consensus in approach and measures

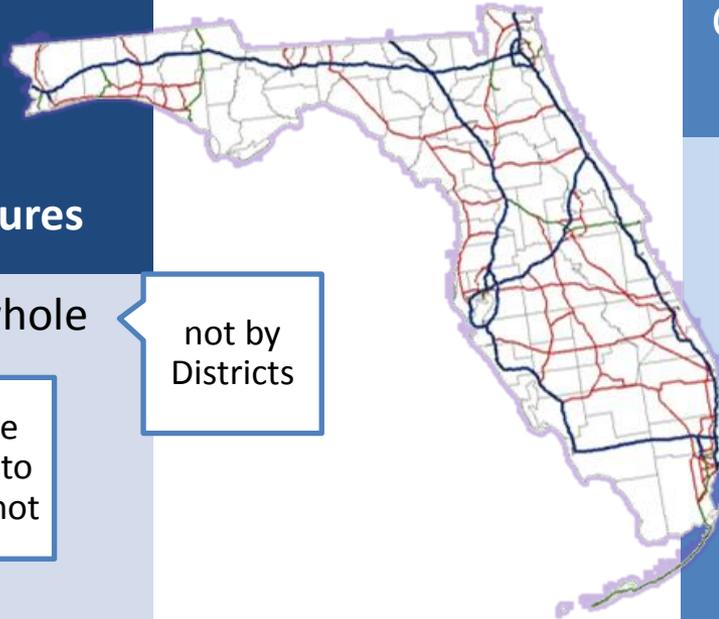

# FDOT TranStat's Intent

FDOT will provide an analysis of **all** required MAP-21 mobility performance **measures**

- For the **state** as a whole
- Each **MPO**

has the option to use or not

not by Districts

Comparable measurements for road networks

- MAP-21 networks
- State Highway System

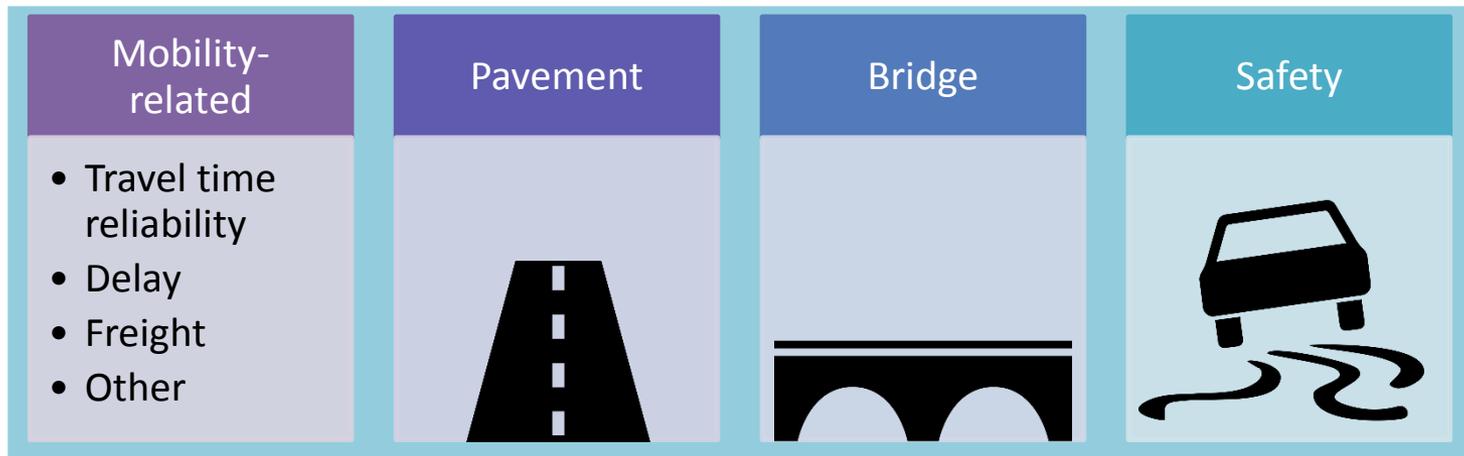

Areawide groupings

- Urbanized boundaries
- Planning boundaries
- County boundaries
- Regional boundaries

# Common Source of Data to MPOs

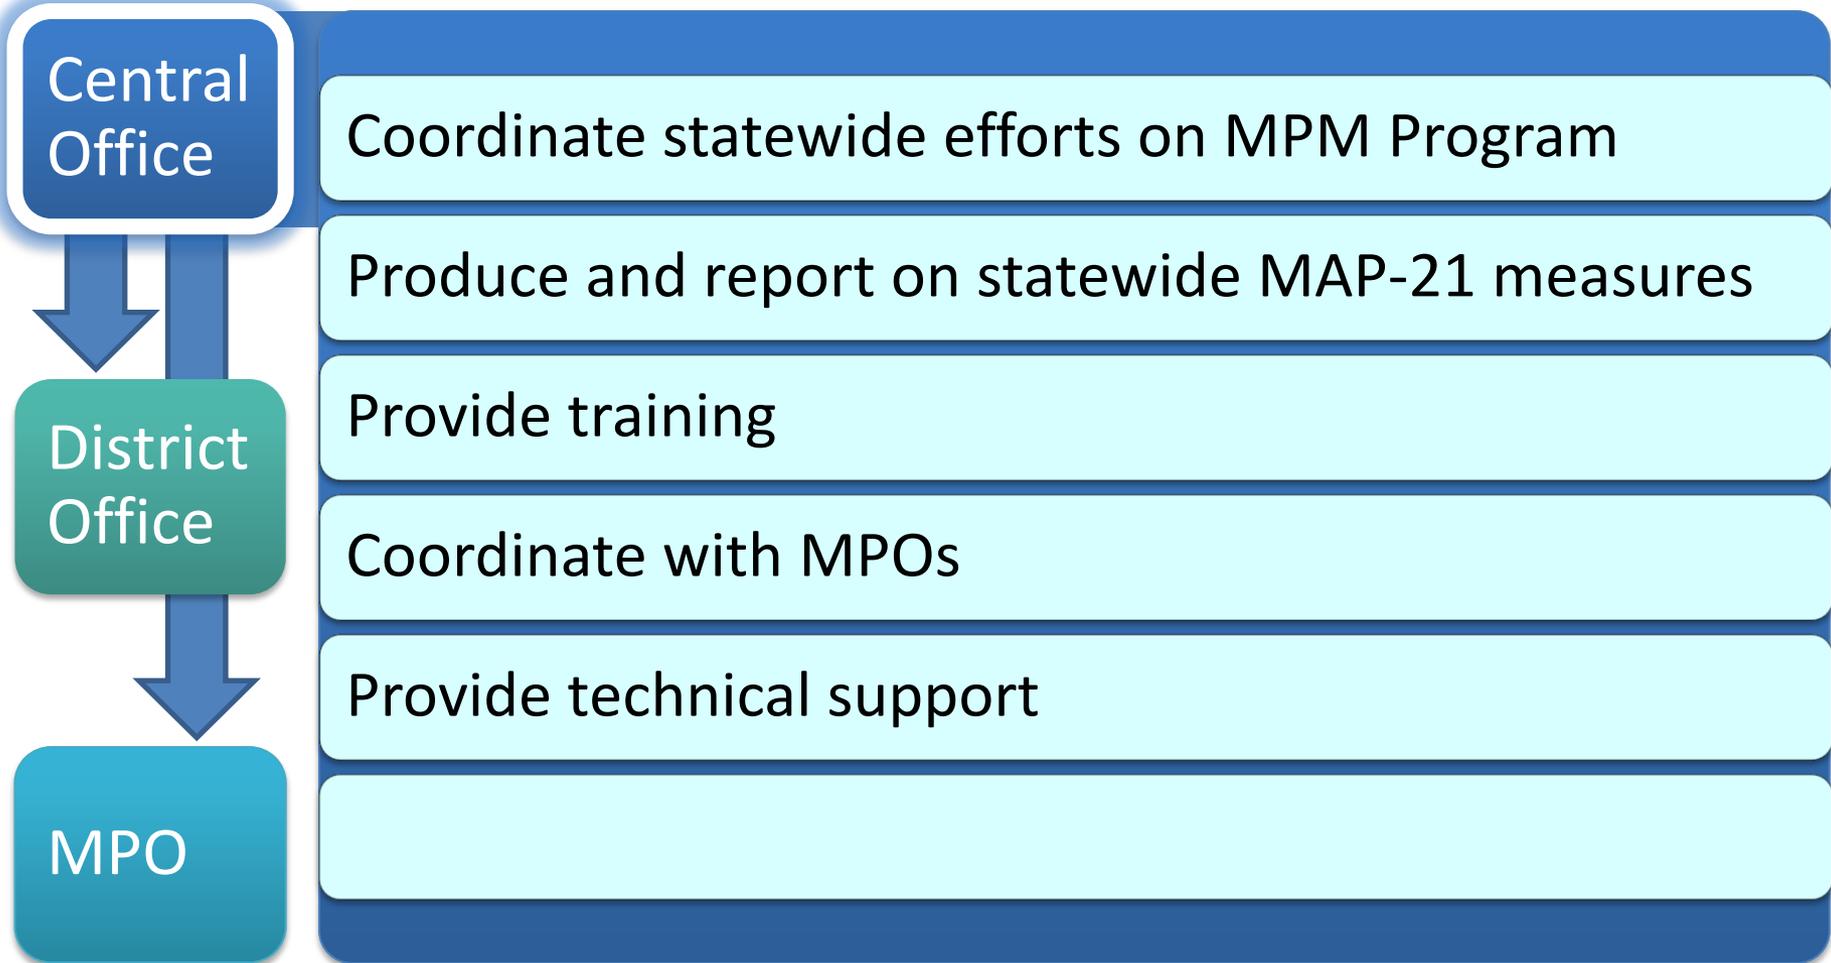

- Statewide meeting of FDOT/MPOs/others (April)
- MPO acquisition and reporting of MAP-21 data and for use in setting of targets

FDOT Office of Policy Planning or Transportation Statistics Office

# FDOT Primary Roles:

# MPOs Roles:

- Comply with MAP-21
  - Use calculated results provided by FDOT, if desired
  - Report to FHWA as required
  - Develop performance targets
  - Include in LRTPs and Congestion Management Plans to evaluate alternatives, programming/prioritization of projects
- Develop own MPMs, if appropriate
- Coordination with other MPOs, if appropriate
