

The Florida Metropolitan Planning Organization Advisory Council

*Commissioner Nick Maddox
Chair*

Jared W. Perdue, P.E., Secretary
Florida Department of Transportation
605 Suwannee Street
Tallahassee, FL 32399-0450

Dear Secretary Perdue:

On behalf of the Florida Metropolitan Planning Organization Advisory Council (MPOAC), we are pleased to transmit our *2022 Freight Priorities Program* project list to FDOT for your consideration. This annual program, now in its fifth year, provides Florida's MPOs with the opportunity to identify and promote freight priority projects throughout the state that facilitate freight mobility, promote economic growth, and support the goals of the Florida Transportation Plan (FTP).

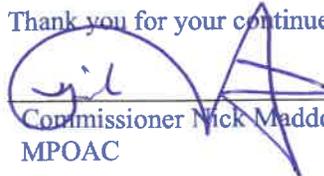

This list represents freight priority projects throughout the state that are construction-ready unless otherwise noted. Each project was reviewed and evaluated by the MPOAC to ensure consistency and relevance. The project list has been approved by the MPOAC's Freight & Rail Committee, the Staff Directors' Advisory Committee, and Governing Board.

With our approval process complete, the MPOAC respectively submits the attached list of 35 projects (representing 17 MPOs and six (6) FDOT Districts) to FDOT. We request that the Department review and consider these priorities during the annual update to FDOT's Five-Year Work Program across all relevant funding programs (e.g., NHFP, SIS, District Discretionary). The list is organized by FDOT District and then alphabetically by MPO name. In addition, a summary sheet is attached to share program highlights for this year's submissions.

We intend to reach out to your staff over the next few months to identify any priority projects the Department was able to advance and discuss ways we can improve the list for 2023.

If you have any questions about the program or the process, please do not hesitate to contact Mark Reichert, and please reach out directly to your MPO partners to discuss specific projects.

Thank you for your continued support!

Commissioner Nick Maddox, Chair
MPOAC

Mark Reichert, Executive Director
MPOAC

Freight Priorities Program (FPP) Final 2022 Project List

May 2, 2022

MPOAC **FRRC**
FREIGHT & RAIL COMMITTEE
powered by the Broward MPO and Hillsborough TPO

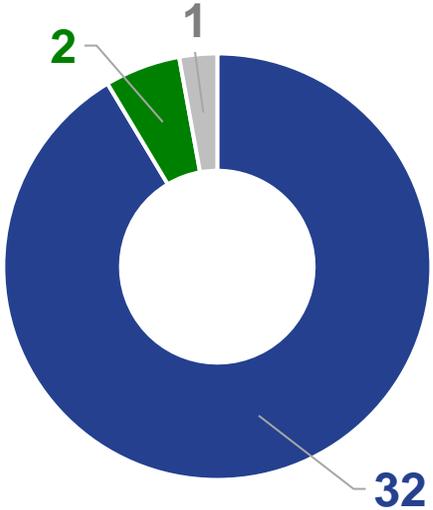

2022 Project Submission Summary

MPO Participation

- Submitted Project (67%)
- Did Not Submit Project (23%)

Submitted Project Types

- SHS Roadway (91%)
- Truck Parking (6%)
- Non-SHS Roadway (3%)

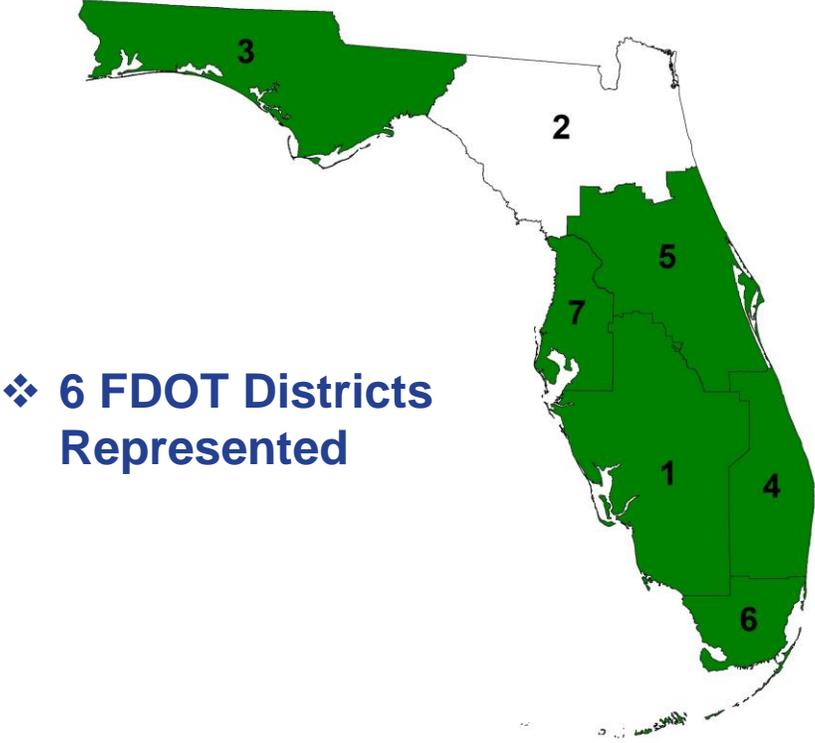

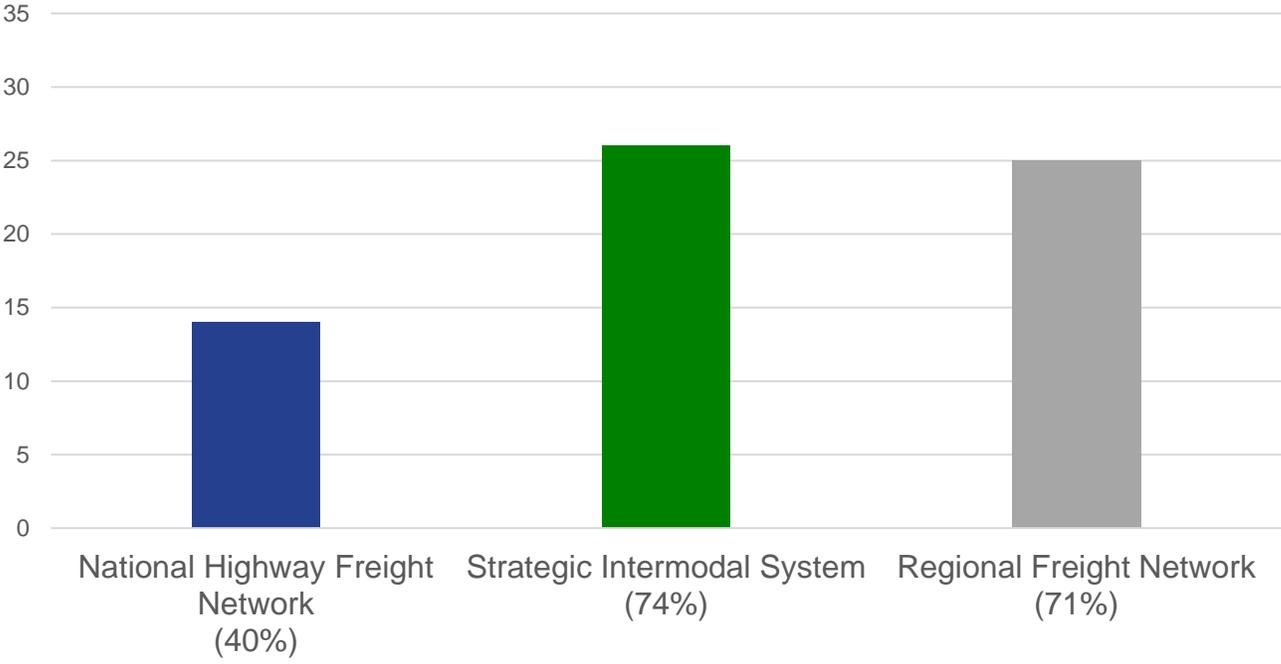

❖ 35 Total Projects

- 94% of projects are District Freight Coordinator priorities
- All submitted projects meet at least 3 of the FTP goals

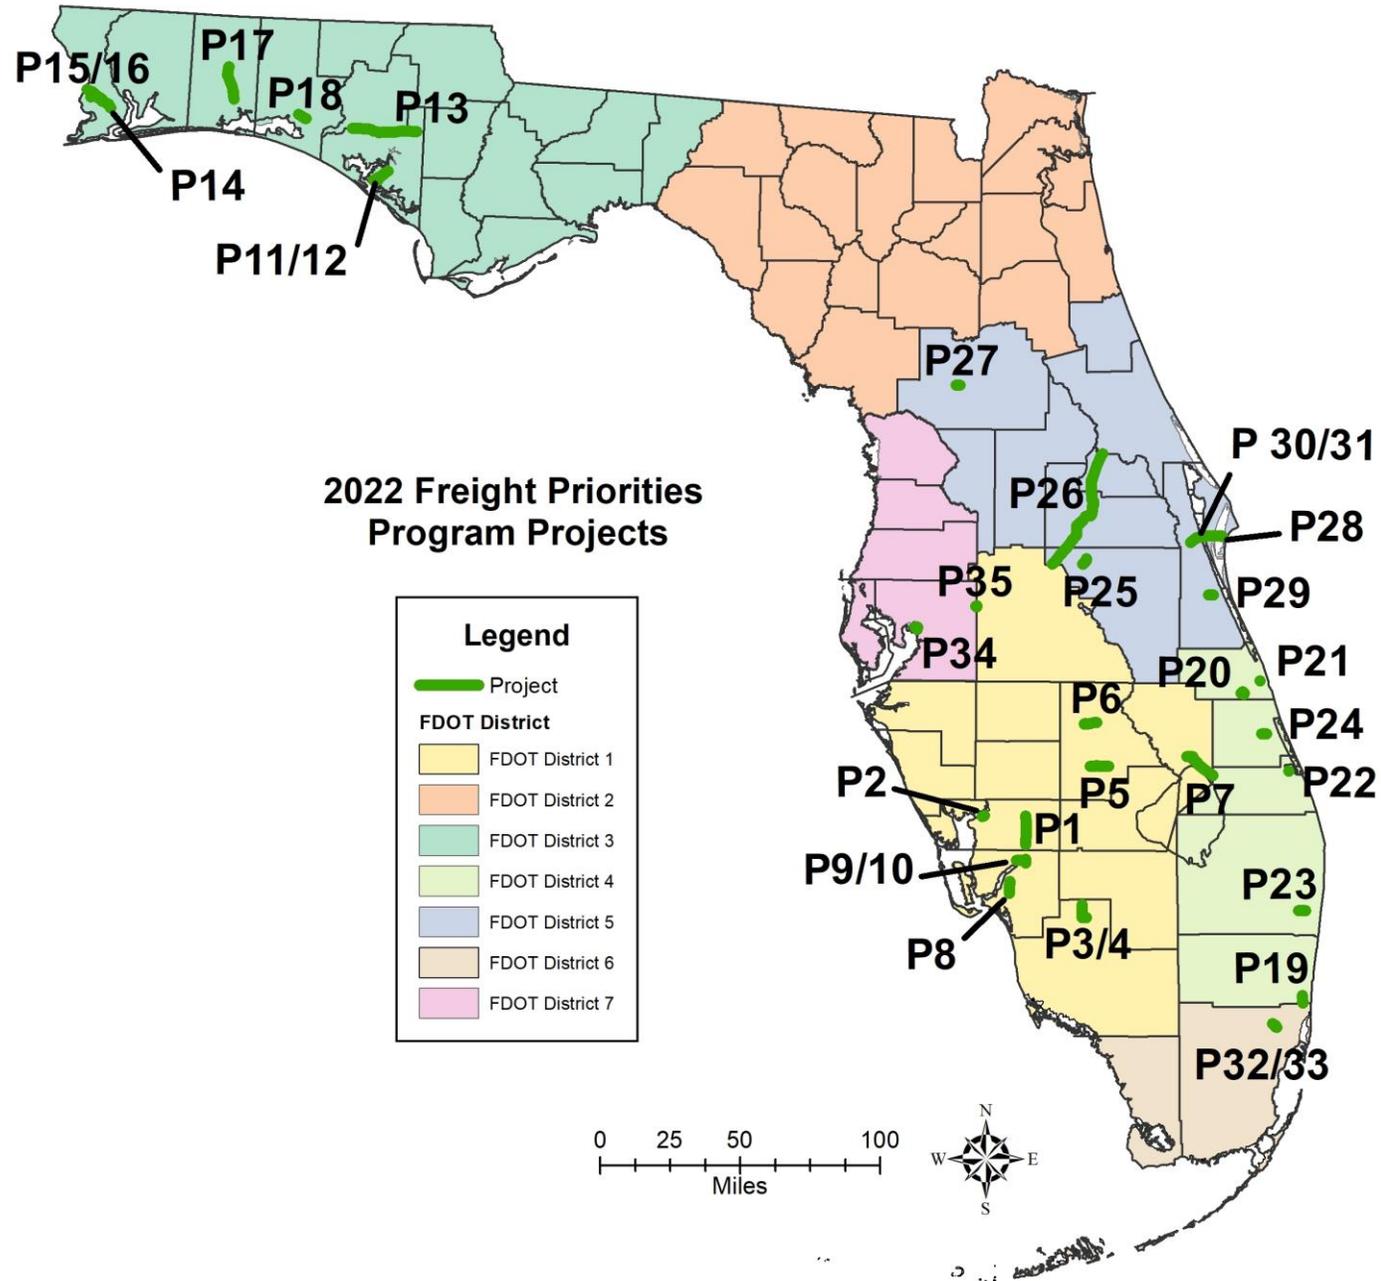

2022 Project Submission Summary

Project Designations

- \$2.9 billion in requests for project phase advancements and new funding
- Increase of \$560 million from the 2021 FPP list

The Florida Metropolitan Planning Organization Advisory Council

2022 Freight Priorities Program

Program Overview

The Metropolitan Planning Organization Advisory Council (MPOAC) Freight & Rail Committee developed the Freight Priorities Program (FPP) to identify and promote high-priority freight projects within the planning boundaries of Florida's Metropolitan Planning Organizations¹ for consideration in FDOT's 5-Year Work Program and other potential funding sources. The FPP's objective is to collaboratively develop a comprehensive list of projects that represents the unified input of the MPOAC. The MPOAC updates and endorses the FPP's project list on an annual basis.

Project Selection Overview

The FPP Project List contains all project submissions that passed the agreed-upon requirements and one supplemental project. 2022 project type eligibility was expanded to include non-state highway system roadway, truck parking, intermodal logistic center access, and rail projects, in addition to the state highway system (SHS) roadway projects that the Program was limited to in prior years. This year also saw the introduction of an online application website to make the submittal process more efficient for the agencies. The vetting process reviewed each project submission for program eligibility and level of readiness for advanced phase (e.g., design, ROW, construction) funding. The 2022 Program's critical activities included:

1. Training webinars were conducted virtually on March 3rd and March 15th. The first training session focused on changes to the 2022 FPP, while the second session demonstrated how to submit projects using the new website.
2. The project submission period began on March 16th and remained open until April 6th. MPOs were permitted to submit up to 3 SHS roadway projects and up to 3 of the new project types for a maximum of 6 submissions.
3. Project submissions were reviewed for completeness through the new online system. Requests for additional information were submitted to each MPO, and they were able to make updates to their submitted applications. One-on-one technical assistance was made available to answer specific questions.
4. Final submissions were reviewed and used to develop the 2022 FPP Project List. The MPOAC's Freight & Rail Committee reviewed and approved the final list on April 27th. This was followed by the Staff Directors' Advisory Committee and the Governing Board's approval on April 28th.

Summary of 2022 FPP Project List

- 17 of Florida's 27 MPOs submitted 35 projects representing 6 of the 7 FDOT Districts.
- 26 of 35 projects are on designated SIS roadways, and 14 are on the NHFN.
- 94 percent of projects are also FDOT District Freight Coordinator priorities.
- Funding advancements and requests totaled over \$2.9 billion across 35 projects.
- All projects support at least 3 of 7 Florida Transportation Plan goals, with a majority supporting all 7.

¹ "Metropolitan Planning Organizations" is not an exclusive term. It also encompasses Transportation Planning Organizations (TPO) and Transportation Planning Agencies (TPA).
