

Florida Freight Advisory Committee (FLFAC) Meeting October 2021

Inspiring Innovation

I. Call to Order

Roll call and approval of previous meeting minutes (June 2, 2021)

II. Welcome & Housekeeping

III. Using Connected and Automated Vehicle (CAV) Technology in Freight Projects

An update on the latest in Florida's freight CAV technology.

IV. Changes to the PHFS

The Federal Highway Administration (FHWA) has issued a request for information to guide the re-designation of the Primary Highway Freight System (PHFS). This discussion will help guide FDOT's recommendations to FHWA.

V. Designing Flexibility for Evolving Technology into Infrastructure

A discussion led by John Dohm & Nick Primrose on the impact of new technologies on supply chains and the design/location of new facilities. Facilitated discussion will focus on identifying solutions and potential action items for all partners.

VI. Using Optimization to Enhance Freight Efficiency

An update on the ongoing Freight and Multimodal Operations Office optimization study.
