

BRIDGE REPAIR W/SMALL COUNTY OUTREACH PROGRAM (BSCOP)

Apply Now

[Click Here](#)

What is it?

The [Small County Outreach Program \(SCOP\)](#) authorized under section 339.2818 of Florida Statutes provides funding to assist small county governments in several activities including repairing/rehabilitating county bridges.

To assist in meeting those needs, the District has developed a program that will use \$1.5 million set aside from the [Small County Outreach Program \(SCOP\)](#) funding allocated to the District for bridge repair only. This set aside is treated as a separate program in which counties can apply for bridge rehabilitation projects located on their system.

The project work must only be related to [Repair/Rehabilitating County Bridges](#).

Where can I find more information on how to apply?

<https://www.fdot.gov/programmanagement/lp/scop/default.shtm>

Or

<https://www.fdot.gov/nwflroads/local-programs>
