

Florida Department of Transportation District Three Transportation Regional Incentive Program

Project Name:

TRIP was created to improve regionally significant transportation facilities in "regional transportation areas." State funds are available throughout Florida to provide incentives for local governments and the private sector to help pay for critically needed projects that benefit regional travel and commerce.

If selected for funding, the Florida Department of Transportation (FDOT) will pay up to 50 percent of project costs for public transportation facility projects. Projects must: "Serve national, statewide, or regional functions and function as part of an integrated regional transportation system".

While there is no rigid application procedure, the District has created this form for Implementing Agencies and Regional Transportation Authorities to facilitate the assembly of pertinent project information related to candidate TRIP projects. The goal of this document is to provide a framework to project sponsors.
