Hybrid Public Meeting Agenda

The Public Meeting was conducted both in-person and virtual via GoToWebinar. The registration links and information were provided in advance and included a QR code for easy access. Project information was posted at <https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page>. Questions and comments could be submitted prior to the meeting through the project website or by emailing the project manager.

Wednesday, July 17, 2024

In-person: Sebastian Community Center, 1805 North Central Avenue, Sebastian, Florida 32958, 5:30 p.m.

Virtual: <https://register.gotowebinar.com/register/478842150230794592>, 5:30 p.m.

The open house began at 5:30 p.m. followed by the public meeting presentation. At 6:32 p.m. the hybrid public meeting presentation began. FDOT Project Manager Binod Basnet, P.E., opened the meeting by introducing the project team, reviewing the agenda, and introducing the elected officials. Consultant Public Involvement Specialist Amy Lee Diel went over the meeting format and rules of engagement. A comprehensive presentation of the design concept was provided by Consultant Project Manager Ian Biava. After the design concept was presented, the following project team members addressed comments and questions from meeting attendees: FDOT Project Manager Binod Basnet, Consultant Project Manager Ian Biava, Consultant Drainage and Environmental Engineer Lindsey Koren, Consultant Structural Engineer Ryan Mapp, and Consultant Public Involvement Specialist Amy Lee Diel. Attendees had the option to submit comments and questions using the raise hand feature to be unmuted, by typing their comment or question into the question panel of the GoToMeeting panel, by raising their hand in-person to be called upon to speak, or by submitting a comment form to mail in or hand to a project team member.

The presentation and a recording of the meeting are available on the project website. A copy of the project presentation is included in Appendix A.

The following project boards were displayed for attendees: Welcome, Project Location Map, Title VI (English and Spanish), Project Roll plot, 3R Typical Section, and Renderings. A copy of the display boards is included in Appendix B. The project team engaged with attendees and answered their questions through 8:38 p.m.

Parking was available to accommodate all the attendees, including the disabled. Signs were placed at the major intersecting roads to direct attendees to the meeting location and from the parking lot to the meeting room.

ETDM: 14433

Public Notification

Meeting invitations included a letter and a project flyer. They were sent via email to elected officials, appointed officials, agency members, and interested persons (238 emails sent). 7,854 property owners and current tenants were mailed a letter and a project flyer via first-class mail. The invitations included dates, times and locations for the Final Public Meeting. Copies of the mailing lists, letters, and flyer are included in Appendix C.

Media Notification

The Final Public Meeting was advertised in advance with a display ad in the Florida Today and Treasure Coast Palm Newspaper on Wednesday, July 10, 2024. A Final Public Meeting notification was placed in the Florida Administrative Register (FAR) July 10, 2024 Edition, Volume 50/Number 134. A press release was distributed by the Florida Department of Transportation (FDOT) to major local media outlets. Copies of the newspaper ad, Florida Administrative Weekly Register and the press release are included in Appendix D.

Meeting Attendance

Wednesday, July 17, 2024 (Hybrid)

- Four elected officials were in attendance.
- Three agency representatives were in attendance:
 - James Gray, Sebastian Inlet District, Executive Director
 - Brian Freeman, Indian River County MPO, Title VI Coordinator, MPO Staff Director
 - Jim Mann, Indian River County MPO, Senior Planner
- Two media representatives were in attendance:
 - Chris Bonanno, Hometown News
 - Nick Slater, Treasure Coast Newspapers

A copy of the sign-in sheets and virtual meeting attendee report is included in Appendix E.

Meeting Handouts

The Project Flyer and a Comment Form were distributed to attendees. Copies of the meeting handouts are included in Appendix F.

ETDM: 14433

Public Comments

Wednesday, July 17, 2024 (Hybrid)

Verbal Comments

- Commenter is a fisherman and had a question regarding northside closures.
- Commenter commented on bicycle lanes for safety.
- On the RRR portion of the project, why 7-foot shoulder pavement and not 8-foot shoulder pavement?
- Commenter had some concerns that the drainage from the bridge will impact the neighboring property owners.
- Commenter asked what we are doing about the stormwater during the RRR portion of the project.
- Commenter wanted to know if we have looked into using the old bridge as a reef offshore in the ocean.
- Commenter is a bicyclist and had a concern about the buffer zone between bicyclists and vehicles, stated 7-foot buffered lanes are essential, 40% wider.
- Commenter wants to know why we couldn't pay for an additional foot of buffer zone for bicyclist's safety.
- Commenter was excited about this project. She was born and raised in the area and stated bikes are used in the community and wants a buffer to be considered for the 7-foot bike path.
- Commenter wanted to clarify AVT opposition on the new design is quiet. Commenter advised safety should be embraced and referenced Target Zero.
- Commenter asked why truck traffic is projected to be less.
- Commenter is a professional fisherman and asked how do you answer our loss of income due to the inlet closing?
- Commenter asked about fisherman going in and out of the inlet regarding closures.
- Commenter stated it's a lot of money to be used for the bridge when there isn't a lot of pedestrians/ bikers and now you would be welcoming more to come to the area when residents already have an issue leaving their homes.
- Commenter asked if the citizens rejected the bridge, do those tax dollars get moved to another area?
- Commenter asked if the fenders that were designed for this bridge would sustain a hit from a boat or ship coming through the inlet.
- Commenter stated she rides her bike daily and has been knocked over many times due to A1A being a narrow road, and why not put wider bike paths on US 1 where there is more land for safety and growth opportunity?
- Commenter stated she works in Sebastian Inlet and the road is full of bike/pedestrians and families with strollers.
- Commenter stated A1A is one of two natural highways (byways) in the state of Florida.
- Commenter stated the bridge is falling apart and needs to be redone. She stated the South jetty is dangerous and needs to be replaced soon. She also asked how long the South jetty would be closed.
- Commenter asked if the FDOT criteria supports a 4-foot versus 8-foot paved shoulder.
- Commenter reiterated that yes, we need to make improvements to the bridge and of course, people want to bike on the national by-ways and to consider the greater good.

Florida Department of Transportation (FDOT), District Four Design Project

State Road (SR) A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration, and Rehabilitation (RRR) of SR A1A from Sand Dollar Lane to South of Sebastian Inlet Hybrid Public Meeting Summary – July 17, 2024 (In-Person and Virtual)

County: Indian River and Brevard County

FPID: 445618-1-52-01 and 445618-2-52-01

ETDM: 14433

Written Comments

- Commenter wrote that he appreciates the public information and input. Very professionally presented and did a great job informing people by mail.
- Commenter wrote how much we are elevating the jetty or lengthening them. Also, how many parking spaces will be added to the south side of the park?
- Commenter wrote that she admired that we are taking into consideration sea turtles and shoreline protection and thank you for including the FDEP. She agrees that swale drainage is needed. She stated 4-foot bike lanes are fine as she is an avid biker and that's plenty. She also asked to put up bumper guides so drivers do not hit bikers.
- Commenter stated beautiful presentation. Thank you FDOT. Please include a buffer on the shoulder so that cyclists are safe on the road.

The comments received will be included in the design-making process. Comments and responses are included in Appendix G.

END OF MEETING SUMMARY

Tallahassee, Florida 32399
(850) 414-4753
stefan.kulakowski@dot.state.fl.us

All inquiries or concerns will be handled according to FDOT procedure and in a prompt and courteous manner.

Rules of Engagement

- This Public Meeting is being recorded.
- If you experience technical difficulties, please contact +1(352) 397-5880 so that a member of our technical support team may assist you.
- All **Virtual (online)** attendees **will remain muted** throughout the Meeting.
- **Virtual (online)** attendees are also welcome to submit any questions/comments using the GoToWebinar control panel at any time or use the “**Raise Hand**” button on your control panel and a member of our team will respond to/unmute you during the open discussion.
- All **in-person** attendees are welcome to submit a question or comment by raising a hand to be called upon after the presentation, during the open discussion.
- If you are participating via Telephone and have questions/comments, feel free to submit them to **FDOT Project Manager Binod Basnet, P.E.**, via email after the meeting and a response will be provided.

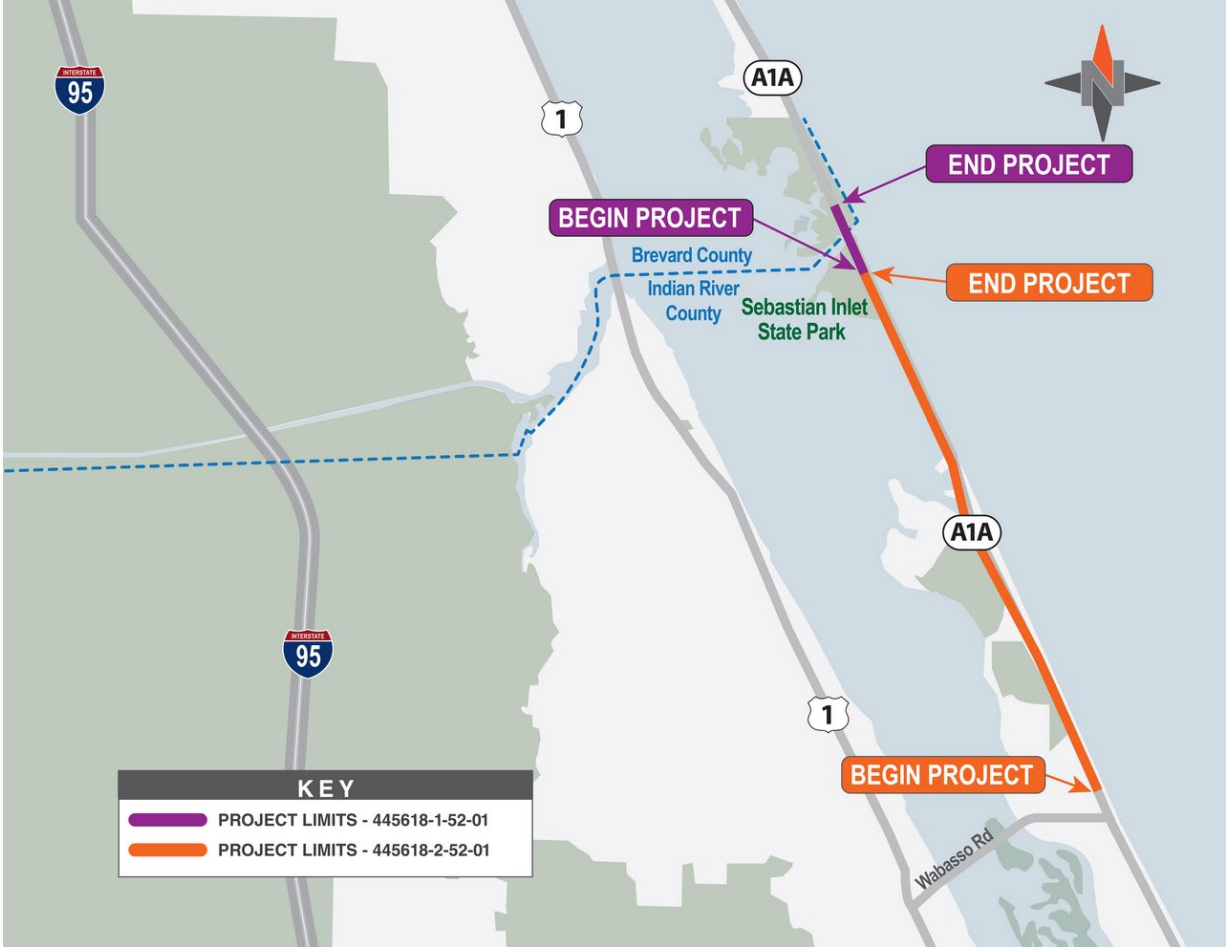

Project Location and Overview

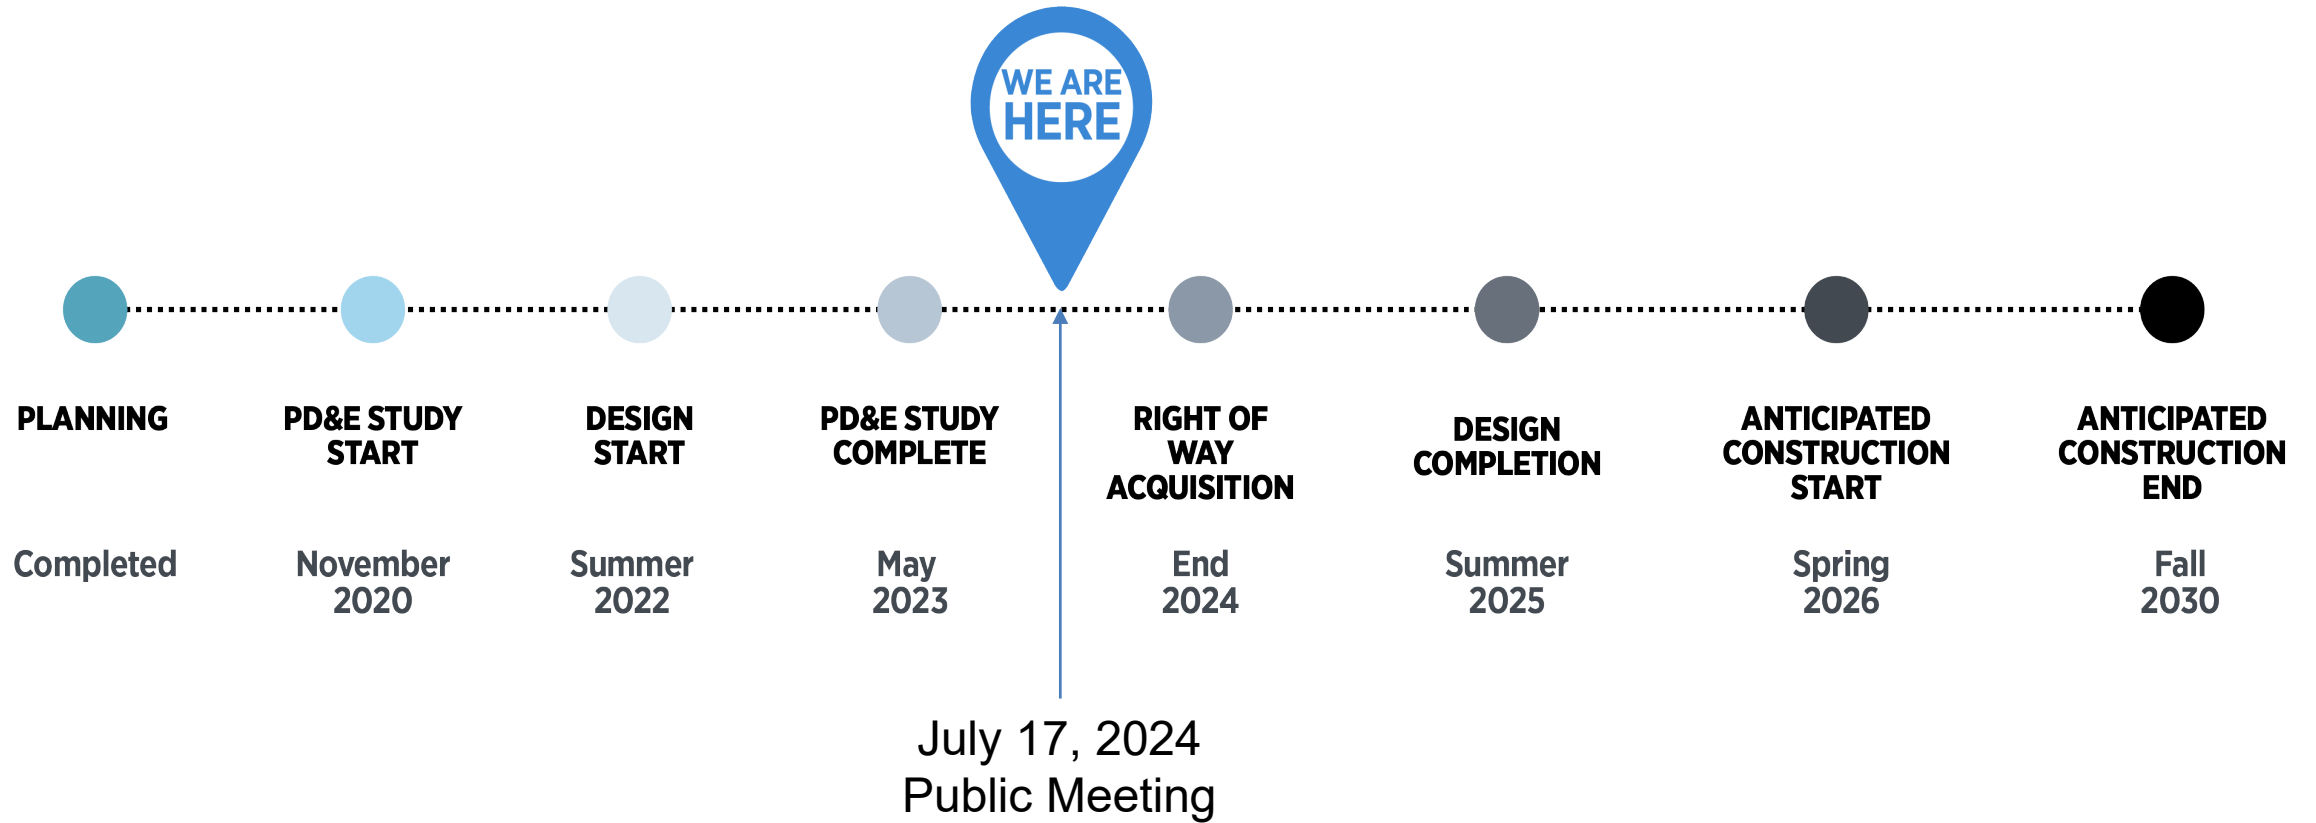

Project Location

SR-A1A Over Sebastian Inlet – Bridge Replacement (FPID: 445618-1-52-01)

Resurfacing, Restoration and Rehabilitation of SR-A1A from Sand Dollar Lane to south of Sebastian Inlet (FPID: 445618-2-52-01)

Schedule Overview

Sebastian Community Center
1805 North Central Avenue
Sebastian, FL 32958

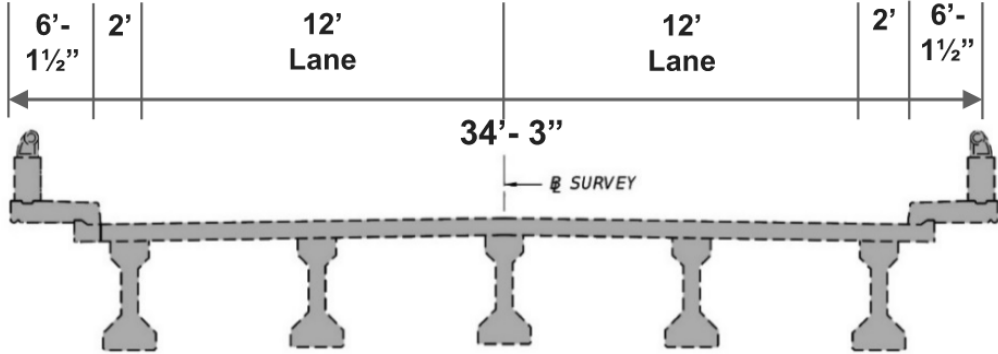

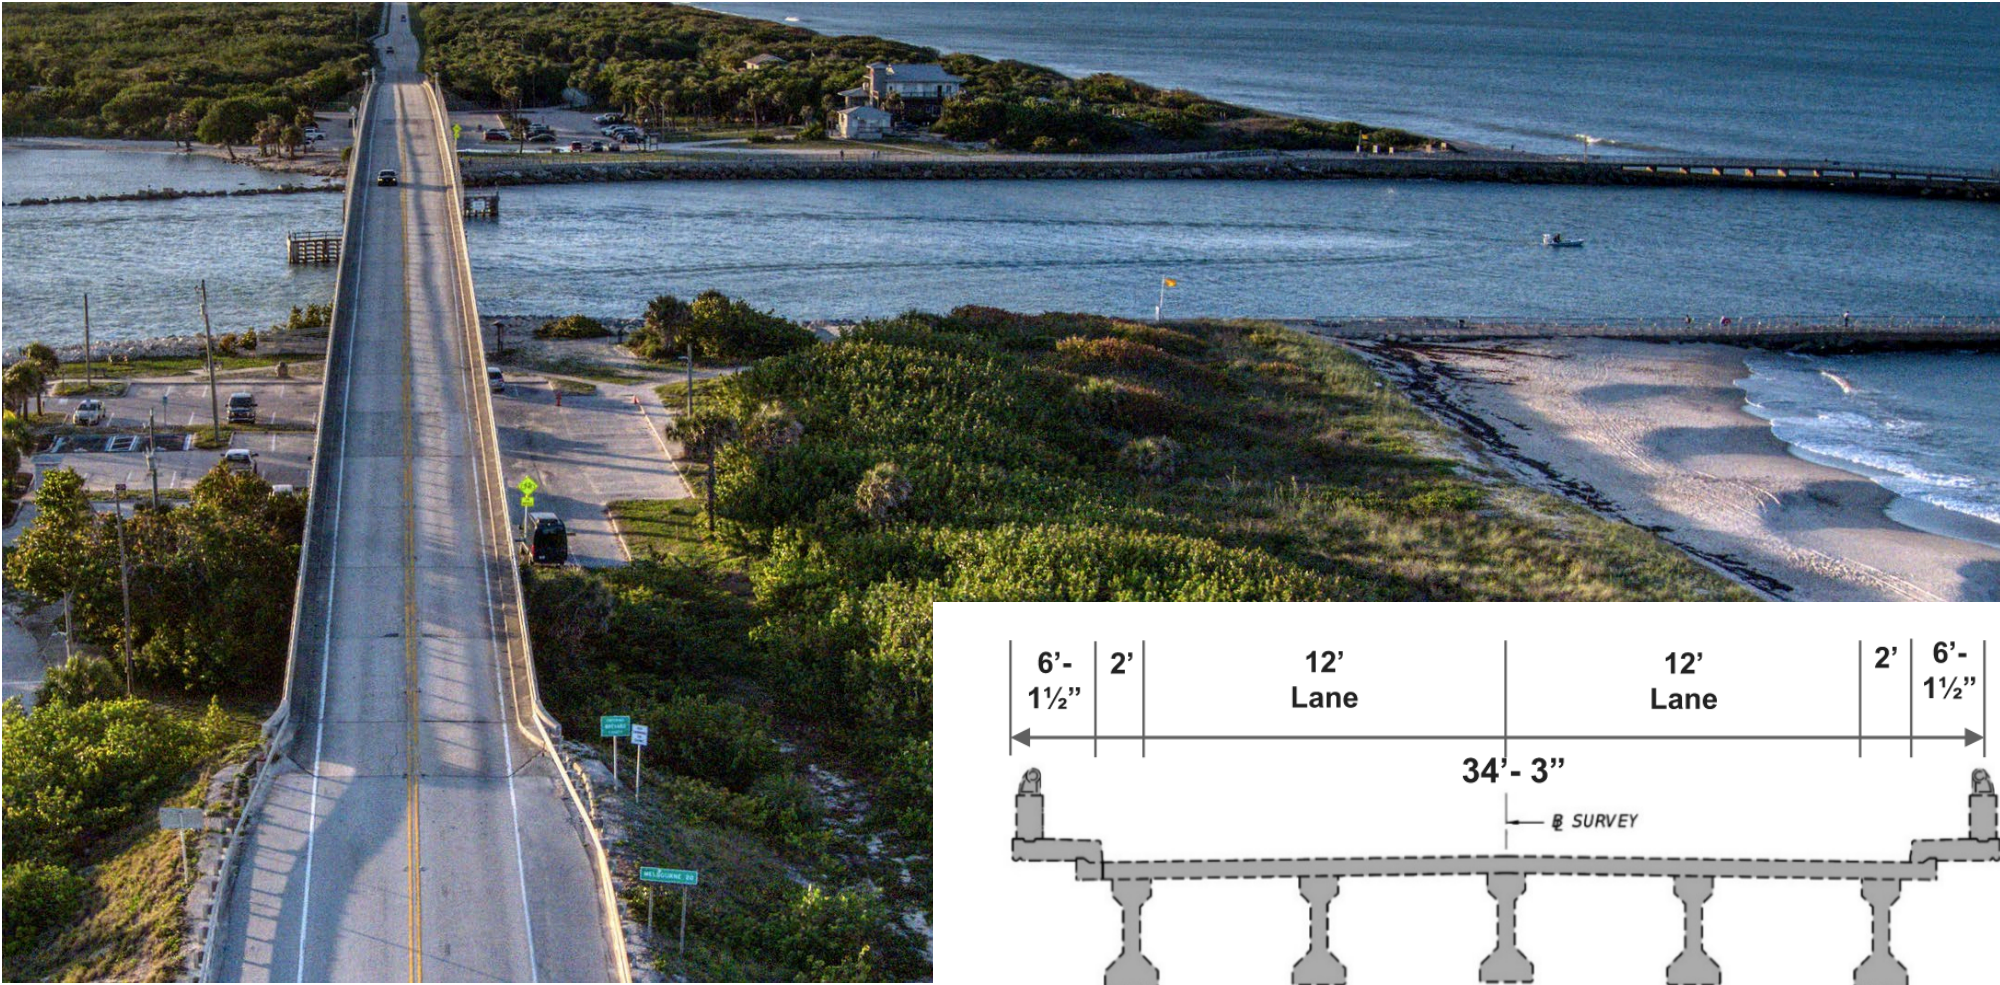

Project Overview

- Constructed in 1964
- Existing vertical clearance is 39 feet Bridge Length is 1,548 feet
- No pedestrian or bicycle facilities on the existing bridge
- Part of the Indian River Lagoon National Scenic Byway

Existing Bridge

Existing Bridge

2021

- 3,300 AADT
- Truck percentage: 8%

2049 Design Year

- 5,700 AADT
- Truck percentage 6.3%

Proposed Bridge Typical

Existing / Proposed

Project Overview

Project Overview

PD&E Commitments

- Maintain traffic across the inlet at all times
- Repaving of the south and north parking lots
- Drainage improvements for the parking lots
- Include flight diverters on the bridge over the water (similar to existing)

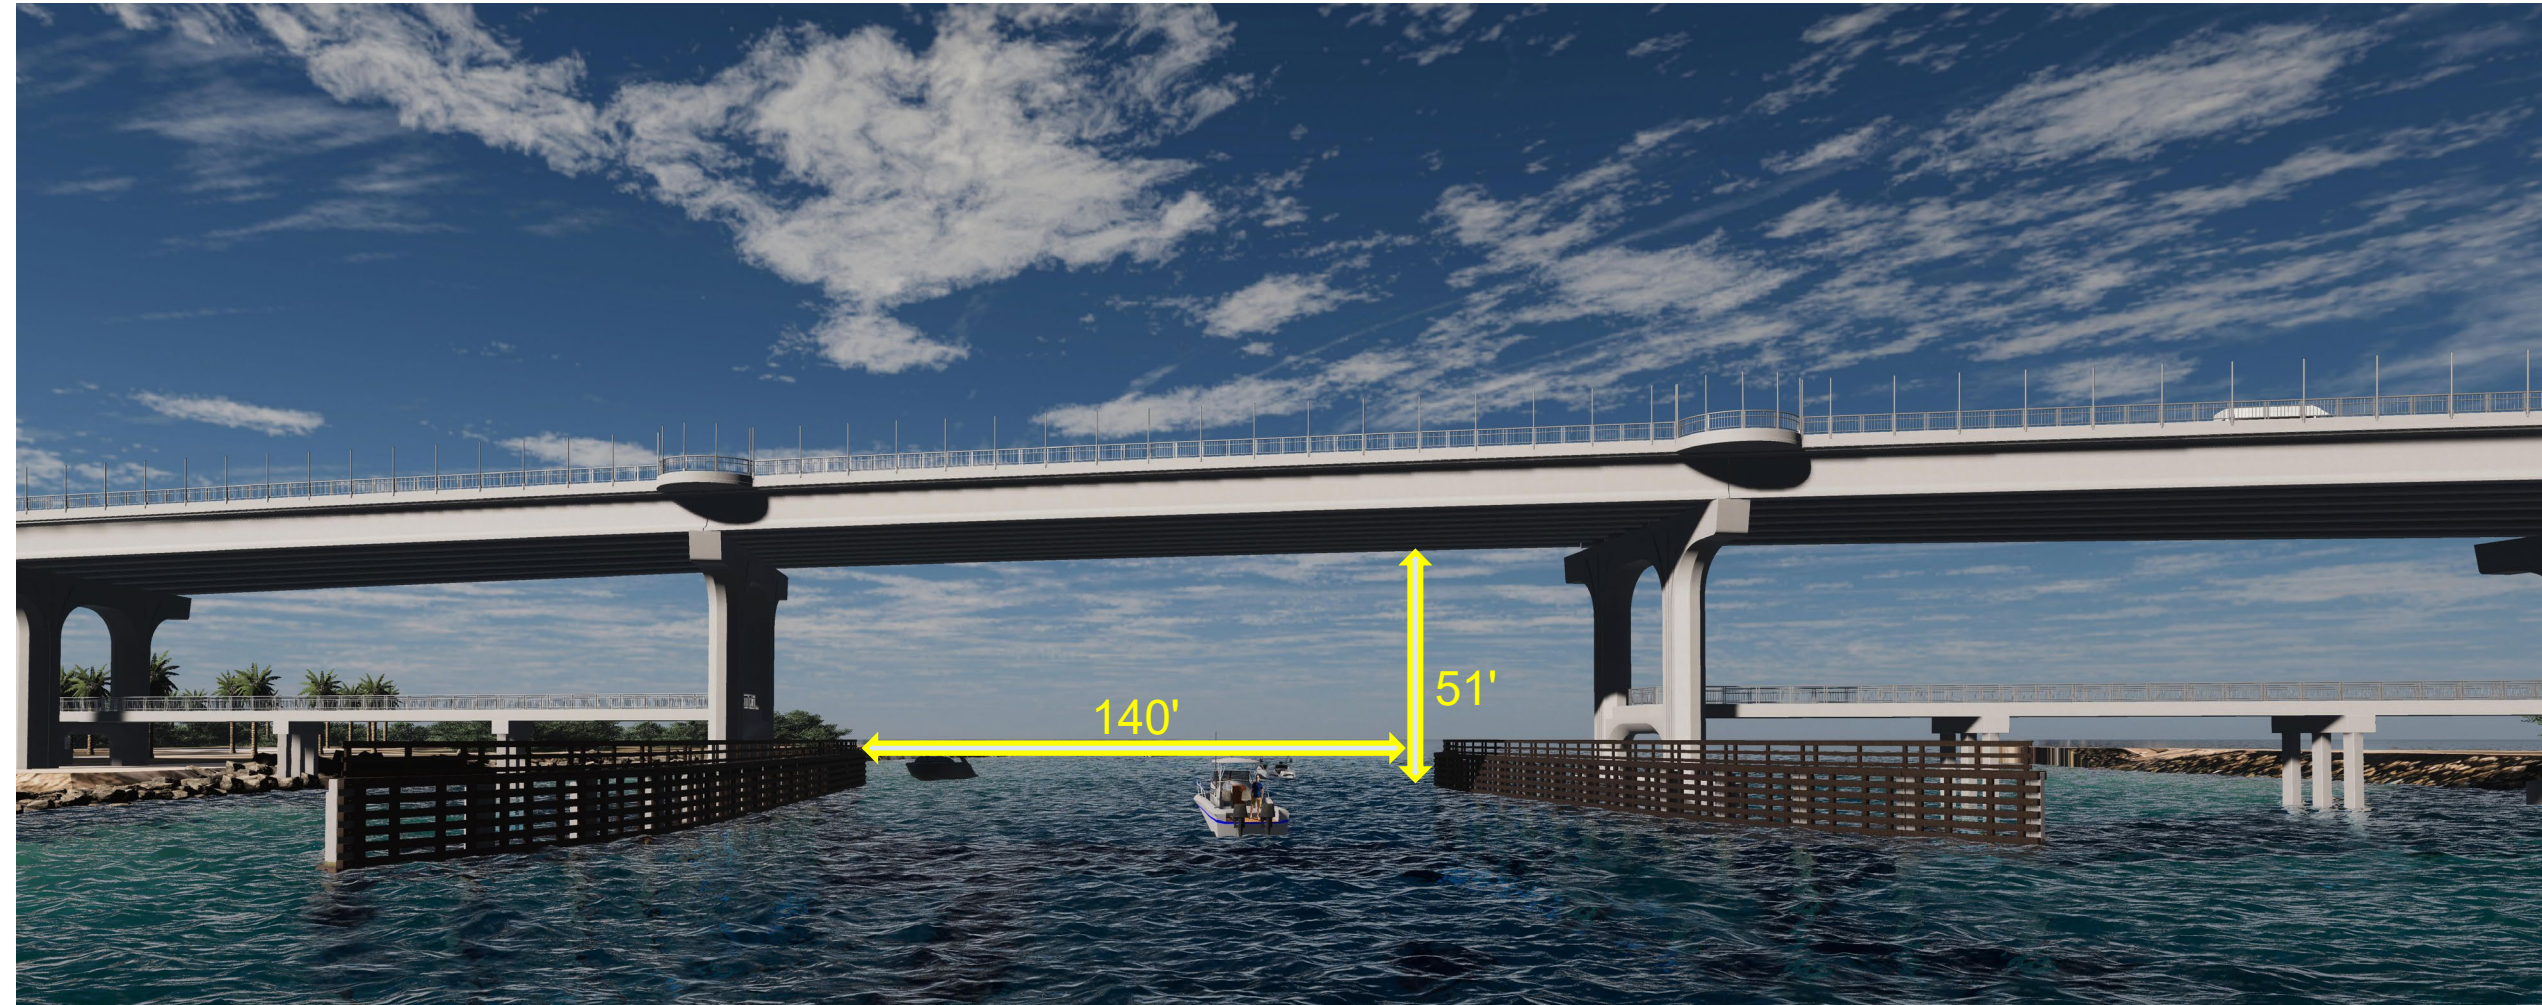

PD&E Commitments

Sebastian Inlet
District Access Road

Moved to the east side of
SR-A1A

Horizontal and Vertical Clearances

Proposed vertical clearance = 51 feet (existing is 39 feet)
Proposed horizontal clearance = 140 feet (same as existing)

Shared Use Paths (barrier separated)

8-ft Shoulders
12-ft Shared use Paths
12-ft lanes

Lookouts

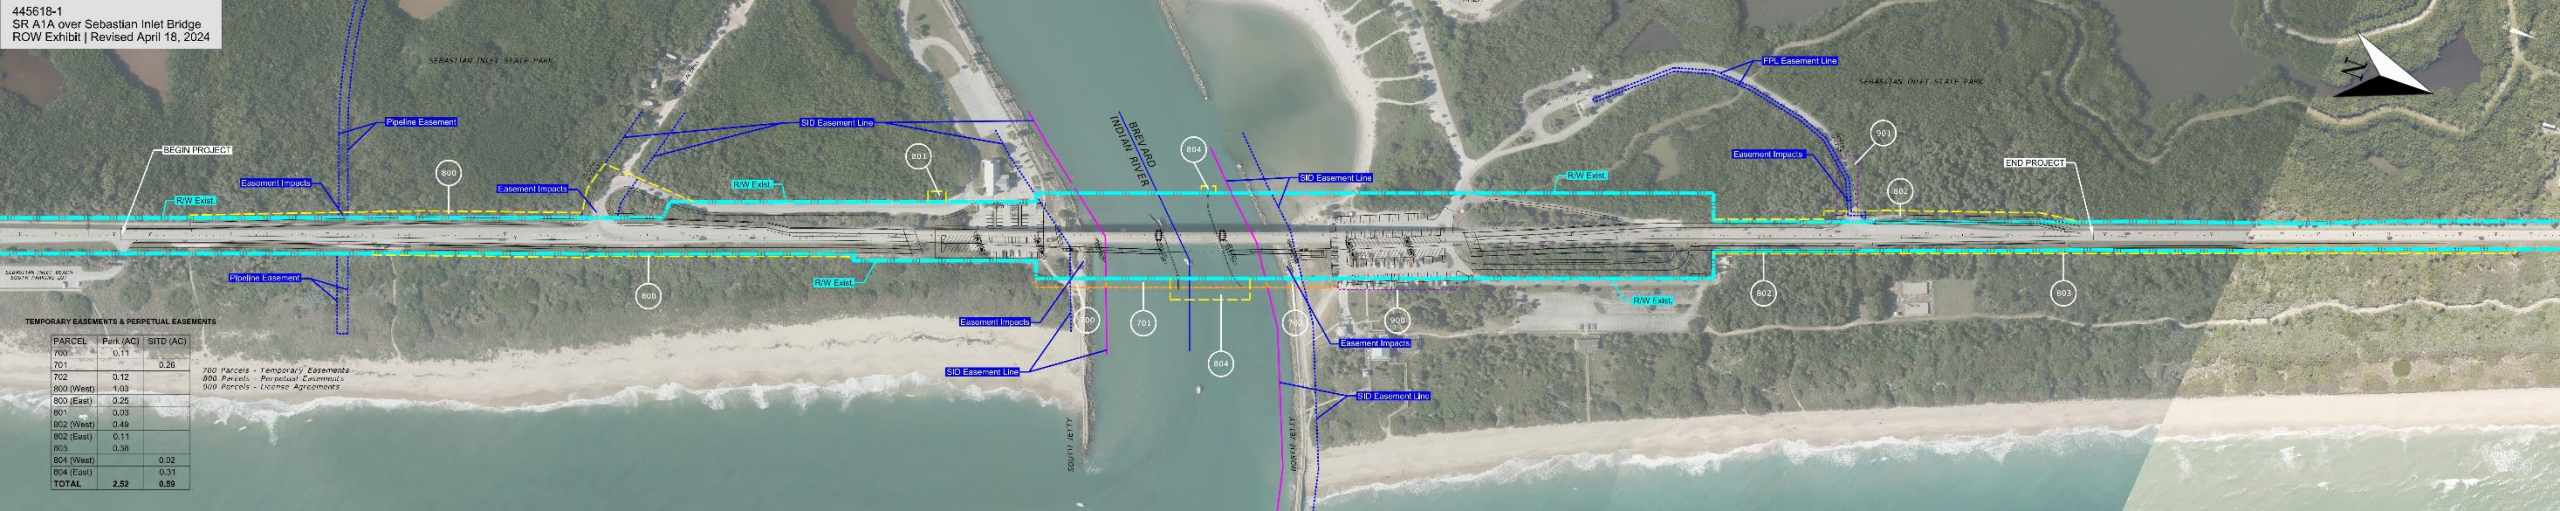

MSE Walls

Right of Way

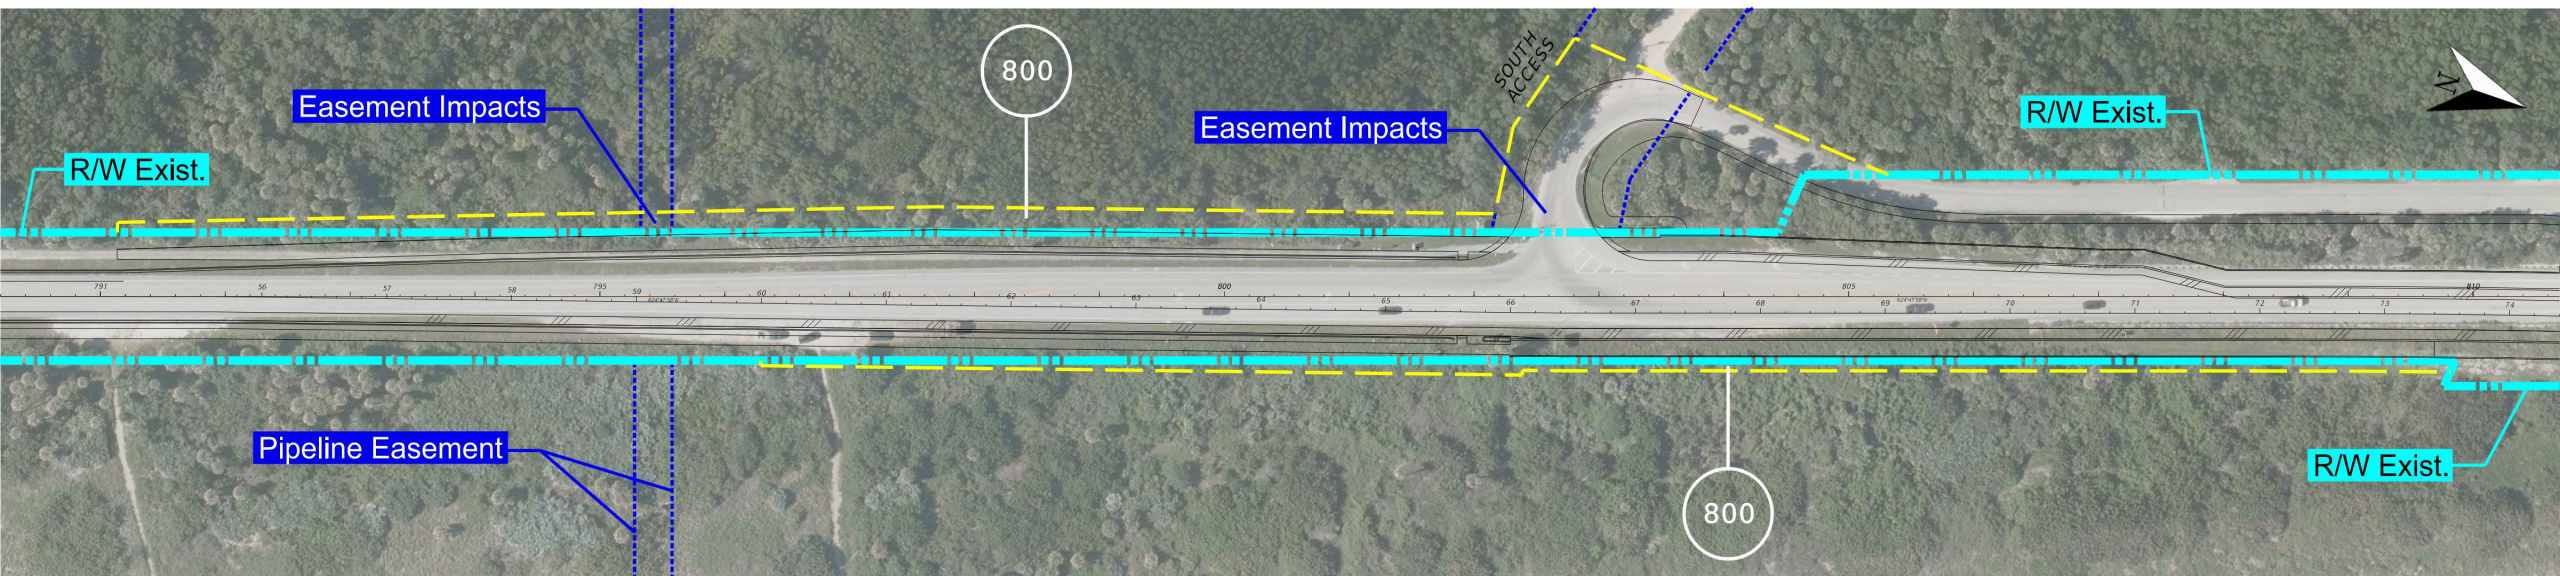

Perpetual Easements & Temporary Easements

Property owners: Sebastian Inlet State Park and Sebastian Inlet District

(approx. 2.5 acres)

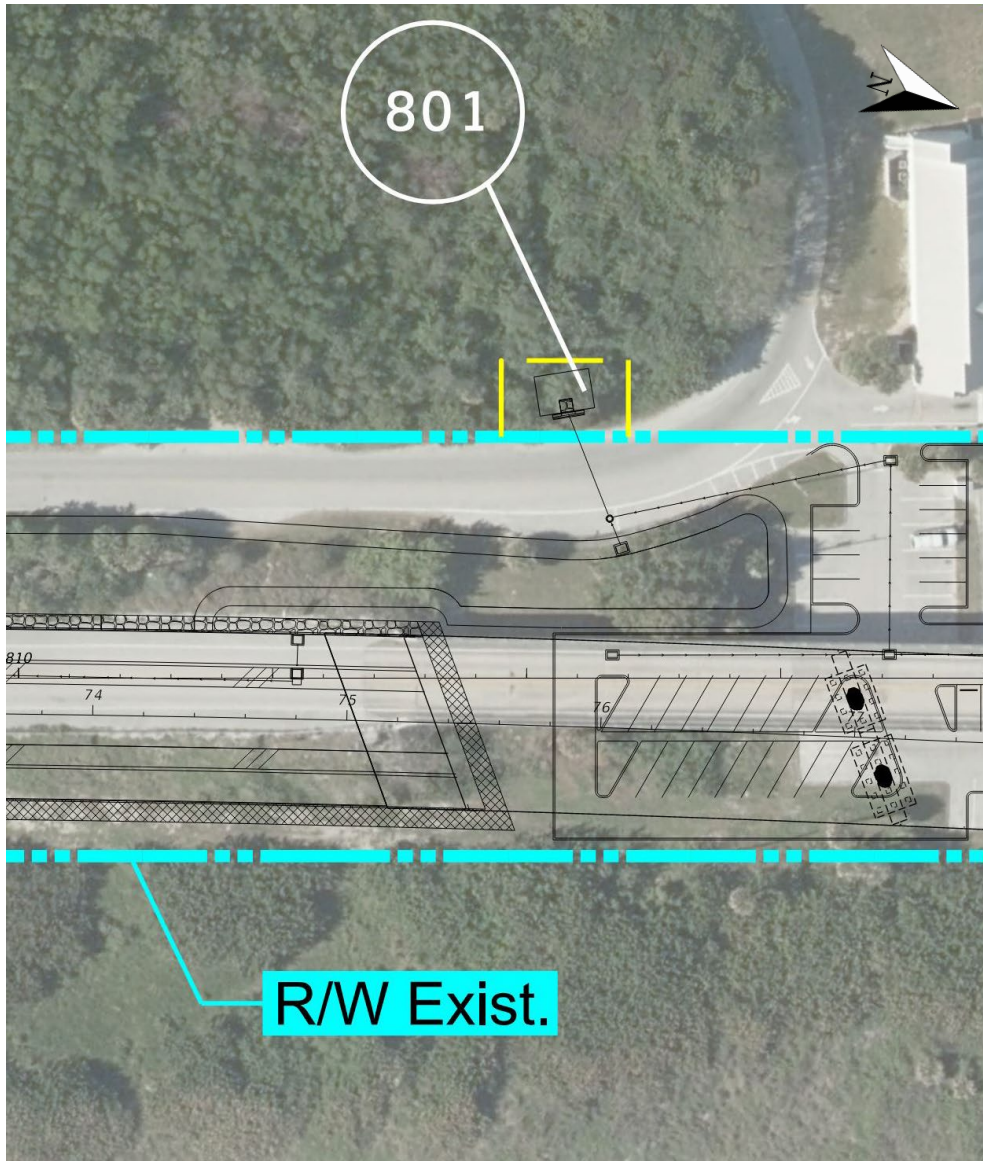

(approx. 0.59 acres)

Parcel 800

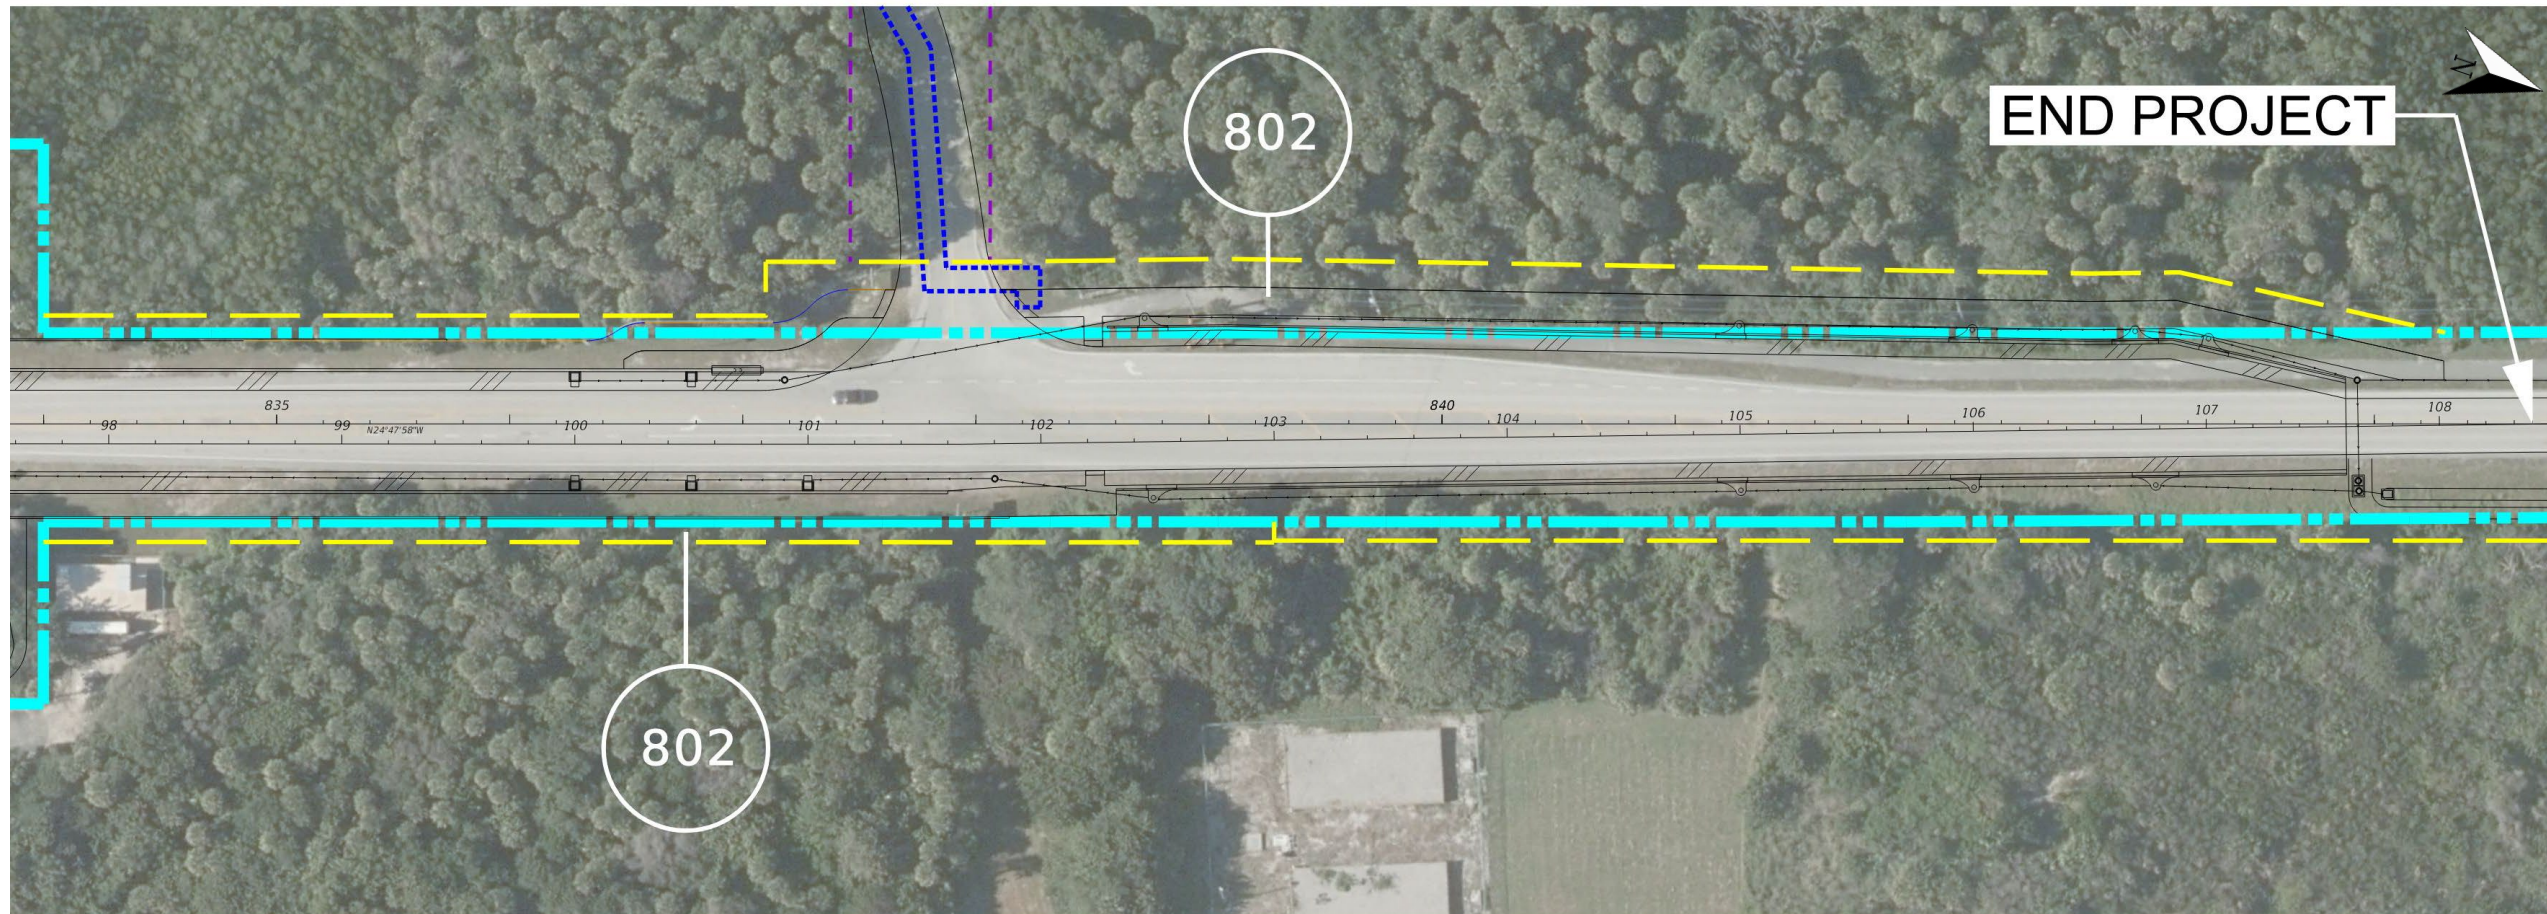

Roadway widening, maintenance of walls, and pedestrian/bicyclist facilities

Parcel 801

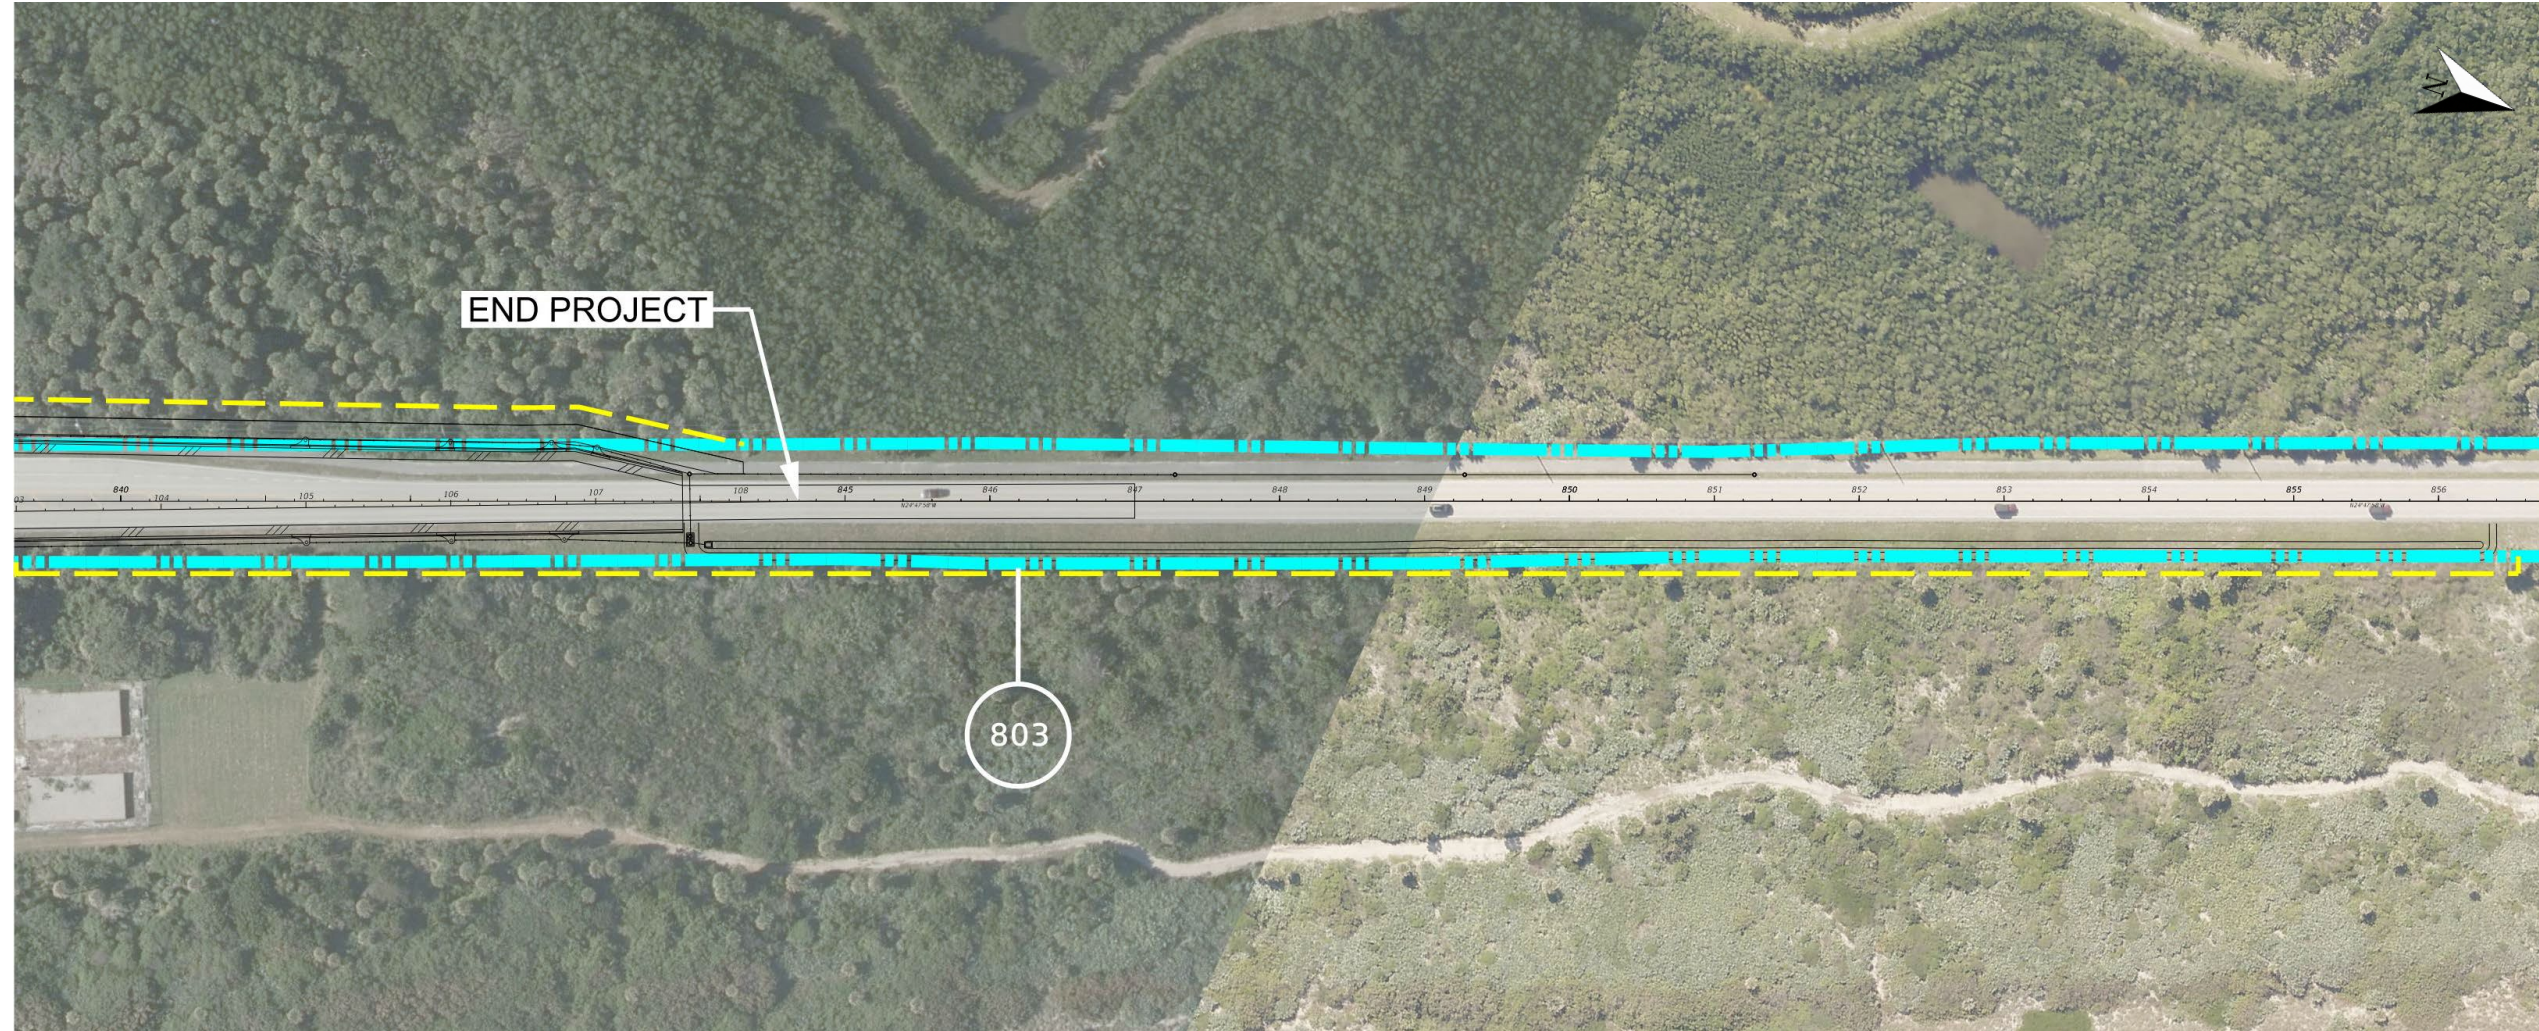

- Drainage outfall just south of Museum
- Serves as a stormwater outfall for the bridge project and the parking
- Replaces the existing drainage feature

Parcel 802

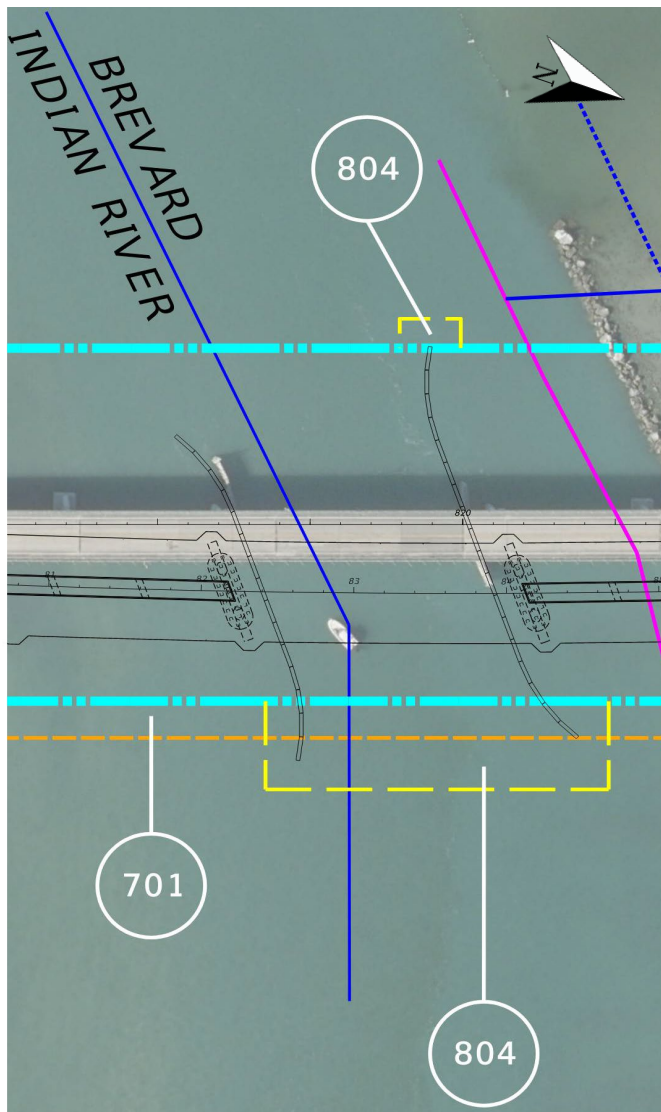

Roadway widening, maintenance of walls, and pedestrian/bicyclist facilities

Parcel 803

Drainage swales and maintenance

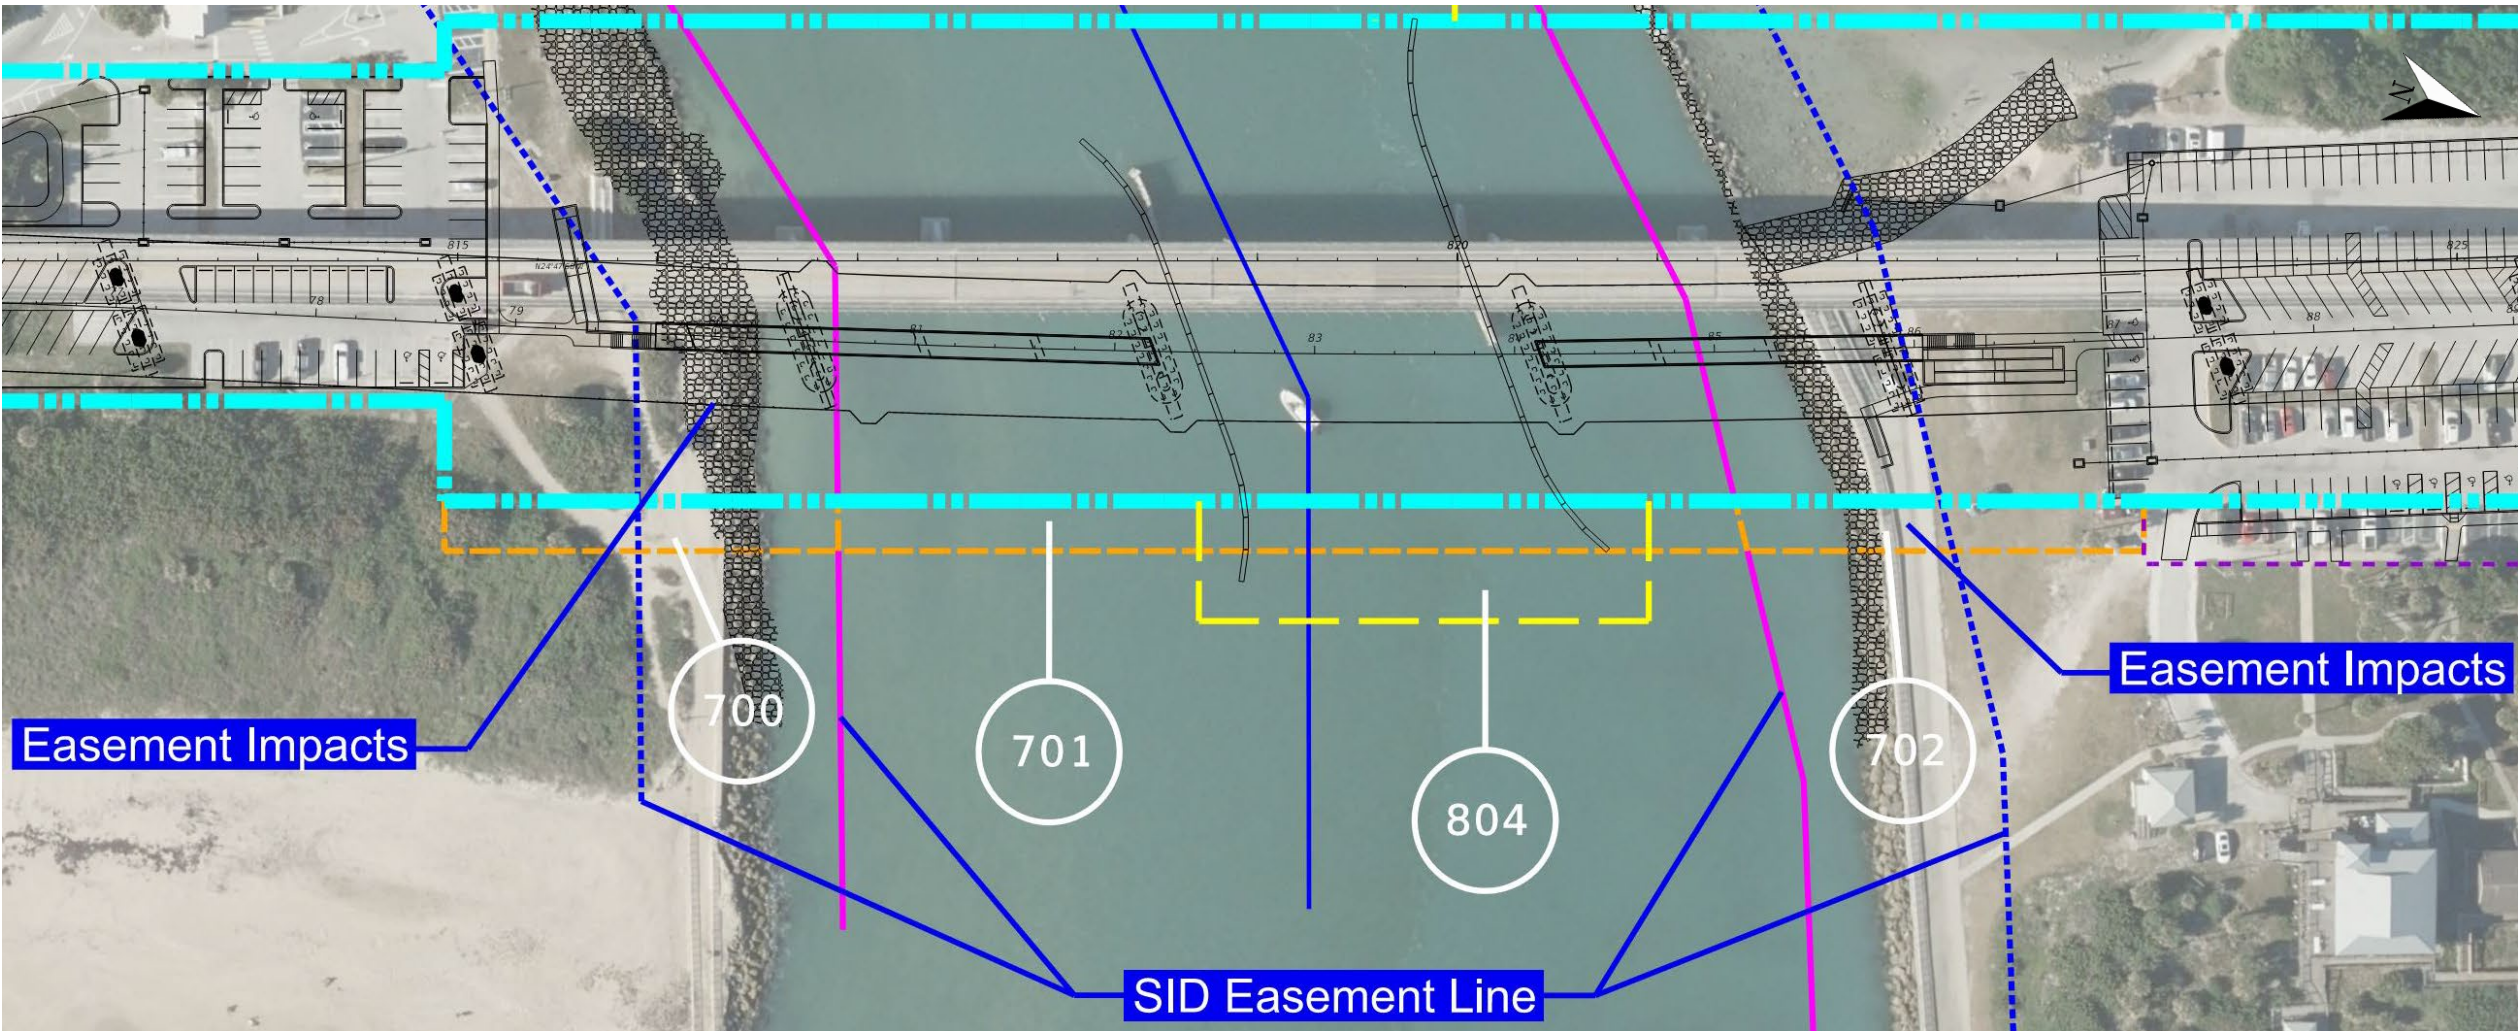

Parcel 804

Perpetual Easement for the new fender system construction and maintenance

Parcels 700, 701, 702

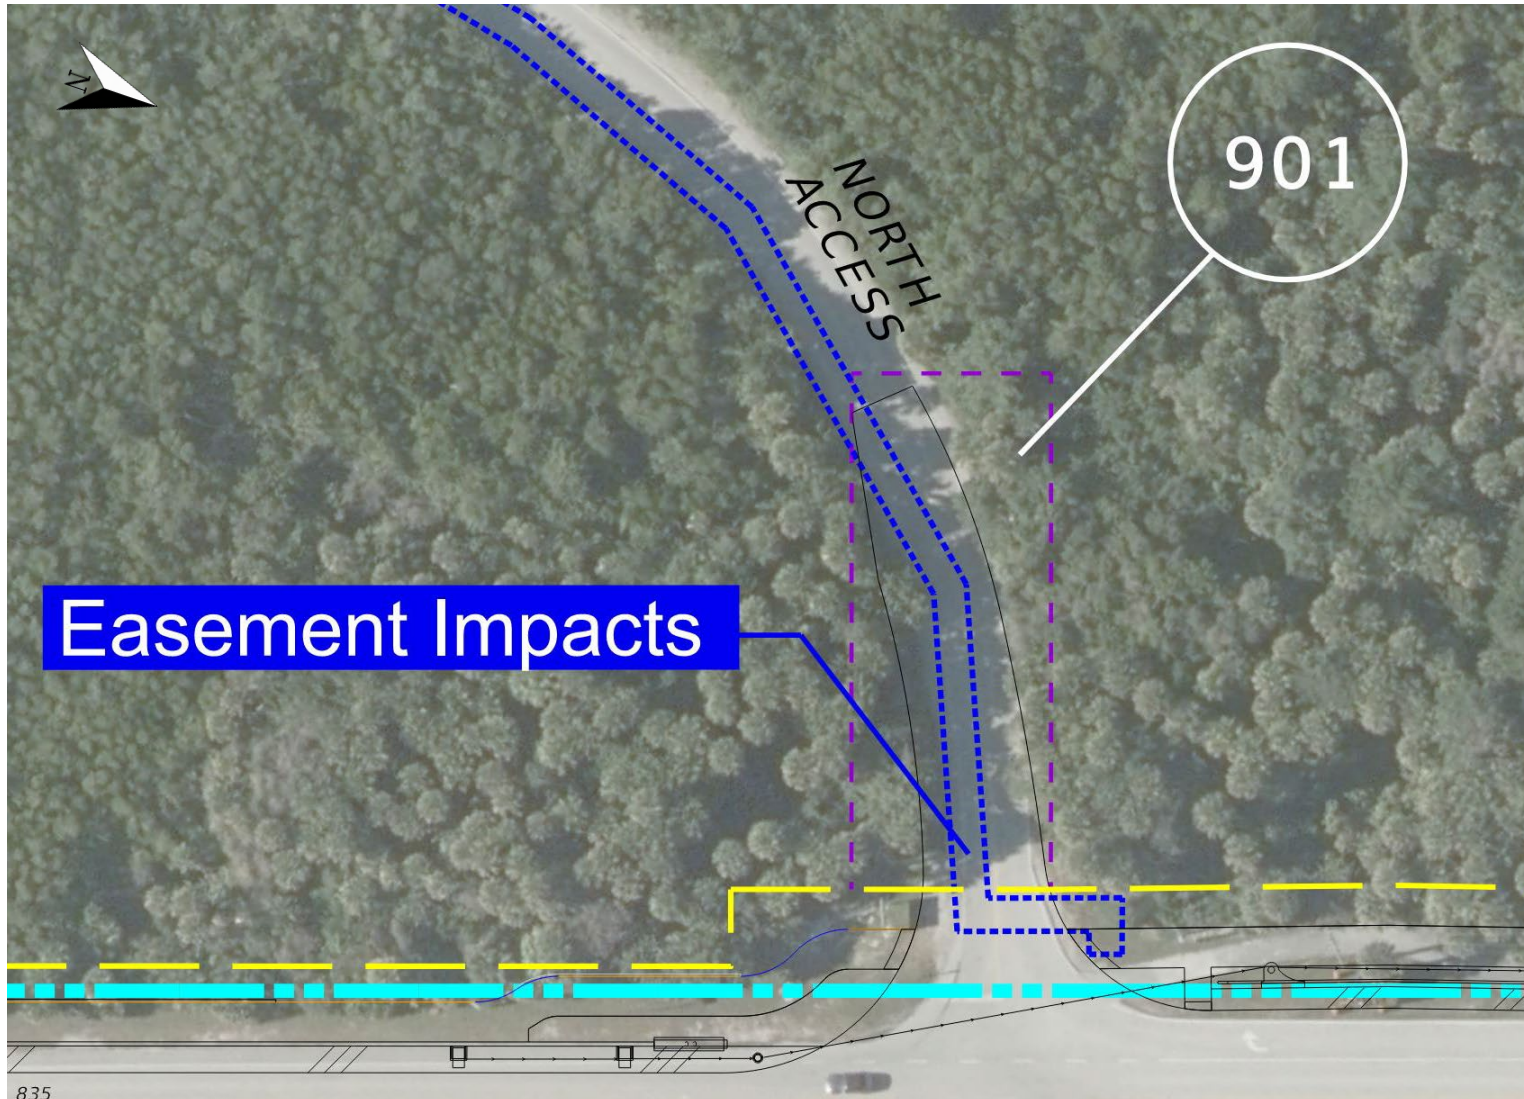

Trestles and mobilization of cranes for construction of the bridge & fenders

License Agreement – Parcel 900

Parking lot on the north side - restore portion of the parking lot that is outside of FDOT ROW

License Agreement – Parcel 901

Restore and widen the north park access

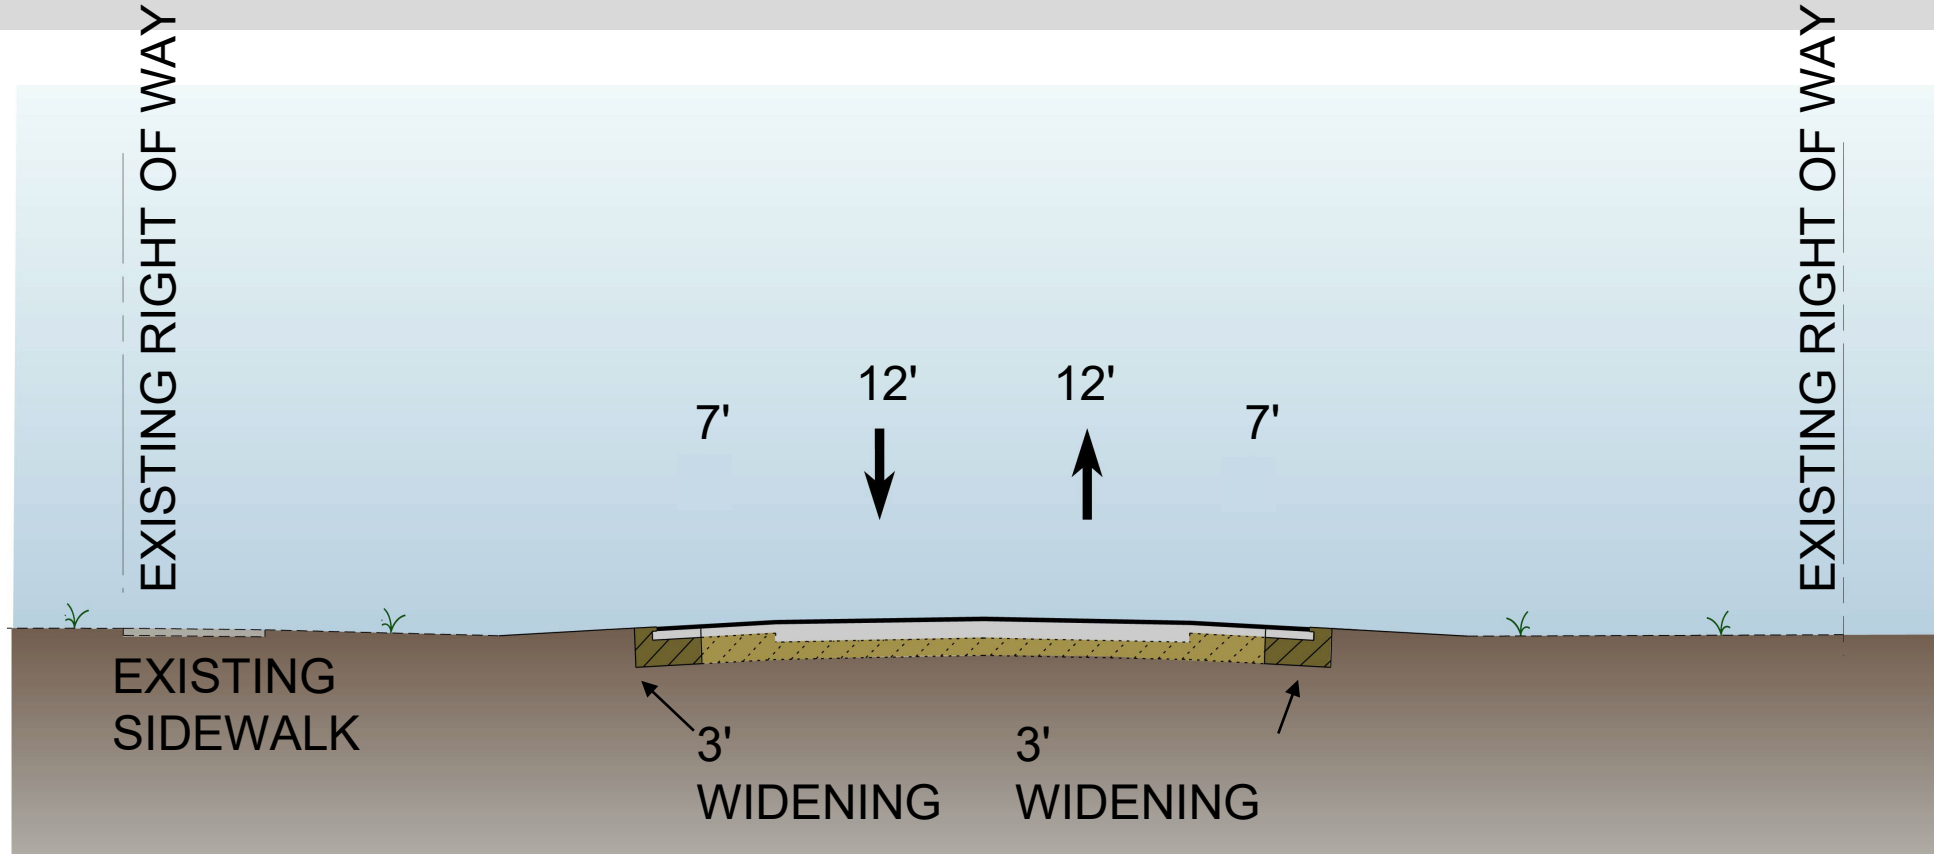

Construction Maintain Traffic

Construction South Jetty Impacts

Typical Section RRR

- Add pavement to provide 7' paved shoulder which can be used for bicycle facilities
- Mill and resurface SR-A1A
- Existing 8' - 10' sidewalk to remain

Project Schedule and Cost

Project Schedule and Cost

- Project Letting:
October 2025
- Anticipated Construction Start:
Spring 2026
- Estimated Construction End:
Fall 2030
- Estimated Construction Cost:
\$103,381,496.88

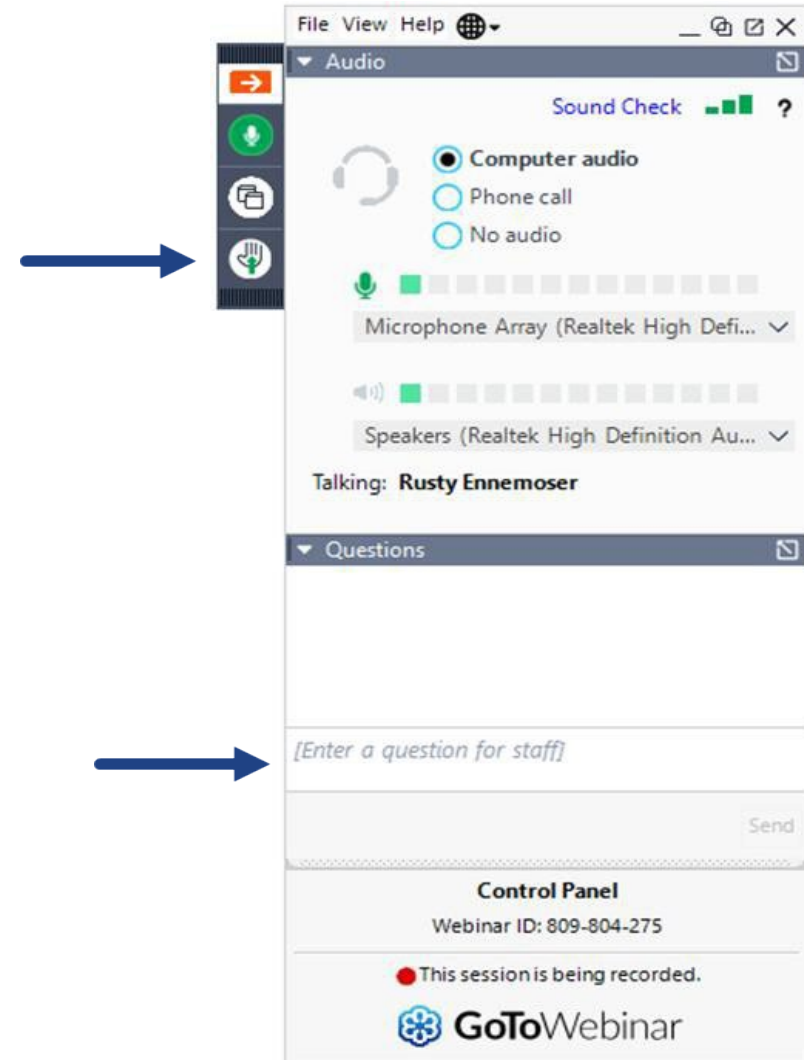

436518-1	\$	91,889,133.77
436518-2	\$	11,492,363.11
		<hr/>
	\$	103,381,496.88

Public Comments, Questions, and Answers

Questions and Answers

- All **in-person** attendees are welcome to submit a question or comment by raising a hand to be called upon.
- **Virtual (online)** attendees are welcome to ask a question or provide a comment by utilizing the question panel or “**Raise Hand**” button on the **GoToWebinar control panel**. Once your microphone is unmuted, please **provide your full name first and then your question/comment**. Your microphone will remain unmuted until the question/comment has been fully addressed.
- If your question is not responded to during the event, a response will be provided in writing following the Public Meeting.

Thank You

Florida Department of Transportation

RON DESANTIS
GOVERNOR

3400 West Commercial Boulevard
Fort Lauderdale, FL 33309

JARED W. PERDUE, P.E.
SECRETARY

July 3, 2024

Dear Elected Official:

RE: Hybrid Public Meeting

SR A1A Over Sebastian Inlet Bridge Replacement
Resurfacing, Restoration, and Rehabilitation of SR A1A from Sand Dollar Lane to
South of Sebastian Inlet
Indian River County, Brevard County, Florida
Financial Project ID's: 445618-1-52-01 and 445618-2-52-01

On behalf of the Florida Department of Transportation (FDOT), you and your staff are invited to a public meeting to learn about the proposed improvements for the above-referenced projects.

An open house will take place on **Wednesday, July 17, 2024, at 5:30 p.m.** followed by an in-person and virtual (hybrid) presentation at **6:30 p.m.** The public meeting will take place at the **Sebastian Community Center, 1805 North Central Avenue, Sebastian, Florida 32958**. To participate in the **virtual public meeting** from your computer, tablet or smartphone please register using the link:

<https://register.gotowebinar.com/register/478842150230794592>. Participants can also use their phone by dialing **+1 (213) 929-4212; Access code: 892-928-399**.

The public meeting will consist of an open house followed by a formal presentation. Staff will be available to answer questions and provide assistance. Comments and questions will be answered in the order received. If your question is not answered during the event, a response will be provided in writing following the meeting. Questions and comments may also be submitted prior to the meeting by e-mailing the Project Manager. Enclosed is a copy of the Public Meeting Flyer.

Project information is posted at: <https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page>.

Community feedback is at the core of all we do. FDOT works with the public to balance their community vision with the community's transportation needs. This is routine on all our projects to ensure Florida's infrastructure is safe, resilient, and efficient for many years into the future. Notices are being sent to all property owners and tenants located within 300 feet of the projects and to other public officials, regulatory agencies, organizations, and individuals that have expressed interest in the projects.

If you require further information, please do not hesitate to contact the FDOT Project Manager, Mr. Binod Basnet, P.E., at (954) 777-4146, toll free (866) 336-8435, ext. 4146, or email: binod.basnet@dot.state.fl.us.

Sincerely,

DocuSigned by:

A handwritten signature in black ink that reads "John Krane".

FLORIDA DEPARTMENT OF TRANSPORTATION INVITES YOU TO A PUBLIC MEETING

BRIDGE REPLACEMENT AND ROADWAY RESURFACING PROJECTS

State Road (SR) A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration, and Rehabilitation (RRR) of SR A1A from Sand Dollar Lane to South of Sebastian Inlet
Indian River County, Brevard County, Florida
Financial Project ID's: 445618-1-52-01 and 445618-2-52-01

The Florida Department of Transportation (FDOT) will conduct a public meeting for the above referenced projects within Indian River and Brevard Counties. This public meeting will be offered in-person and virtually. The public meeting will have representatives available to answer questions. Project information will be available for public viewing. Questions and comments may be submitted prior to the meeting by emailing the Project Manager. An open house will start at 5:30 p.m. followed by the in-person and virtual (hybrid) presentation at 6:30 p.m. Project information is posted at: <https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page>.

PURPOSE OF PROJECTS: The purpose of the SRA1A over Sebastian Inlet bridge replacement project is to address the structural and functional deficiencies of the existing bridge and address the gap in system linkage for bicyclists and pedestrians. The project also improves drainage system and raises vertical clearance to address resiliency, and adds shoulders and shared use paths to enhance safety. The purpose of RRR of SRA1A from Sand Dollar Lane to south of the Sebastian Inlet is to extend service life of the roadway and enhance safety.

PROPOSED IMPROVEMENTS

New Bridge alignment that is shifted to the east of the existing bridge with:

- Two 12-foot travel lanes, two 8-foot shoulders, and two 12-foot shared use paths
- Two fishing pier/observation walks, one under the bridge from the south shore and one under the bridge from the north shore

South of the bridge, improvements include:

- Addition of a crosswalk crossing SR A1A at the State Park's south entrance
- Reconfiguration of the State Park's south entrance including the addition of a right-turn lane out of the State Park
- A southbound acceleration lane from the State Park's south entrance
- Lengthened storage of the southbound right-turn lane into the State Park
- Continuation of the shared use path on the west side, and addition of a shared use path on the east side of the bridge and roadway

North of the bridge, the improvements include:

- Reconfiguration of the State Park's north entrance including the addition of a right-turn lane out of the State Park
- Lengthened storage of the southbound right-turn lane into the State Park
- Continuation of the shared use path on the west side, and addition of a shared use path on the east side of the bridge and roadway terminating at the State Park's north entrance
- Addition of a crosswalk crossing SR A1A at the State Park's north entrance
- Reconfiguration of the Sebastian Inlet District Access Road

Resurfacing, Restoration, and Rehabilitation:

- Resurface pavement within the project limits
- Widen shoulders to provide 7-foot paved shoulders

JOIN US AT THE PUBLIC MEETING

Wednesday, July 17, 2024, Open House at 5:30 p.m. followed by an in-person and virtual (hybrid) presentation at 6:30 p.m.

**Sebastian Community Center
1805 North Central Avenue
Sebastian, Florida 32958**

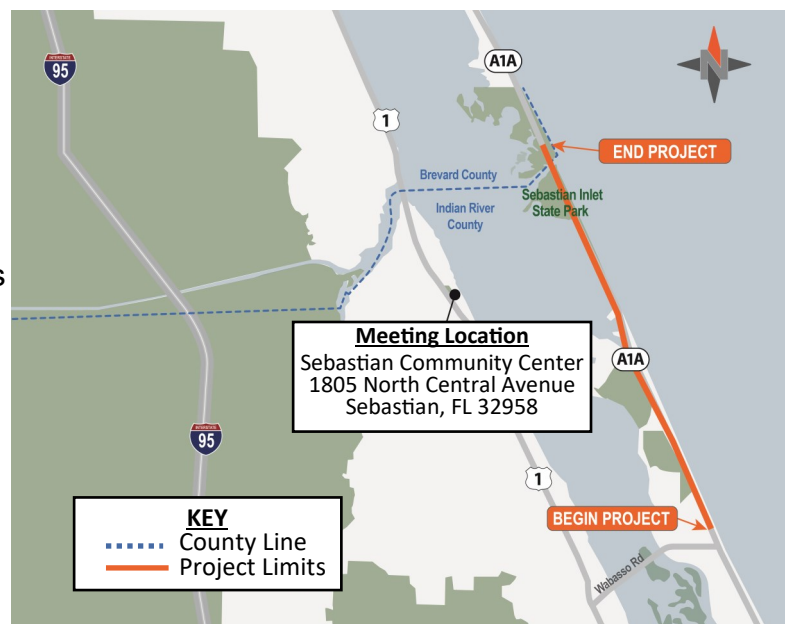

To participate in the **virtual public meeting** from your computer, tablet, or smartphone please register using the following link or QR code:

<https://register.gotowebinar.com/register/478842150230794592>.

Participants can also dial in using their phone:
Dial in number: **+1 (213) 929-4212**
Access code: **892-928-399**.

If you are unable to attend the meeting, a recording of it will be posted at:

State Road (SR) A1A Over Sebastian Inlet Bridge Replacement and
Resurfacing, Restoration, and Rehabilitation (RRR) of SR A1A from
Sand Dollar Lane to South of Sebastian Inlet
Indian River County, Brevard County, Florida
Financial Project ID's: 445618-1-52-01 and 445618-2-52-01

CONSTRUCTION IMPACTS:

- Bridge construction work will be done in phases to avoid traffic detour and bridge closure per PD&E study commitment.
- Two way traffic will be maintained across the inlet at all times.
- Temporary lane closures will be required during non-peak hours

CONSTRUCTION INFORMATION:

- Anticipated Construction Start: Spring 2026
- Anticipated Construction End: Fall 2030
- Estimated Construction Cost: \$103.4 Million

BRIDGE REPLACEMENT AND ROADWAY RESURFACING PROJECTS

State Road (SR) A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration, and Rehabilitation (RRR) of SR A1A from Sand Dollar Lane to South of Sebastian Inlet
Indian River County, Brevard County, Florida
Financial Project ID's: 445618-1-52-01 and 445618-2-52-01

The Florida Department of Transportation (FDOT) will conduct a public meeting for the above referenced projects within Indian River and Brevard Counties. This public meeting will be offered in-person and virtually. The public meeting will have representatives available to answer questions. Project information will be available for public viewing. Questions and comments may be submitted prior to the meeting by emailing the Project Manager. An open house will start at 5:30 p.m. followed by the in-person and virtual (hybrid) presentation at 6:30 p.m. Project information is posted at: <https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page>.

PURPOSE OF PROJECTS: The purpose of the SR A1A over Sebastian Inlet bridge replacement project is to address the structural and functional deficiencies of the existing bridge and address the gap in system linkage for bicyclists and pedestrians. The project also improves drainage system and raises vertical clearance to address resiliency, and adds shoulders and shared use paths to enhance safety. The purpose of RRR of SR A1A from Sand Dollar Lane to south of the Sebastian Inlet is to extend service life of the roadway and enhance safety.

PROPOSED IMPROVEMENTS

New Bridge alignment that is shifted to the east of the existing bridge with:

- Two 12-foot travel lanes, two 8-foot shoulders, and two 12-foot shared use paths
- Two fishing pier/observation walks, one under the bridge from the south shore and one under the bridge from the north shore

South of the bridge, improvements include:

- Addition of a crosswalk crossing SR A1A at the State Park's south entrance
- Reconfiguration of the State Park's south entrance including the addition of a right-turn lane out of the State Park
- A southbound acceleration lane from the State Park's south entrance
- Lengthened storage of the southbound right-turn lane into the State Park
- Continuation of the shared use path on the west side, and addition of a shared use path on the east side of the bridge and roadway

North of the bridge, the improvements include:

- Reconfiguration of the State Park's north entrance including the addition of a right-turn lane out of the State Park
- Lengthened storage of the southbound right-turn lane into the State Park
- Continuation of the shared use path on the west side, and addition of a shared use path on the east side of the bridge and roadway terminating at the State Park's north entrance
- Addition of a crosswalk crossing SR A1A at the State Park's north entrance
- Reconfiguration of the Sebastian Inlet District Access Road

Resurfacing, Restoration, and Rehabilitation:

- Resurface pavement within the project limits
- Widen shoulders to provide 7-foot paved shoulders

FLORIDA DEPARTMENT OF TRANSPORTATION MISSION STATEMENT

The Department will provide a safe statewide transportation system that promotes the efficient movement of people and goods, supports the state's economic competitiveness, prioritizes Florida's environment and natural resources, and preserves the quality of life and connectedness of the state's communities.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require special accommodations under the Americans with Disabilities Act (ADA) or persons who require translation services (free of charge) should contact Binod Basnet, P.E., Project Manager, at least seven (7) days prior to the Public Meeting.

**FLORIDA DEPARTMENT OF TRANSPORTATION
INVITES YOU TO A PUBLIC MEETING**

BRIDGE REPLACEMENT AND ROADWAY RESURFACING PROJECTS

State Road (SR) A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration, and Rehabilitation (RRR) of SR A1A from Sand Dollar Lane to South of Sebastian Inlet
Indian River County, Brevard County, Florida
Financial Project ID's: 445618-1-52-01 and 445618-2-52-01

CONSTRUCTION IMPACTS:

- Bridge construction work will be done in phases to avoid traffic detour and bridge closure per PD&E study commitment.
- Two way traffic will be maintained across the inlet at all times.
- Temporary lane closures will be required during non-peak hours

CONSTRUCTION INFORMATION:

- Anticipated Construction Start: Spring 2026
- Anticipated Construction End: Fall 2030
- Estimated Construction Cost: \$103.4 Million

FLORIDA DEPARTMENT OF TRANSPORTATION INVITES YOU TO A PUBLIC MEETING

BRIDGE REPLACEMENT AND ROADWAY RESURFACING PROJECTS

State Road (SR) A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration, and Rehabilitation (RRR) of SR A1A from Sand Dollar Lane to South of Sebastian Inlet
Indian River County, Brevard County, Florida
Financial Project ID's: 445618-1-52-01 and 445618-2-52-01

The Florida Department of Transportation (FDOT) will conduct a public meeting for the above referenced projects within Indian River and Brevard Counties. This public meeting will be offered in-person and virtually. The public meeting will have representatives available to answer questions. Project information will be available for public viewing. Questions and comments may be submitted prior to the meeting by emailing the Project Manager. An open house will start at 5:30 p.m. followed by the in-person and virtual (hybrid) presentation at 6:30 p.m. Project information is posted at: <https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page>.

PURPOSE OF PROJECTS: The purpose of the SR A1A over Sebastian Inlet Bridge replacement project is to address the structural and functional deficiencies of the existing bridge and address the gap in system linkage for bicyclists and pedestrians. The project also improves drainage system and raises vertical clearance to address resiliency, and adds shoulders and shared use paths to enhance safety. The purpose of RRR of SR A1A from Sand Dollar Lane to south of the Sebastian Inlet is to extend service life of the roadway and enhance safety.

PROPOSED IMPROVEMENTS

New Bridge alignment that is shifted to the east of the existing bridge with:

- Two 12-foot travel lanes, two 8-foot shoulders, and two 12-foot shared use paths
- Two fishing pier/observation walks, one under the bridge from the south shore and one under the bridge from the north shore

South of the bridge, improvements include:

- Addition of a crosswalk crossing SR A1A at the State Park's south entrance
- Reconfiguration of the State Park's south entrance including the addition of a right-turn lane out of the State Park
- A southbound acceleration lane from the State Park's south entrance
- Lengthened storage of the southbound right-turn lane into the State Park
- Continuation of the shared use path on the west side of the bridge and roadway, and addition of a shared use path on the east side of the bridge and roadway

North of the bridge, the improvements include:

- Reconfiguration of the State Park's north entrance including the addition of a right-turn lane out of the State Park
- Lengthened storage of the southbound right-turn lane into the State Park
- Continuation of the shared use path on the west side of the bridge and roadway, and addition of a shared use path on the east side of the bridge and roadway terminating at the State Park's north entrance
- Addition of a crosswalk crossing SR A1A at the State Park's north entrance
- Reconfiguration of the Sebastian Inlet District Access Road

Resurfacing, Restoration, and Rehabilitation:

- Resurface pavement within the project limits
- Widen shoulders to provide 7-foot paved shoulders

CONSTRUCTION IMPACTS:

- Bridge construction work will be done in phases to avoid detour and bridge closure per PD&E study commitment.
- Two way traffic will be maintained across the inlet at all times.
- Temporary lane closures will be required during non-peak hours.

CONSTRUCTION INFORMATION:

- Anticipated Construction Start: Spring 2026
- Anticipated Construction End: Fall 2030
- Estimated Construction Cost: \$103.4 Million

Fax: (305) 415-6763
Email: Omar.Beceiro@uscg.mil

16591/3099

February 6, 2024

AVAILABILITY OF PUBLIC NOTICE 01-24

Commander, Seventh Coast Guard District has received an application dated January 8, 2024, from Florida Department of Transportation. The applicant is requesting approval of location and plans for a bridge replacement across a navigable waterway of the United States.

WATERWAY AND LOCATION: Sebastian Inlet, Mile 0.1, Sebastian, between Indian River and Brevard Counties, Florida, Latitude/Longitude: 27.860070, -80.448385

CHARACTER OF WORK: Florida Department of Transportation intends to replace the James H. Pruitt Memorial Bridge (Bridge No. 880005), with a new fixed bridge along the same alignment. Improvements include replacing the existing under deck observation walks, and the addition of bicycle and pedestrian facilities across the bridge. The new bridge will consist of a fixed span bridge approximately 1544 feet in length and 68 feet in width. The bridge will carry two 12-foot travel lanes, two 8-foot shoulders, and two 12-foot shared use paths. The existing bridge will be removed in its entirety.

MINIMUM NAVIGATIONAL CLEARANCES: The proposed bridge will have clearances as shown in the below table relative to Mean High Water (MHW).

	<u>Existing (Feet)</u>	<u>Proposed (Feet)</u>
Vertical	39	51
Horizontal	140	140

Datum: NAVD88

ENVIRONMENTAL CONSIDERATIONS: Florida Department of Transportation, as the lead agency pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated May 26, 2022, has determined the bridge replacement warrants a categorical exclusion (CATEX) for the purposes of the National Environmental Policy Act (NEPA). Florida Department of Transportation is acting on behalf of the Coast Guard for all environmental control laws. The Coast Guard has made a tentative determination that the bridge replacement warrants a CATEX because it satisfies criteria for such actions listed in the Coast Guard's NEPA Implementing Instructions.

FOR MORE INFORMATION INCLUDING INSTRUCTIONS ON PROVIDING COMMENTS: The complete public notice, including conceptual bridge plans, is available at [Public Notices for Bridges | Navigation Center \(uscg.gov\)](#). The public notice may also be obtained by contacting the Coast Guard project officer, Mr. Omar Beceiro, at Omar.Beceiro@uscg.mil or (305) 415-6747, or by mail at Commander (dpb), Seventh Coast Guard District, 909 SE 1st Avenue, Suite 432, Miami, FL 33131.

Interested parties are asked to express their views, in writing, on the proposed bridge project giving sufficient detail to establish a clear understanding of their reasons for support of, or opposition to, the proposed work. Mariners are asked to comment on the proposed navigation clearances, placement of a bridge protective system, clearance gauges, extent of nighttime navigation to determine the need for bridge lighting and any other navigational safety issues. Comments will be received for the record at the office of: Commander (dpb), Seventh Coast Guard District, 909 SE 1st Avenue, Suite 432, Miami, Florida 33131 or via email at: Omar.Beceiro@uscg.mil for a 30-day period from the date of the public notice.

Subject: Coast Guard Public Notice - James H. Pruitt Memorial Bridge

Replacement - Sebastian, FL

Good morning:

Commander, Seventh Coast Guard District has received a bridge permit application dated January 8, 2024, from Florida Department of Transportation. The applicant is requesting approval of location and plans for a bridge replacement across a navigable waterway of the United States.

WATERWAY AND LOCATION: Sebastian Inlet, Mile 0.1, Sebastian, between Indian River and Brevard Counties, Florida, Latitude/Longitude: 27.860070, -80.448385

CHARACTER OF WORK: Florida Department of Transportation intends to replace the James H. Pruitt Memorial Bridge

(Bridge No. 880005), with a new fixed-bridge along the same alignment. Improvements include replacing the existing under deck observation walks, and the addition of bicycle and pedestrian facilities across the bridge. The new bridge would consist of a fixed span bridge approximately 1544 feet in length and 68 feet in width. The bridge would carry two 12-foot travel lanes, two 8-foot shoulders, and two 12-foot shared use paths. The existing bridge will be removed in its entirety.

Attached please find Public Notice 01-24, which includes a bridge plan set, for your review and comments. Please provide comments within 30 days of the date of the public notice on any significant effect permitting this bridge project may have on the human environment and/or navigation. Please forward this email to others who may be interested in reviewing and/or commenting on our actions.

Thank you,

Omar Beceiro

SHARK WEEK

Science has yet to find a way to keep sharks at bay

Jim Waymer

Florida Today
USA TODAY NETWORK - FLORIDA

Science keeps trying but has yet to find a reliable way to keep sharks at bay.

Even the late Julia Child, before she went with all that French cuisine, stirred up an anti-shark recipe in her bathtub, during her “deep state” days with the Office of Strategic Services (America’s first formal intelligence agency that later became the CIA). The famous chef and TV personality’s shark-repellent recipe was a mix of copper acetate, black dye and wax that reeked like a dead shark.

The military wanted Child or others to keep curious sharks from detonating mines during World War II. It was thought to have somewhat worked for several hours after each mine was treated with the stinky concoction.

Now we try magnetic fields and other barely proven means. Some make us feel safer. Most, if not all, are gimmicks.

Recent attacks in Florida’s Panhandle have once again brought the issue of shark deterrence to the forefront, as researchers continue their quest for the Holy Grail of shark repellents.

Among other unsuccessful tactics tried over the years: tear gas, human sweat, firefly extracts, water from crocodile habitats, and even Bengal tiger feces.

The idea of repelling sharks is alluring. Fishermen want a way to keep sharks from swiping targeted fish right off their hooks. Swimmers and surfers wish sharks would keep a comfortable distance. And tourism officials want safe beaches.

Local tourism officials don't think shark sightings, and the rare shark bite, are a deterrent to the thousands of people that flock to Brevard County's beaches each year and help fuel a nearly \$3 billion annual industry. CRAIG BAILEY/FLORIDA TODAY

Our WWII enemies included sharks

Serious scientific efforts to develop a shark repellent began during World War II, with Child among the pioneers.

“The repellent was a critical tool during WWII, and was coated on explosives that were targeting German U-boats,” the CIA’s website says of Child’s shark repellent recipe. “Before the introduction of the shark repellent, curious sharks would sometimes set off the explosives when they bumped into them.”

Beyond Child and the OSS, they involved Woods Hole Oceanographic Institute, University of Florida, Scripps Institute of Oceanography, and the American Museum of Natural History.

Early materials tested included chlorine gas, sodium cyanide, strychnine nitrate, narcotics, chemical warfare gases and stenches.

But later research found the wartime repellents mostly ineffective.

What about Sharkbanz? Does manipulating magnetic and electric fields work?

These days, the more promising shark repellents — but still sketchy, biologists say — are electric and magnetic in nature.

A shark’s ability to smell, feel or otherwise zero in on targets from afar stands unparalleled at sea.

Through a series of sensory pores in their snouts — called ampullae of Lorenzini — sharks can sense extremely weak electric fields, including that which moves muscles and makes hearts beat in prey.

But this variety of “animal magnetism” doesn’t appear that reliable, either, shark scientists say.

There are hundred-dollar-plus ankle bands that send out magnetic fields to stave off sharks, but do any of these tactics work?

The short answer is ‘no,’ or a hard ‘maybe’ for most of them, says Toby Daly-Engel, associate professor at Florida Institute of Technology and director of FIT’s Shark Conservation Lab.

While some shark deterrents have shown promise, scientists say the results are mixed at best, so the jury’s still out on most of the methods.

Even the studies that companies such as Sharkbanz put forth to promote their products often show little or no difference in avoidance between the control (no magnet) and the test (a magnet), Daly-Engel notes.

“Sharks have electrosense, and if you mess with it, they don’t like it,” Daly-Engel added. “This could deter some sharks in some circumstances, maybe.”

She says the studies promoting the products tend to show “limited or inconclusive data from a select few species” and most date from about a decade ago. “And there have been no magical breakthroughs in shark deterrents since then, so yeah. Gimmick.”

A sandbar shark attacks NFL Hall of Famer Warren Sapp’s greater amberjack aboard the DayMaker charter boat on April 20, 2021. Recent attacks in Florida’s Panhandle have once again brought the issue of shark deterrence to the forefront, as researchers continue their quest for the Holy Grail of shark repellents. PUBLIC MEETING
SR A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration and Rehabilitation of SR A1A from Sand Dollar Lane to south of Sebastian Inlet

FDOT

Indian River and Brevard County, Florida
Financial Project ID: 445618-1-52-01 and 445618-2-52-01

The Florida Department of Transportation (FDOT) invites you to attend a public meeting regarding the SR A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration and Rehabilitation of SR A1A from Sand Dollar Lane to south of Sebastian Inlet project.

An open house will take place on **Wednesday, July 17, 2024, at 5:30 p.m.** and the in-person and virtual meeting (hybrid) is scheduled for **Wednesday, July 17, 2024, at 6:30 p.m.** There will be two ways to attend the Hybrid Public meeting:

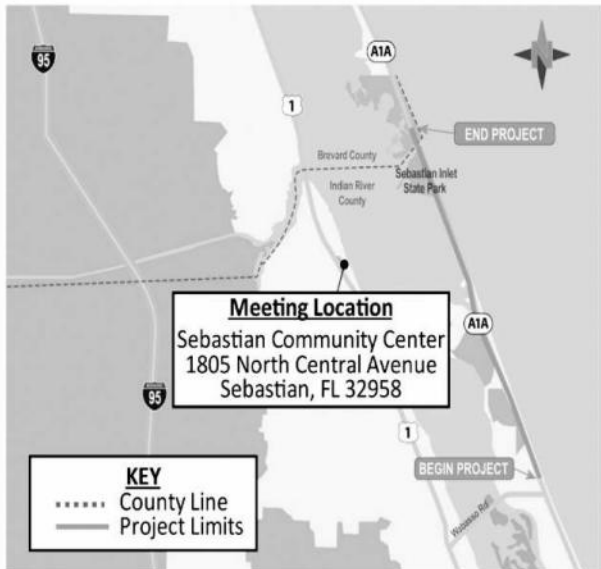

In-Person: Sebastian Community Center, 1805 North Central Avenue, Sebastian, Florida 32958 at **6:30 p.m.**

Virtual: Please register using the following link: <https://register.gotowebinar.com/register/478842150230794592>
To join by phone, please dial +1 (213) 929-4212; Access code: 892-928-399. Meeting begins at **6:30 p.m.**

The public meeting will consist of a formal presentation followed by an open discussion. Staff will be available to answer questions and provide assistance. Comments and questions will be answered in the order received. If your question is not answered during the event, a response will be provided in writing following the meeting. Questions and comments may also be submitted prior to the meeting by e-mailing the Project Manager. Community feedback is at the core of all we do. FDOT works with the public to balance their community vision with the community's transportation needs. This is routine on all our projects to ensure Florida's infrastructure is safe, resilient, and efficient for many years into the future.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.

Sebastian Inlet Bridge expected to cost nearly 75% more than original \$60 million price tag

By Nick Slater, Treasure Coast Newspapers, July 16, 2024

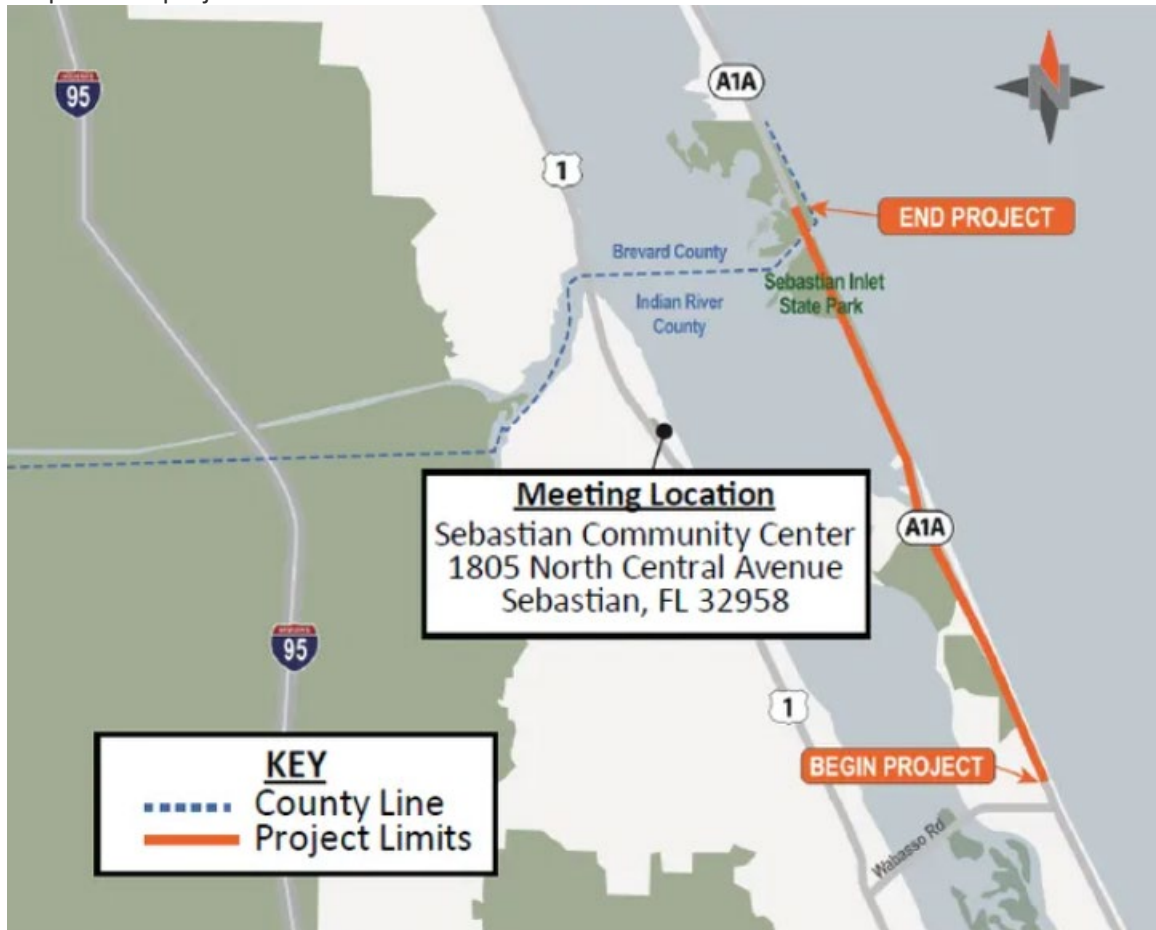

INDIAN RIVER COUNTY — Traffic between the county and Brevard County may get a bit more congested in 2026 as the Florida Department of Transportation is eyeing replacing the Sebastian Inlet Bridge, and it may be more expensive than originally thought.

The 1,548-foot James H. Pruitt Memorial Bridge was deemed structurally deficient — but safe — in 2019, following a routine inspection completed after Hurricane Dorian.

"The purpose of the project is to address the structural and functional deficiencies of the existing bridge," said FDOT Project Manager Binod Basnet. "The existing bridge will be demolished, and a taller bridge will be constructed."

Built in 1964, the bridge was upgraded in 1978 and 2003.

Scope of the project

Map of project to replace Sebastian Inlet Bridge FDOT

In 2022, FDOT stated that the expected cost of the project would not exceed \$61 million. Now, they anticipate the project to cost \$103.4 million in state and federal money.

"FDOT is building a newer, better bridge," said FDOT District Four Communications Manager Billy Canedo. "The shared paths mean pedestrians and bike riders will finally be able to cross the bridge safely instead of turning around."

The construction zone runs from Sand Dollar Lane, south of the bridge, into Brevard County.

The new bridge is expected to be shifted east of the current bridge and include two 12-foot traffic lanes, two 12-foot shared use paths, two 8-foot shoulders and two fishing piers under the bridge.

FDOT is also expected to add a crosswalk and reconfigure the north and south entrances to Sebastian Inlet State Park.

"The project is still being designed," said Canedo. "But we are emphasizing that the new bridge will be safer for bicycles to cross."

Timeline and next steps

Work is slated to begin spring 2026 and run through fall 2030, according to FDOT.

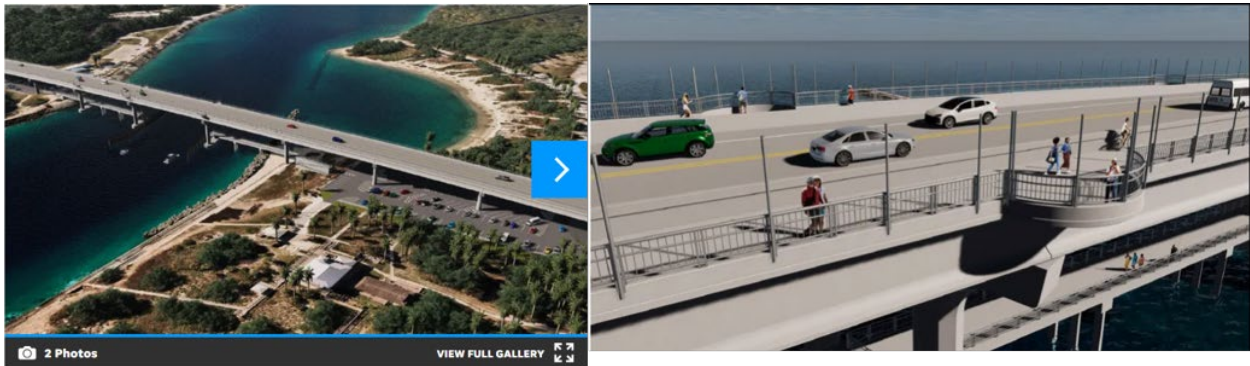

"FDOT does want to maintain two-way traffic across the inlet at all times," said Canedo.

"Every effort is going to be taken to minimize issues for commuters who use the bridge."

FDOT will hold a meeting at 5:30 p.m. Wednesday at the Sebastian Community Center, 1805 N. Central Ave.

"It's our opportunity to showcase the project design and also the expected traffic impacts of the project," said Canedo. "There will be a presentation with things like diagrams and renderings, to give people a good idea of what might happen."

"Community is the focus of everything we do here. We value the input and hope we can answer all questions and concerns."

Renderings of the potential new Sebastian Inlet Bridge

Sebastian Inlet bridge project pits bicyclists versus homeowners over proposed bike lanes

Nick Slater

Treasure Coast Newspapers

Published 8:57 a.m. ET July 18, 2024

SEBASTIAN — Bicyclists and homeowners jostled back and forth regarding safety concerns during a Florida Department of Transportation meeting Wednesday on the proposed Sebastian Inlet Bridge.

FDOT's plan includes expanding the pavement of the current 8-foot shoulder — creating a 7-foot path for bicycles. Presently, the lane is 4-feet wide.

More: Sebastian Inlet Bridge expected to cost nearly 75% more than original \$60 million price tag

The 1,548-foot James H. Pruitt Memorial Bridge was deemed structurally deficient — but safe — in 2019, following a routine inspection completed after Hurricane Dorian. The new bridge is expected to be shifted east of the current bridge and include two 12-foot traffic lanes, two 12-foot shared use paths, two 8-foot shoulders and two fishing piers under the bridge.

Bicyclists claim it will provide safety for those already cycling. Homeowners say that it will only attract more bicyclists, which will cause more accidents.

"Safety is paramount," said FDOT Project Manager Binod Basnet. "We are still in the development phase and are taking the concerns raised very seriously."

The road and bridge project begins at Sand Dollar Lane and runs north into Brevard County.

What is safer?

Twelve members of [Bike Walk Indian River County](#) attended the meeting at the Sebastian Community Center, attesting that 7-foot bike lanes provide a buffer between motorists and bicyclists that 4-foot lanes do not.

"It's nerve-wracking on that stretch of road going toward the inlet," said Bike Walk Treasurer David Cerchie. "This would create a safety zone for riders who have the right to be protected."

The biking community already has seen a fatality on that stretch.

In May 2021, 63-year-old Carl Cutler was killed while biking on the 4-foot shoulder near Sebastian Inlet State Park.

"We lost one of our own," said Bike Walk Safety and Advocacy Director Hal Lambert. "We don't want to see it happen again."

"Seven-foot bike lanes are a gamechanger."

Nearby residents claim increasing bike lane size will only attract more cyclists and cause more accidents.

"Residents are going to have real problems, especially with seeing the bicyclists," said resident William Ferrell. "The area is too narrow, and it gets hard to see, especially if someone is backed in."

"I am afraid," he said. "This just hurts the people of the neighborhood."

More: Sebastian Inlet bridge on State Road A1A is 'structurally deficient': What does that mean?

Work is not slated to start until spring 2026 with a fall 2030 completion goal. The project is estimated to cost \$103.4 million. The road resurfacing and restoration — bike lanes included — is expected to cost \$11.4 million.

"FDOT has a commitment to keeping communication open," said Basnet. "No matter what, safety is our main concern."

Fort Lauderdale, FL 33309

Delivered via e-mail: Lindsey.Koren@rsandh.com

Dear Ms. Koren:

This letter is in reference the James H. Pruitt Memorial Bridge replacement project across Sebastian Inlet in Indian River/Brevard Counties, Florida. The Coast Guard emailed a public notice outlining the proposed project to regulatory and resource agencies on February 5, 2024. In addition, the Coast Guard will post the public notice on their Navigation Center website: [Public Notices for Bridges | Navigation Center \(uscg.gov\)](#) and publish an article in the Local Notice to Mariners.

To ensure widespread notification of the proposed bridge project, please publish the project information in a daily newspaper with a circulation covering residences approximately 0.5 miles from the project site. The article may be a summary of the proposed project as shown in enclosure (1) and should be published in the selected newspaper(s) for seven consecutive days.

Please forward a copy of the newspaper publication to this office.

Please feel free to contact me at (305) 415-4767 should you have any questions.

Sincerely,

A handwritten signature in blue ink that reads "Omar Beceiro".

PUBLIC NOTICE

The Commander, Seventh Coast Guard District, has received a bridge permit application from Florida Department of Transportation requesting approval of the location and plans for the replacement of the James H. Pruitt Memorial Bridge across Sebastian Inlet in Indian River/Brevard Counties, Florida. The existing fixed bridge would be completely removed and replaced with a fixed span bridge approximately 1544 feet in length and 68 feet in width. The bridge will carry two 12-foot travel lanes, two 8-foot shoulders, and two 12-foot shared use paths. A public notice, which outlines the project and explains how to provide comments concerning the project is available at [Public Notices for Bridges | Navigation Center \(uscg.gov\)](https://uscg.gov/public-notices-for-bridges-navigation-center). The Coast Guard project officer is Mr. Omar Beceiro and may be contacted at (305) 415-6747 or by email at Omar.Beceiro@uscg.mil.

Florida – Cape Canaveral to Bethel Shoals – Sebastian Inlet: Special Bridge Notice

The Coast Guard has published Public Notice 01-24 after having received a bridge permit application from Florida Department of Transportation (FDOT). The applicant is requesting approval of the location and plans for the James H. Pruitt Memorial Bridge (Bridge No. 880005) replacement project across Sebastian Inlet, Sebastian, Indian River/Brevard Counties, FL. Public Notice 01-24 outlines the proposed bridge project and solicits comments on proposed navigation clearances, placement of a bridge protective system and other navigational safety issues. The public notice is available at: [Public Notices for Bridges | Navigation Center \(uscg.gov\)](#)

PUBLIC NOTICE

The Commander, Seventh Coast Guard District, has received a bridge permit application from Florida Department of Transportation requesting approval of the location and plans for the replacement of the James H. Pruitt Memorial Bridge across Sebastian Inlet in Indian River/Brevard Counties, Florida. The existing fixed bridge would be completely removed and replaced with a fixed span bridge approximately 1544 feet in length and 68 feet in width. The bridge will carry two 12-foot travel lanes, two 8-foot shoulders, and two 12-foot shared use paths. A public notice, which outlines the project and explains how to provide comments concerning the project is available at Public Notices for Bridges | Navigation Center (uscg.gov). The Coast Guard project officer is Mr. Omar Beceiro and may be contacted at (305) 415-6747 or by email at Omar.Beceiro@uscg.mil.

Florida Department of Transportation (FDOT), District Four Design Project

State Road (SR) A1A Over Sebastian Inlet Bridge Replacement and
Resurfacing, Restoration, and Rehabilitation (RRR) of SR A1A from Sand Dollar Lane to South of Sebastian Inlet
Hybrid Public Meeting Summary – July 17, 2024 (In-Person and Virtual)

County: Indian River and Brevard County

FPID: 445618-1-52-01 and 445618-2-52-01

ETDM: 14433

APPENDIX F

HANDOUTS

**FLORIDA DEPARTMENT OF TRANSPORTATION
INVITES YOU TO A PUBLIC MEETING
BRIDGE REPLACEMENT AND ROADWAY RESURFACING PROJECTS**
State Road (SR) A1A Over Sebastian Inlet Bridge Replacement and
Resurfacing, Restoration, and Rehabilitation (RRR) of SR A1A from
Sand Dollar Lane to South of Sebastian Inlet
Indian River County, Brevard County, Florida
Financial Project ID's: 445618-1-52-01 and 445618-2-52-01

The Florida Department of Transportation (FDOT) will conduct a public meeting for the above referenced projects within Indian River and Brevard Counties. This public meeting will be offered in-person and virtually. The public meeting will have representatives available to answer questions. Project information will be available for public viewing. Questions and comments may be submitted prior to the meeting by emailing the Project Manager. An open house will start at 5:30 p.m. followed by the in-person and virtual (hybrid) presentation at 6:30 p.m. Project information is posted at: <https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page>.

PURPOSE OF PROJECTS: The purpose of the SR A1A over Sebastian Inlet Bridge replacement project is to address the structural and functional deficiencies of the existing bridge and address the gap in system linkage for bicyclists and pedestrians. The project also improves drainage system and raises vertical clearance to address resiliency, and adds shoulders and shared use paths to enhance safety. The purpose of RRR of SR A1A from Sand Dollar Lane to south of the Sebastian Inlet is to extend service life of the roadway and enhance safety.

PROPOSED IMPROVEMENTS

New Bridge alignment that is shifted to the east of the existing bridge with:

- Two 12-foot travel lanes, two 8-foot shoulders, and two 12-foot shared use paths
- Two fishing pier/observation walks, one under the bridge from the south shore and one under the bridge from the north shore

South of the bridge, improvements include:

- Addition of a crosswalk crossing SR A1A at the State Park's south entrance
- Reconfiguration of the State Park's south entrance including the addition of a right-turn lane out of the State Park
- A southbound acceleration lane from the State Park's south entrance
- Lengthened storage of the southbound right-turn lane into the State Park
- Continuation of the shared use path on the west side of the bridge and roadway, and addition of a shared use path on the east side of the bridge and roadway

North of the bridge, the improvements include:

- Reconfiguration of the State Park's north entrance including the addition of a right-turn lane out of the State Park
- Lengthened storage of the southbound right-turn lane into the State Park
- Continuation of the shared use path on the west side of the bridge and roadway, and addition of a shared use path on the east side of the bridge and roadway terminating at the State Park's north entrance
- Addition of a crosswalk crossing SR A1A at the State Park's north entrance
- Reconfiguration of the Sebastian Inlet District Access Road

Resurfacing, Restoration, and Rehabilitation:

- Resurface pavement within the project limits
- Widen shoulders to provide 7-foot paved shoulders

CONSTRUCTION IMPACTS:

- Bridge construction work will be done in phases to avoid detour and bridge closure per PD&E study commitment.
- Two way traffic will be maintained across the inlet at all times.
- Temporary lane closures will be required during non-peak hours.

CONSTRUCTION INFORMATION:

- Anticipated Construction Start: Spring 2026
- Anticipated Construction End: Fall 2030
- Estimated Construction Cost: \$103.4 Million

JOIN US AT THE PUBLIC MEETING

Wednesday, July 17, 2024, Open House at 5:30 p.m. followed by an in-person and virtual (hybrid) presentation at 6:30 p.m.

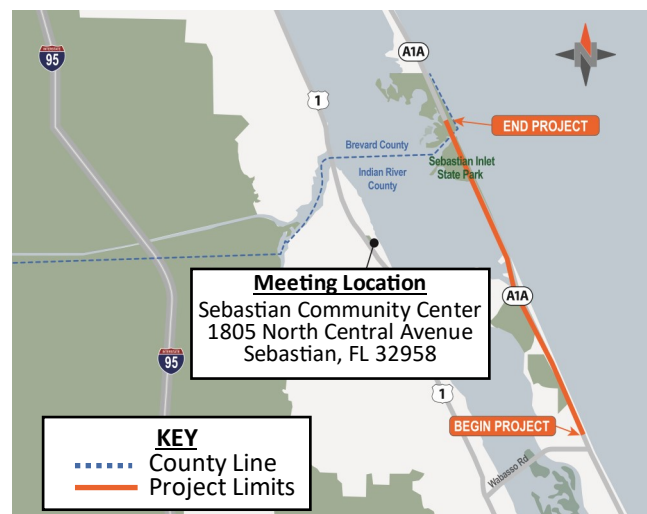

**Sebastian Community Center
1805 North Central Avenue
Sebastian, Florida 32958**

To participate in the **virtual public meeting** from your computer, tablet, or smartphone please register using the following link or QR code:
<https://register.gotowebinar.com/register/478842150230794592>.

Participants can also dial in using their phone:
Dial in number: **+1 (213) 929-4212**
Access code: **892-928-399**.

If you are unable to attend the meeting, a recording of it will be posted at:
<https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page>.

FLORIDA DEPARTMENT OF TRANSPORTATION MISSION STATEMENT

The Department will provide a safe statewide transportation system that promotes the efficient movement of people and goods, supports the state's economic competitiveness, prioritizes Florida's environment and natural resources, and preserves the quality of life and connectedness of the state's communities.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require special accommodations under the Americans with Disabilities Act (ADA) or persons who require translation services (free of charge) should contact Binod Basnet, P.E., Project Manager, at least seven (7) days prior to the Public Meeting.

ROAD DESIGN IN PROGRESS

BRIDGE REPLACEMENT AND ROADWAY RESURFACING PROJECTS

SR A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration, and Rehabilitation of SR A1A from Sand Dollar Lane to South of Sebastian Inlet

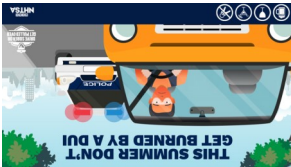

Drive Sober or Get Pulled Over

National Highway Traffic Safety Administration Campaign, August 16-September 4

Community feedback is at the core of all we do. FDOT works with the public to balance their community vision with the community's transportation needs. This is routine on all our projects to ensure Florida's infrastructure is safe, resilient, and efficient for many years into the future.

APPENDIX G

PUBLIC COMMENTS & RESPONSE

Wednesday July 17, 2024 (Hybrid Meeting)

Emailed comments received by the project team included:

Comment	<p>Concerning the Sebastian Inlet Bridge replacement; can you please reopen the catwalks under the bridge for fishing? Whatever work needed to make it safe for fishing should be a quick fix. Many of us have fished the catwalks for many many years. This would reduce the pressure of the crowded pier. It is not fair to ask us to wait another 6+ years before these open again. Please consider. Will you please consider replacing the fishing piers now/first and not wait for the bridge replacement? Maybe your design won't allow for that but worth consideration. Even if you could temporarily open the north side until the bridge work gets underway it would be greatly appreciated and give fishermen a little elbow room without climbing on rocks risking injury.</p>
Response	<p>A special inspection was completed in February 2023 to assess the current condition of both the North and South Observation decks. The Certified Bridge Inspection team found heavy corrosion with some areas of section loss on the deck material of both piers. Additionally, there were several sections of railing on the North Observation deck that were missing which caused the Department to permanently close the North pier in March 2023. Upon re-inspection by the Department of the South Pier in May 2023, it was also determined that several sections of railing were missing, unsecure and not functioning. The Department closed the South pier in May 2023. Unfortunately, there is no quick fix to address the significant deficiencies, so the Fishing Piers will remain closed until their future replacement.</p> <p>The Sebastian Inlet Bridge replacement project is scheduled to begin in the Spring of 2026, with construction lasting until sometime in 2030. Included in the project is the replacement of both the North and South Fishing Piers.</p>
Comment	<p>Will you make a new bridge 65 feet clearance or higher for sail boats?</p>
Response	<p>Thank you for your interest in SR-A1A over Sebastian Inlet Bridge Replacement Project. The project team is not aware of any current plans to build a new roadway or bridge from barrier islands in this area to the mainland. Your input has been forwarded to the District Planning office for review/consideration. Should you have any questions regarding the SR-A1A over Sebastian Inlet Bridge Replacement Project, please do not hesitate to contact us. Please continue to stay involved by visiting the project website at https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page where you may view project information, provide comments, and register for future public meetings.</p>
Comment	<p>Nice design, but what height are you looking at for ingress/egress of the inlet. Current Bridge is 35ft, most Intracoastal bridges exceed 50ft for sailboat traffic. Do let me know.....the closest unmitigated inlet that any masted vessels of size can come in, are at Canaveral or Ft Pierce. This is 10+ hours by sail or motoring at 6-8 knots from inlet to inlet to leave Indian/Banana River estuaries. In a common opinion, there should be consideration for safe harbor for vessels in need of safe harbor or distress. Just a thought</p>
Response	<p>Thank you for reaching out. Yes, you are correct, the vertical clearance of the proposed bridge is at 51 feet. Long construction duration is due to the phase construction of the new bridge to allow the existing bridge to continue to operate during construction. Please continue to stay involved by visiting the project website at https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page where you may view project information, provide comments, and register for the public meeting.</p>
Comment	<p>As our North Beach Neighborhood Association has made clear in former meetings and by mail: The bicycle bridge system is massive and overdone. Our very pristine rural preservation neighborhood does not need wider bike lanes that will impact river drainage and change the character of the environment. Environmental Request and Impacts: You need to study the impacts to historic flyway ponds including the system that survivors of the 1715 Treasure Fleet used for survival and riverine swale drainage.</p>
Response	<p>We would like to inform you that this project involves the addition of pavement on the existing shoulders. We do not foresee any impacts to the flyway ponds, which are situated outside the Department's right-of-way. Thank you for your understanding.</p>
Comment	<p>I provided a written comment during the meeting last evening. I am a recreational angler and also received my doctorate in fisheries biology - biological oceanography from the University of Miami's Rosenstiel School of Marine and Atmospheric Science in Miami, FL. My concerns are:</p> <ol style="list-style-type: none">1) That the new design fishing walkway will be six feet higher than the existing catwalk. I believe that this will cause more breakage to fishing line that will result in fish with hooks with line attached to the fish that will injure or cause increased mortality to the fish. Also the release of the fish will be impacted by the additional height and impact to the fish from the additional height. Also when fishing line breaks the terminal tackle, i.e. hooks and toxic leaded weights will enter the water at an increase rate. Also the increased loss of hooks could cause increased chances for injury to bathers in the tidal pool, along the inlet and nearby beaches and the hooks will move with the tidal currents.2) The wider fender system will result in a decreased length of the catwalk over the water and loss of access to the deeper sections of the inlet.3) Regarding the bicycle lane, I think that some sort of barrier should be installed to keep automobiles from meandering into the bicycle lane. Perhaps a series of vertical plastic pole barriers like those used elsewhere throughout the state of Florida.4) As I am local Melbourne Beach resident and property owner and am very happy about the overall design and construction plans that will have a minimum negative effect to us, while providing a substantial improvement in the bridge.

Response	Thank you for your comment related to the SR-A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration and Rehabilitation of SR-A1A from Sand Dollar Lane to south of Sebastian Inlet. Please continue to stay involved by visiting the project website at https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page where you may view project information, provide comments, and register for future public meetings.
Comment	I hope this email finds you well. In reading the topics for today's webinar I noticed that it mentions 7 foot bike lanes. At some point during the presentation can you elaborate on this? Will they be 7 foot buffered bike lanes? Will they include AVTs? If so, which of the 6 designs? As you may remember a group of volunteers from the Vero Cycling Club and Bike Walk Indian River County traveled to the test area near Gainsville, (3 1/2 hours away) and spent considerable time evaluating the effectiveness of each design. We unanimously chose design 1, tapered. Our test included the feel in the automobile as well as the feel on the bicycle. Thus, we strongly advocate for Design 1, tapered. Since I was one of the test riders I can assure you that this gives us the best opportunity to achieve Target Zero for Florida.
Response	The shoulder will include seven feet of pavement to serve as a bicycle facility. To enhance safety, the travel lane and the shoulder will be separated by two white stripes. Additionally, the Department is currently assessing the most suitable AVT application for this project.
Comment	I attended the very informative meeting in Sebastian last Wednesday and spoke in favor of 7' buffered bike lanes. Again, thank you for including them in the design, along with AVT's, which will make the road much safer for all users, especially for people riding bikes along this Scenic Byway. It's a shame that not all people see it that way, but like they say – you can't please everyone! During the meeting fellow BWIRC board member Danny Jaye phoned in and said he and a couple of others rode the AVT test strips near Putnam Hall, and you said that you were still evaluating the type to be used. I made that trip with Danny, along with Dave Nicholson, who was the Safety Director of Vero Cycle at the time. I wrote a report of our findings that I would like to share with you (see attached). I have also attached the FDOT drawings for the test strips we referred to on our ride and I referred to in my report for your convenience.
Response	If you would like further input as to the type of AVT's to install, may I suggest you install some AVT test strips along A1A at the location of this project. I would be happy to help collect feedback from cyclists that ride that stretch of A1A frequently. Thanks for your consideration and all you do to make the roads safer for everyone. Thank you for sending the drawings. The Department is evaluating the best AVT application for this project.
Comment	I would like to know if there is a drawing of the project to see how the lane structure will change on A1A and Coco Plum Lane. Thank you.
Response	Thank you for your comment related to the SR A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration and Rehabilitation of SR A1A from Sand Dollar Lane to south of Sebastian Inlet. You asked: I would like to know if there is a drawing of the project to see how the lane structure will change on A1A and Coco Plum Lane. Thank you. The project maintains the lanes the same as existing. The project will mill and resurface three travel lanes: one northbound, one southbound, and a two-way left turn lane. A graphic with the proposed improvements for SR-A1A at Coco Plum Lane is shown below. Should you have any questions regarding this project, please do not hesitate to contact us. Please continue to stay involved by visiting the project website at https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page where you may view project information, provide comments, and register for future public meetings.

Verbal comments and questions received by the project team included:

Comment	Commenter is a fisherman and had a question regarding northside closures
Response	The northside access will be maintained for beach parking at all times, whether we have to move it temporarily or not. Pedestrian access will have delineation of walkways to the north jetty.
Comment	Commenter commented on bicycle lanes for safety
Response	The roadway has a 12 foot travel lane and 8 foot shoulder. We are paving 7 foot and 1 foot is going to be a paved shoulder for bicycle facilities.
Comment	Commenter had some concerns that the drainage from the bridge will impact the neighboring property owners. They put in a swale so the water would not run into the water. This has worked well but the swale will go away during the project widening. Concerned about the pines getting torn up and the rock beneath getting torn up. we do not need such large bike lanes. Feels the bridge is going to be overdone. Property owners will lose too much of their land and will be difficult for owners to get in and out of their property. This project does not fit our community.
Response	Safety is paramount on what we (FDOT) do. We are required to have an 8 foot shoulder, with 7 foot paved for the roadway footprint, which will not be going out of for this project. Regarding the drainage, we have your address and contact and will have our team look into your concerns. The water is currently flowing into the swale, and we will look into other concerns you have to understand exact drainage concerns. The treatment of stormwater and impacts to the environment by vehicles is considered. An important thing is it is an 8 foot shoulder is stabilizing and compacted which has a more efficient run off than current paved condition. It also will have a similar cross slope.
Comment	Commenter asked what we are doing about the stormwater during the RRR portion of the project.

Response	The overall footprint of the roadway including the travel lane and shoulder does not increase. The shoulder right now whether paved or unpaved is stabilized, meaning if the water falls on grass or pavement, it will flow and will not percolate. The intent is not to make it worse than the existing condition. We want to be at or have a level of improvement from the existing conditions. If there are areas of flooding we need to review, please bring them to our attention so that we can handle it.
Comment	Commenter is a bicycler and had a concern about the buffer zone between bicyclists and vehicles. 7-foot buffer lanes are essential, 40% wider. How will you use the AVT's in this design.
Response	We are planning to include the AVT's in the resurfacing project. We will continue to coordinate with the public during the design phase.
Comment	Commenter was excited about this project. She was born and raised in the area and stated bikes are used in the community and wants a buffer to be considered for the 7-foot bike path.
Response	Thank you for your comment, we really appreciate it.
Comment	Commenter stated AVT opposition (rumble strips) The new design is quiet and wanted to clarify. Safety should be embraced. Target Zero
Response	Thank you for your comment, we are considering the sinusoidal AVT as part of this project but we are in the design phase still but we will let you know as we go further into this project.
Comment	Commenter stated truck traffic will be less, why is that projected that way.
Response	We showed the average annual daily traffic as counted recently and then projected it to the year 2049 which is a 20-year projection. In general, truck traffic may or may not be a true percentage forever and an increase in passenger vehicles is more likely than truck traffic. It may represent the same amount of trucks but the percentage came down.
Comment	Commenter is a professional fisherman and asked how do you answer our loss of income due to the inlet closing?
Response	This project is still in the design phase but we are getting the permits from the Coast Guard so they will permit everything we do in terms of navigation and conditions. Also, we are working with the Sebastian Inlet District and they will participate in the local notice to mariners as well as posting on their website. There will be limited times for safety purposes when the navigational channel may have to be closed, but you will be notified of that ahead of time. There will be some inconvenience to the public, but we are doing everything we can to keep that minimized.
Comment	Commenter asked about fisherman going in and out of the inlet regarding closures.
Response	This project is still in the design phase but we are getting the permits from the Coast Guard so they will permit everything we do in terms of navigation and conditions. Also, we are working with the Sebastian Inlet District and they will participate in the local notice to mariners as well as posting on their website. There will be limited times for safety purposes when the navigational channel may have to be closed, but you will be notified of that ahead of time. There will be some inconvenience to the public, but we are doing everything we can to keep that minimized.
Comment	Commenter stated it's a lot of money to be used for the bridge when there isn't a lot of pedestrians/bikers and now you would be welcoming more to come to the area when residents already have an issue leaving their homes. What we really need is sewer systems and if we are going to spend that money it should be on septic tanks.
Response	Thank you for your comment, we really appreciate it.
Comment	Commenter asked if the citizens rejected the bridge, do those tax dollars get moved to another area?
Response	FDOT has work programs for specific projects so if that money goes away, then there are other projects in line that could use that funding in a different location.
Comment	Commenter asked if the fenders that were designed for this bridge, would they sustain a hit from a boat or ship coming through the inlet.
Response	Bridges in the US are designed for vessel collision based on ASHTO requirements. At Sebastian, it's not the fender that is designed for collision, it's the piers that handle ship impact. This bridge is unique because of the current so the loads are higher than we would expect. That's why you will see the piers are pretty large. They are called a Bullnose Shape. They are made to redirect a shift or help absorb some of the impact from a blunt object.
Comment	Commenter stated she rides her bike daily and has been knocked over many times due to A1A is a narrow road, why not put wider bike paths on US 1 where there is more land for safety and growth opportunity.
Response	We start with a Long Range Transportation Plan and that gets prioritized by the MPO. After those projects are determined, that's what FDOT prioritizes first and that's where the money is designated for.
Comment	Commenter stated she works in Sebastian Inlet and the road is full of bike/pedestrians and strollers with families.
Response	Thank you for your comment, we really appreciate it.
Comment	Commenter stated A1A is part of natural highways (byways) 1 of 2 in the state of Florida.
Response	Thank you for your comment, we really appreciate it.
Comment	Commenter stated the bridge is falling apart and needs to be redone. She stated the South jetty is dangerous and needs to be replaced soon. She also asked how long the South jetty would be closed
Response	Access to the South jetty will not be accessible for most of the construction of the bridge. If people want to get to the South jetty, they could go the park to the south and walk up the beach. There is still access to the North jetty.
Comment	Commenter reiterated that yes, we need to make improvements to the bridge and of course, people want to bike on the national by-ways and to consider the greater good.
Response	Thank you for your comment, we really appreciate it.

Virtual written comments and questions received by the project team included:

Comment	That parking lot is generally referred to as the Day Use Area.
Response	Thank you for that clarification. I really appreciate it.
Comment	On the RRR portion of the project, Why 7' shoulders and not 8'.
Response	The roadway has 8 foot shoulders, but 7 feet of it will be paved. Currently only 4 feet is paved. 8 foot shoulders are required for a bridge of this length and volume of traffic
Comment	Have you looked into using the old bridge as a reef offshore in the ocean?
Response	We have been coordinating with Indian River County's artificial reef program and with the FDEP as well. As the design progresses, we will learn more about that.
Comment	Please explain why not pave the extra foot to make 8' paved shoulders. The cost should be a small percentage compared to the overall project. It can help with overcorrections for drivers. I believe it's a safety issue. Thank you.
Response	We will get back to you on this but we are planning to pave 7 feet out of 8 feet because the shoulder width is wider than the shoulder pavement. This is a maintenance consideration and with regard to the shoulders and asphalt, we don't carry asphalt to the limit of the shoulder because of maintenance purposes. If it was, there would be issues with it breaking off.
Comment	Please clarify for me, does the FDOT design manual for the projected ADT support a 4' paved shoulder or a 8' ft paved shoulder?
Response	The standards for the shoulder design are not based on AADT, they are based on the number of lanes in the facility and whether or not it is or isn't a shoulder gutter. We are keeping the existing full shoulders which were constructed eight feet wide and we are increasing the shoulder pavement by 3 feet.
Comment	The increase of a 6 foot fishing pier is too high. There will likely be an increase in injury to and loss of fish, as well as loss of fishing gear, which includes lead weights.
Response	Thank you for your comment. The Department would like to share that the fishing pier beams on this project will be constructed at a minimum vertical clearance height of 15 feet 1 inch above mean high water. This elevation is designed to enhance resilience against wave action during storms and wave crests. It's worth noting that fishing piers in Florida can vary significantly across the state, with some reaching heights of 20 to 30 feet, depending on local conditions and design specifications.

Written comments and questions received by the project team included:

Comment	Please include a buffer on the shoulder so that cyclists are safer on the road. Thank you.
Response	The travel lane and the shoulder will be buffered by providing two white stripes.
Comment	Beautiful presentation. Thank you FDOT
Response	Thank you for your comment related to the SR-A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration and Rehabilitation of SR-A1A from Sand Dollar Lane to south of Sebastian Inlet. Please continue to stay involved by visiting the project website at https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page where you may view project information, provide comments, and register for future public meetings.
Comment	I admire that you are taking into consideration sea turtles and shoreline protection. I agree with the one gentlemen, we need the swell drainage. Not so much 8 FT bike lane on up. I think 4 foot is fine for bikers (I'm a avid biker). Please put up "bumper" guides on the road, so drivers can't hit bikers. Need running strips (rumble strips). Where is all the money coming from for this project?
Response	The design team is currently assessing the existing drainage conditions in the area between the roadway and the sidewalk, which is a narrow strip. In the proposed plan, we will incorporate a 7-foot wide shoulder pavement, marked by two white stripes to delineate the travel lane from the shoulder. Additionally, the Department is evaluating the most effective application of rumble strips for this project. Currently, the project is federally funded.
Comment	A1A is such a narrow road-why not put wider bike paths on US 1 where there is much more land for safety - no bikers want to have their way. They aren't interested in safety - they want a scenic highway, that is not safe. How much are you elevating the jetty or lengthening them? How many parking spaces in addition to what is already on the south jetty side of the park?
Response	The proposed shoulder pavement width of seven feet, and a buffer with two white stripes is most likely safer than a narrower shoulder with one white stripe. Jetty: this project will not modify the existing south jetty or north jetty at Sebastian Inlet. Parking: The existing parking in the south lot provides 74 parking spots within FDOT right-of-way. The proposed parking will provide 74 parking spots.
Comment	Appreciate the public information and input. Very professionally presented. And, nice job informing people by mail.
Response	Thank you for your comment related to the SR-A1A Over Sebastian Inlet Bridge Replacement and Resurfacing, Restoration and Rehabilitation of SR-A1A from Sand Dollar Lane to south of Sebastian Inlet. Please continue to stay involved by visiting the project website at https://www.fdot.gov/projects/sebastian-inlet-bridge/home-page where you may view project information, provide comments, and register for future public meetings.

Comments and questions received by USCG

Comment We have a business barely 2 mile north of Sebastian Inlet and we received this weekend notice of the construction of the bridge. We are dependent on the entrance from the south through the Vero Beach corridor to come in twice a week to service our place from Miami. We wanted to know when this proposed construction is starting, and if you have an idea on how long (approximately), this construction will take?. We really appreciate your help with this matter so we can assess the impact on our business and what to expect. Thank you for your help in advance.

Response The project (construction and demolition) is estimated to be completed by late 2030. Preparation and pier construction is expected to begin in the spring/summer of 2026 followed by the first phase of construction, which is expected to be completed in late 2027. The existing bridge will remain in place and open to traffic during the first phase of construction. Upon completion of the first phase, traffic will be shifted to the new section of the bridge and demolition of the existing bridge will commence. Traffic phasing will keep SR A1A open to traffic during construction.

Comment I am an active Real estate agent that works in the area of the subject project ..
I often traverse the bridge for my daily work activities going from Melbourne Beach to Vero Beach..
I just have two primary questions at the moment ..
- what is the projected timeline for this work to be done ?
&
- will the work be done in such a way that there is still a way to utilize this State Road to go between Vero Beach and Melbourne Beach for commerce and potential evacuation of the barrier islands, should that be needed ?
Thank you for the update. Please see responses below:
What is the projected timeline for this work to be done?
Overall construction and demolition is estimated to take place within 5 years. Preparation and pier construction is anticipated to begin in the spring/summer of 2026. The superstructure construction for the first phase will follow.

Response The completion of the first phase of construction is anticipated to be completed in late 2027. Upon completion of the first phase, traffic will be shifted to the new portion of the bridge and the demolition of the existing bridge will commence. The completion of the project is anticipated in late 2030.
Will the work be done in such a way that there is still a way to utilize this State Road to go between Vero Beach and Melbourne Beach for commerce and potential evacuation of the barrier islands, should that be needed?
As noted above, traffic phasing will keep SR A1A open to traffic.
