Project Name:	SR 9/I-95 Interchanges from SW 10 th Street to Hillsboro Boulevard

Project Review Date:	1/24/2018

A DOA IS REQUIRED FOR EACH SECTION 4(f) PROPERTY AND PROPOSED ALTERNATIVE.

Project Description including Section 4(f) Specific Information:

Project Description including Section 4(f) Specific Information:

This project proposes improvements to the I-95 partial cloverleaf interchanges at SW 10th Street and Hillsboro Boulevard and along I-95 from just south of the SW 10th Street interchange to just north of the Hillsboro Boulevard interchange (a distance of approximately 1.8 miles not including the length of the ramps). The project also proposes improvements along both SW 10th Street and Hillsboro Boulevard in the vicinity of I-95. The logical termini along SW 10th Street extends from just west of Military Trail east to SW Natura Boulevard, a distance of approximately 0.95 miles. Along Hillsboro Boulevard the improvements extend for approximately 0.97 miles from Goolsby Boulevard east to SW Natura Boulevard.

There are five resources that occur near or alongside the proposed project area, specifically near the NW 10th Street Interchange. Four of the five resources appear to be Section 4(f) resources, and the fifth (the teen center) does not qualify as a resource. No Section 4(f) use is proposed to all five areas because no right of way will be required from these resources. All are located a distance from the project alternatives; access to all properties will be maintained during construction. See enclosed maps showing each resource in relationship to the proposed project.

This project will provide two express lanes in each direction on I-95 mainline between SW 10th Street and Hillsboro Boulevard and will evaluate potential modifications to the existing merge and diverge ramp areas at the SW 10th Street and Hillsboro Boulevard interchanges. Alternatives will also be developed at SW 10th Street to provide direct connect ramps to the I-95 Express lanes. Replacement of the existing SW 10th Street bridge over I-95, and the provision of a grade separation at SW 10th Street and South Military Trail; and at the existing at-grade CSX Railroad crossing at Hillsboro Boulevard located 1900 feet west of the existing interchange will also be considered.

Who/what organization owns/manages the property?

The City of Deerfield Beach owns and manages the property.

What is the primary function (activities, features and attributes) within the meaning of Section 4(f) of the facility or property?

The primary function is for recreation.

Please describe the location of available appurtenances and facilities (e.g. tennis courts, pools, shelter houses, sports fields, beaches) on the property:

The following is a listing of facilities on the property:

Walking path which comprises a concrete pathway approximately 2,025 Linear Feet.

What is the function of/or the available activities on the property?

walking, hiking, bicycling.

Access and Usage of the property by the Public:

The City has no information on usage. Access to this facility is by pedestrians through SW 10th Street.

Relationship to other similarly used lands/facilities in the vicinity:

This pathway is similar to the pathway within Tivoli Sand Preserve and Mayo Howard Park.

Are there any unusual characteristics of the property that either limit or enhance the value of the resource? If so please explain:

None

Describe project activities that could potentially "use" the resource:

None

If applicable, give a general description of the history of the Historic Site, Archaeological Site or Historic District:

A DOA IS REQUIRED FOR EACH SECTION 4(f) PROPERTY AND PROPOSED ALTERNATIVE.

Project Description including Section 4(f) Specific Information:

Project Description including Section 4(f) Specific Information:

This project proposes improvements to the I-95 partial cloverleaf interchanges at SW 10th Street and Hillsboro Boulevard and along I-95 from just south of the SW 10th Street interchange to just north of the Hillsboro Boulevard interchange (a distance of approximately 1.8 miles not including the length of the ramps). The project also proposes improvements along both SW 10th Street and Hillsboro Boulevard in the vicinity of I-95. The logical termini along SW 10th Street extends from just west of Military Trail east to SW Natura Boulevard, a distance of approximately 0.95 miles. Along Hillsboro Boulevard the improvements extend for approximately 0.97 miles from Goolsby Boulevard east to SW Natura Boulevard.

There are five resources that occur near or alongside the proposed project area, specifically near the NW 10th Street Interchange. Four of the five resources appear to be Section 4(f) resources, and the fifth (the teen center) does not qualify as a resource. No Section 4(f) use is proposed to all five areas because no right of way will be required from these resources. All are located a distance from the project alternatives; access to all properties will be maintained during construction. See enclosed maps showing each resource in relationship to the proposed project.

This project will provide two express lanes in each direction on I-95 mainline between SW 10th Street and Hillsboro Boulevard and will evaluate potential modifications to the existing merge and diverge ramp areas at the SW 10th Street and Hillsboro Boulevard interchanges. Alternatives will also be developed at SW 10th Street to provide direct connect ramps to the I-95 Express lanes. Replacement of the existing SW 10th Street bridge over I-95, and the provision of a grade separation at SW 10th Street and South Military Trail; and at the existing at-grade CSX Railroad crossing at Hillsboro Boulevard located 1900 feet west of the existing interchange will also be considered.

County: Broward

Dear Mr. Sonnett:

Regarding your interest in the following City of Deerfield Beach Parks: Mayo Howard Park (1131 FAU Research Park Boulevard); Tivoli Sand Pine Preserve (501 SW 10th Street); and Reverend Willie James Ford Linear Park (500 SW 10th Street), Teen Center (1345FAU Research Park Boulevard) and Oveta McKeithen Recreational Complex (445 SW 2nd Street) as it relates to the above referenced Project Development and Environment (PD&E) Study, I submit the following information for use in the Section 4(f) Determination of Applicability. Mayo Howard Park, Tivoli Sand Pine Preserve, Teen Center and Oveta McKeithen Recreational Complex are publicly owned parks available to the public for recreational use. Similarly, the Reverend Willie James Linear Park is a publicly owned trail also open to the public for recreational use.

According to the FDOT PD&E Manual, Part 2 Chapter 7 a Statement of Significance is necessary from the Official with Jurisdiction over Section 4(f) resources. The manual states that "*Significance means that in comparing the availability and function of the recreation, park, or wildlife and waterfowl refuge area with the recreational, park, and refuge objectives of that community, the land in question plays an important role in meeting those objectives*". I am the Official with Jurisdiction and attest that the above referenced parks play an important role in meeting the park objectives of the surrounding community and appears to meet the requirement of significant Section 4(f) resources.
