Committee Work Plan

		Month 1	Month 2	Month 3	Month 4	Month 5	Month 6	Month 7	Month 8	Month 9	Month 10
	Establish Stakeholders and Requirements	▓									
	Conduct Literature Review		▓	▓	▓	▓					
	Outline the methodology for feedback from the Committee					▓	▓	▓	🔺		
	Review and provide feedback on draft methodology									▓	▓ ⭐
🔺	Deliver draft methodology to the Committee for review										
⭐	Deliver the methodology fully vetted and accepted by the Committee										

Case Study Feedback
Terms Used

- **Screening process** for an **LRTP**

- Short-term prediction/evaluation before entering projects into a **5-year program**

- Understanding **available capacity** to support development

- Preliminary **prioritization**

- **Standardization** of processes across agencies

Case Study Feedback (continued…)
Terms Used

- Land use amendments, permit application and related impact analyses

- Need for additional roadway characteristics in demand models – **post processing tools**

- Need to validate models to Origin-destination data

- **Prioritize** projects based on when they are needed and how soon their benefits will be realized

Do we have the tools?

- Not available in most cases
- Available tools will need heavy processing in some cases

Stakeholders

- FDOT Districts
- MPOs
- Port/Airport Authorities
- Counties
- Sports Venues
- Municipalities
- Large Land Developers

Next Step- Literature Review

- National, statewide, regional and local scan of best practices, with a focus on:
  - ✓ Screening for LRTPs and the TIPs
  - ✓ Project prioritization
  - ✓ <u>High-level</u> estimate of capacity for development
  - ✓ Standardization of processes
  - ✓ Post-processing demand model results to include additional performance measures
  - ✓ Data
  - ✓ Short-term predictive tools
