

Strategic Intermodal System Funding Strategy

# Second Five Year Plan

## MULTI-MODAL

**FY 2026/2027 through  
FY 2030/2031**

Capacity Projects on the Strategic Intermodal System  
State of Florida Department of Transportation

*PAGE INTENTIONALLY LEFT BLANK*

The FDOT Systems Planning Office produces a document set known as the SIS Funding Strategy, which includes three inter-related sequential documents that identify potential Strategic Intermodal System (SIS) Capacity Improvement projects in various stages of development. All of the projects identified within the SIS Funding Strategy are considered financially feasible for implementation within the next 25 year period. The Florida Legislature established the SIS in 2003 to enhance Florida's economic prosperity and competitiveness. The system encompasses transportation facilities of statewide and interregional significance, and is focused on the efficient movement of passengers and freight. The combined document set, as illustrated below, illustrates projects that are funded (Year 1), programmed for proposed funding (Years 2 through 5), planned to be funded (Years 6 through 10), and considered financially feasible based on projected State revenues (Years 11 through 25).

## First Five Year Plan\*

The First Five Plan illustrates projects on the SIS that are funded by the legislature in the Work Program (Year 1) and projects that are programmed for proposed funding in the next 2 to 5 years.

**Update Cycle:** Adopted annually by the Legislature, effective July 1st each year with the start of the new fiscal year.

*\*SIS Capacity Projects included in the Adopted Five-Year Work Program*

## Second Five Year Plan

The Second Five Year Plan illustrates projects that are planned to be funded in the five years (Years 6 through 10) beyond the Adopted Work Program, excluding Turnpike. Projects in this plan could move forward into the First Five Year Plan as funds become available.

**Update Cycle:** Typically updated annually, usually in late summer following the First Five Plan update.

## Cost Feasible Plan

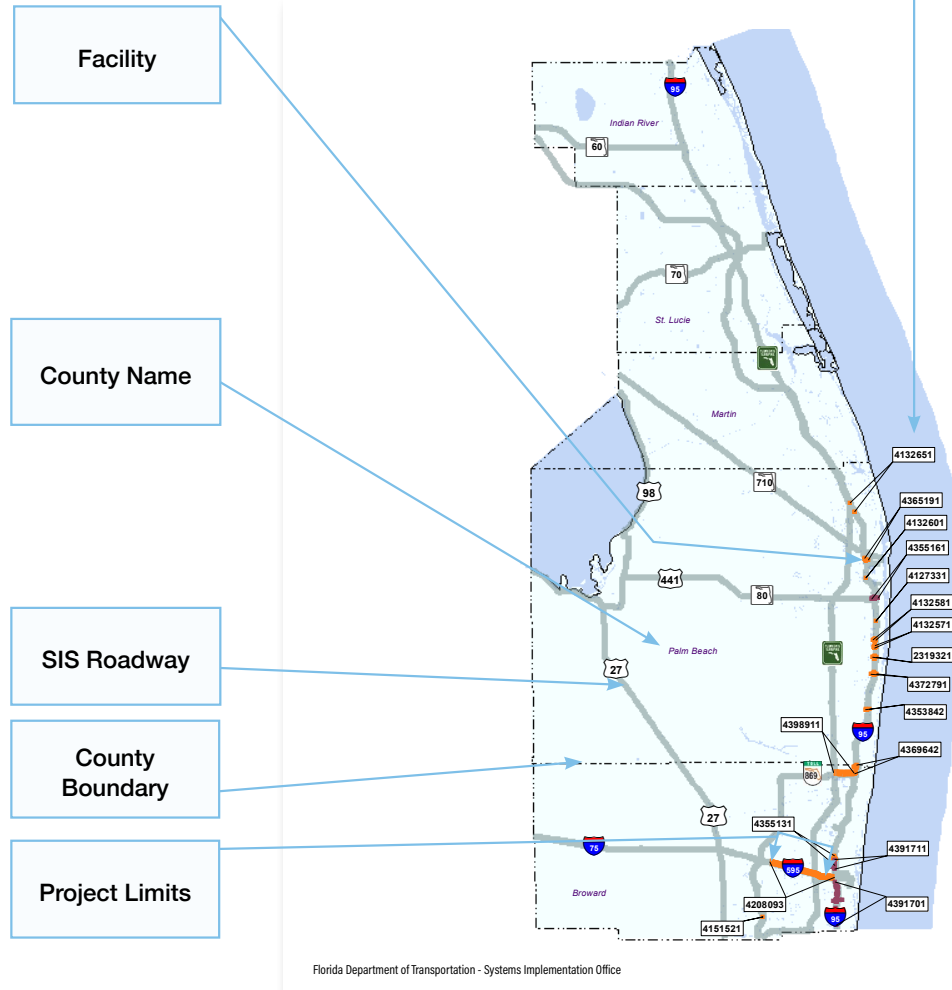

The Cost Feasible Plan illustrates projects on the SIS that are considered financially feasible during the last fifteen years (years 11 to 25) of the State's Long Range Plan, based on current revenue forecasts. Projects in this plan could move forward into the Second Five as funds become available or backwards into the Needs Plan if revenues fall short of projections.

**Update Cycle:** Typically updated every 2 to 3 years as new revenue forecasts become available.

# Map Key:

Map ID number which corresponds to more detailed project information in the facing table above

Project Phases

In terms of typical project phase sequence as listed in the legend above (e.g. construction is the highest phase)

Some projects are funded in other phase sequences

**Project Development and Environment** – Study that satisfies the National Environmental Policy Act (NEPA) process resulting in a location design concept for an engineering and environmentally feasible alternative to meet the need determined in the planning phase. Defined by Phase Group 2 (PD&E).

**Preliminary Engineering** – Program to further develop and analyze location and design engineering phases of highway and bridge construction projects. Defined by Phase Group 3 (PE) and Phase Group C (Environmental).

**Right-Of-Way** – The phase of acquiring land to support the construction projects. Defined by Phase Group 4 (ROW).

**Construction** – Phase consists of the physical work performed to build or assemble the infrastructure. Defined by Phase Group 5 (Construction) and Phase Group 6 (Construction Support).

All Values in Thousands of "As Programmed" Dollars

PD&E - Project Development & Environmental;  
 PE - Preliminary Engineering;  
 ENV - Environmental Mitigation;

Project highlighted with **dark gray** background is no longer designated as SIS.

ROW - Right-Of-Way;  
 CON - Construction & Support (may Include Grants);  
 TOTAL LOCAL FUNDS include all funds that start with LF fund code.

# District 7

Second Five Years

## STRATEGIC INTERMODAL SYSTEM

### Capacity Improvement Projects

#### Adopted Work Program

FY 2026/2027 through FY 2030/2031  
(as of July 1, 2021)

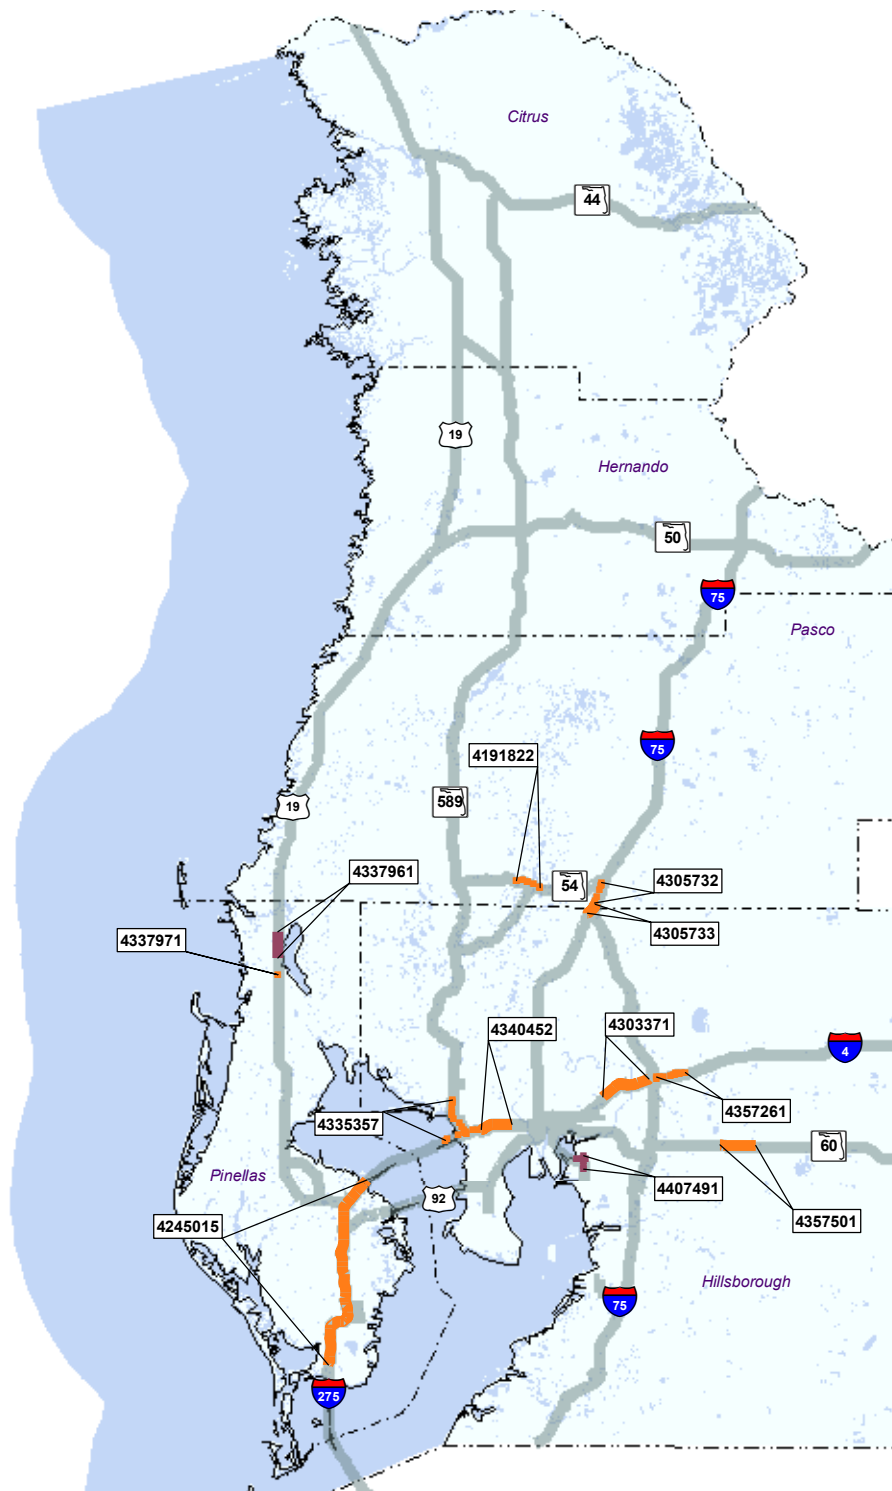

#### Legend

##### Project Phase

- Project Development & Environment
- Environmental Mitigation
- Preliminary Engineering
- Right-Of-Way
- Construction

#### Notes

Projects color coded by highest project phase.  
Some projects may overlap on map.  
Project costs are subject to change.
