

Access Management Guidebook Training 2020

Access Management
GUIDEBOOK

NOVEMBER 2019

SIO
SYSTEMS IMPLEMENTATION OFFICE

Information
Credits: 2.5 hours

Learning Curve Format

- This training contains 4 modules.
- Each module includes
 - Video
 - Quiz
 - PDF Presentation
- How to complete each module:
 - Click on *Start*
 - After watching the video, the system will give you two options: Back to the Modules or Next activity.
 - Your next activity will be the Quiz
 - Remember to download the presentation in order to unlock the next module

The Department's Systems Implementation Office (SIO) developed and maintains the new Access Management Guidebook. This guidebook has been developed as a way for state and local transportation officials to better understand access management. Previous documents, such as the Median Handbook and Driveway Information Guide, were used to develop this guidebook, as well as new materials such as the FDOT's Context

Course Content

Module 1: Introduction to Access Management

3 Lesson(s)

- Quiz 4 Start Status: Not Started
- Presentation 4-PDF Start Status: Not Started

Survey 1 Lesson(s)

- Survey Start Status: Not Started

The Department's Systems Implementation Office (SIO) developed and maintains the new Access Management Guidebook. This guidebook has been developed as a way for state and local transportation officials to better understand access management. Previous documents, such as the Median Handbook and Driveway Information Guide, were used to develop this guidebook, as well as new materials such as the FDOT's Context Classification System and FDOT Design Manual (FDM). This guidebook provides background by defining access management, how it is applied on Florida's roadways and some best practices.

Welcome

The Systems Implementation Office is responsible for the Strategic Intermodal System (SIS) through the development and implementation of the SIS Policy Plan and the SIS Funding Strategy. The Systems Implementation Office also develops policies, procedures, tools, training and technical assistance for planning level traffic studies including access management, level of service standards, roadway designations and interchange access requests. The Shared Use Non-motorized (SUN) Trail program is also developed and maintained by this office.
