

FDOT Access Management Guidebook

Virtual Training

The Department's Systems Implementation Office (SIO) is pleased to announce the upcoming Statewide Access Management Guidebook Virtual Training. The SIO developed and maintains the new Access Management Guidebook. This Guidebook has been developed as a way for state and local transportation officials to better understand access management. Previous documents, such as the Median Handbook and Driveway Information Guide, were used to develop this guidebook, as well as new materials such as the FDOT's Context Classification System and FDOT Design Manual (FDM). This guidebook provides background by defining access management, how it is applied on Florida's roadways and some best practices.

SIO has developed training material to supplement the FDOT's Access Management Guidebook. The material will cover the following concepts:

- Introduction to Access Management
 - What is Access Management?
 - Access Management Goals
 - Functional Areas of an Intersection
 - Rules and Procedures
 - Access Management and Complete Streets Context Classification
- Driveways
 - Driveway definition
 - Location
 - Measuring between openings
 - Spacing Standards
 - FDM Chapters
 - Driveway categories and design
 - Conflict Points
- Median and Median Openings
 - Median Opening Types
 - Standards for spacing
- Location
 - Median Treatments
 - Turn Lanes and U-turns
- Safety, Other Design Considerations, and Permitting
 - Safety Benefits and HSM and Crash Modification factors
 - Sight Distance
 - Integration Considerations
 - Intersection Control Evaluation (ICE)
 - Innovative Intersection
 - Non-Motorized Connections
 - Safe Transportation for Every Pedestrian (STEP)
 - Large Vehicles Considerations
 - Permitting and Public Involvement

This **Virtual Training** will be managed using FDOT-Learning Curve System. This training will be open to district staff and consultants.

Credits: 2.5 hours

Certificates for PDHs and AICP credits will be distributed after training completion. You must complete each module and pass with a score of 80% of the quizzes in order to get a Certificate.

Registration
