Repurposing
Training 2021

Credits: 2.5 hours

FDOT Lane Repurposing Virtual Training (CBT)

The Department's Systems Implementation Office (SIO) is pleased to announce the upcoming Lane Repurposing Virtual Training. The (SIO) developed and maintains the new Lane Repurposing Guidebook. This guidebook has been developed as a way for state and local transportation officials to better understand the FDOT Lane Repurposing Process. Previous documents, such as FDOT's Lane Elimination Phase 1 and 2, were replaced with this new guidebook. This Training will help to understand the benefits of Lane Repurposing projects and the process for the review of these projects within the Department.

SIO has developed training material to supplement the FDOT's Access Management Guidebook.

Speaker: Gina Bonyani, Senior Transportation Planner

The screenshot shows a course page for "FDOT Lane Repurposing Training". The page has a dark blue header with the course title and "Computer Based Training" below it. On the right side of the header, there is an "Enroll" button with a plus sign, and two icons for sharing and bookmarking. Below the header, there are two tabs: "Course Content" and "Resources", with "Resources" being the active tab. The main content area features a large banner image with the text "Lane Repurposing Training" in red and the FDOT logo in the bottom right corner. To the right of the banner, there is a section for "Hours" showing "2.5" and a "Resources" section with a link to "Lane Repurposing Guidebook 2020". Below the banner, there is a paragraph of text explaining that the Department's Systems Implementation Office (SIO) developed and maintains the new Lane Repurposing Guidebook, which has been developed as a way for state and local transportation officials to better understand the FDOT Lane Repurposing Process. Previous documents, such as FDOT's Lane Elimination Phase 1 and 2, were replaced with this new guidebook.

Welcome

The Systems Implementation Office is responsible for the Strategic Intermodal System (SIS) through the development and implementation of the SIS Policy Plan and the SIS Funding Strategy. The Systems Implementation Office also develops policies, procedures, tools, training and technical assistance for planning level traffic studies including access management, level of service standards, roadway designations and interchange access requests. The Shared Use Non-motorized (SUN) Trail program is also developed and maintained by this office.
