Subject: RE: Signal at Derby

That is the intent for 454941 to incorporate the signals but they may end up being a separate signal project. We are preparing estimates to take this to a TRM meeting. It may be best to wait until after the TRM to delete this FPID. We can let you know once we have an outcome from the TRM.

Thank you,

Subject: RE: Signal at Derby

Good morning,

Please confirm for the record, Project 449655-1 is removed, and improvements from the project will be added to RRR project 454941-1. Once I get the confirmation, I will work on PSEE change request to have my project officially removed.

Thank you very much!
