7.2 - Lighting

7.3 - Signalization

8.1 - Control Survey

8.2 - Design, Right of Way, and Construction Survey

8.4 - Right of Way Mapping

15.0 - Landscape Architect

Discussion Points for the Letters of Interest

Discuss your firm's experience managing multiple projects at the same time.

Discuss a design project that you worked on that had a technical challenge that required a unique solution.

What would you do if the Department reduced your construction funding by 20% and accelerated your design schedule by three months?

General Information

- ▶ This TRC prefers a two-column format.
- ▶ Assume that the TRC prints in black and white, so colors may not be correctly represented.
- ▶ If you reference a specific project, please include the name and contact information for the Project Manager.
- ▶ Use of graphics should add value to the letter.
- ▶ Check for grammatical errors. It is a direct reflection of your QC abilities.
- ▶ This is your chance to stand out. Make it count. If information is not included in the letter, the TRC cannot consider it.

Thank You!

We invite you to schedule a 20-minute meeting with the Technical Review Committee (TRC) to discuss any questions you have.

The TRC is available to meet with interested firms on 11/5/24, 11/14/24, and 11/21/24.

Meetings may be reserved using the Microsoft Bookings link provided on the FDOT Planned Advertisement site or by using the link shown below.
