Disadvantaged Business Enterprise (DBE) Program

Ligia Benoit
District Compliance Specialist

- Ensure equal opportunity in contract award and administration
- Level the playing field to promote competitiveness
- Ensure FDOT's DBE program complies with applicable laws
- Ensure the integrity of certifying DBE firms
- Remove barriers to DBE participation on DOT contracts
- Enable firms to successfully compete in the marketplace

- FDOT has established a three-year goal of 10.65% DBE participation beginning in October 2017.
- Although not a contract requirement, FDOT believes that the aforementioned aspirational goal can realistically be achieved based on current availability of DBE firms.
- FDOT further believes that the 10.65% overall goal can be achieved through race neutral means, using standard competitive procurement processes.

- Consider DBE firms during your bid or proposal processes
- Report bid opportunities for DBE and non DBE firms
 - Equal Opportunity Compliance (EOC) System
 - At the time of proposal submittal
- Utilize the Florida DBE Directory to find qualified DBE consultants
- Document results from solicitations and requests for proposal
- Ensure monthly updates to DBE commitments and payments are entered in the EOC
- Pass along DBE availability in your sub-consultant agreements
