### **Checklist for Firms Renewing Qualifications with FDOT Professional Services**

Professional Services is defined in Section 287.055 F.S., as services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered surveying and mapping, as defined by the laws of the state, or those performed by any architect, professional engineer, landscape architect, or registered surveyor and mapper in connection with his or her professional employment or practice.

In order to perform Professional Service work for FDOT, qualified firms must renew annually as outlined in [Rule 14-75, F.A.C.](#) The checklists below covers the items required for prequalification renewal at both the minor and unlimited levels, but it is important that you review the Renewal Notice closely as it will include the most up-to-date information on the renewal process. Please contact the Qualification Administrator prior to submission if you have any questions.

When all required documentation has been assembled, you can email the entire package to the Qualification Administrator at [fdot.psprequalification@dot.state.fl.us](mailto:fdot.psprequalification@dot.state.fl.us) – no hard copies are necessary, and you do not need to submit a copy of the checklist. FDOT then has 30 days to complete an initial review the information submitted and either issue a current qualification letter or request additional information. The total time to renew may vary depending on the work types requested, the volume of applications at the time you submit, and the overall complexity of your file.

All prequalifying consultant companies must register with the State's web-based e-Procurement system, [MyFloridaMarketplace](#), so please ensure your company has completed this registration.

It is important that you submit your application well in advance of any project response deadlines you are interested in to prevent any difficulties should the Department require additional information. If additional information is needed, your application will be returned to you as insufficient so that you can update and resubmit the required information.

We are constantly trying to improve the qualification process, so if any questions arise please contact by email at [fdot.psprequalification@dot.state.fl.us](mailto:fdot.psprequalification@dot.state.fl.us).

### **Checklist for Firms Renewing Qualifications**

- \_\_\_\_\_ 1. The [Request for Qualification Package for Professional Consultants](#) – This form was recently updated, so please be sure you complete the current version of the form for your renewal. There are [detailed instructions](#) available to assist you in completing the updated form. You will need to complete all fields on the form, including listing the names of **all** qualifying individuals in section 10 of the application (a [sample](#) of the section is available online for reference). The “no change in qualifying staff” statement is no longer sufficient when renewing, so all firms will need to list all previously qualified personnel along with new qualifying personnel. You will also need to clearly indicate any previous qualifying staff members that are no longer with the firm.
- \_\_\_\_\_ 2. [Qualifying Staff Employment Certification Form](#), completed and signed by the submitting principal.
- \_\_\_\_\_ 3. A current copy of your proof of professional liability insurance (PLI).
- \_\_\_\_\_ 4. Current resumes for **new** qualifying staff only. Resumes should include information regarding each individual’s education, Florida registration, specialties and project experience relevant to the work type(s) requested. Project information should include detailed information on the individual’s position in the project (Designer of Record, Project Manager, etc.) and the components that were actually designed by the individual. [Resume Guidance](#) is available. If submitting for any group 4 work types, you will need to submit project experience using the Work Group 4 Format found on the Resume Guidance page, although this can be submitted in conjunction with resumes if you prefer. These documents were assembled with specific work types in mind, but both provide an excellent basis for constructing resumes for all work types. **GROUP 4 EXCEL FORMS MUST BE SUBMITTED IN EXCEL FORMAT(\*.XLSX) TO FDOT.PSPREQUALIFICATION@DOT.STATE.FL.US ALONG WITH YOUR PREQUALIFICATION APPLICATION**
- \_\_\_\_\_ 5. Approved Rates
- ❖ If your firm will be pursuing projects with fees of **less than \$500,000** per project, choose **one** of the following options to submit:
- \_\_\_\_\_ No financial information for approved rates will be submitted at this time
- OR -
- \_\_\_\_\_ [Self-Certification of Accounting System and Reimbursement Rates](#) form and a copy of the firm’s general ledger for the year – Although this is not required for qualification, this information will ultimately be required for contracting with the Department.
- ❖ If your firm will be pursuing projects with **fees of any amount (both up to and in excess of the \$500,000 threshold)** per project, submit the following instead:
- \_\_\_\_\_ 1. An [overhead audit](#) performed by an independent CPA for the most recent fiscal year. Questions specifically relating to the audit can best be answered by Central Office Audit Support at

*Florida Department of Transportation*

[fdot.pspregualification@dot.state.fl.us](mailto:fdot.pspregualification@dot.state.fl.us)

- \_\_\_\_\_ 2. [Contractor Cost Certification](#) – Although this form includes information derived from your audit, it should be completed and signed by a principal of your firm, not the auditing CPA.
