Browser Settings for FDOT's Long Range Estimates September 2015

Steps

First...Add web site to IE security "trusted sites", follow these steps

- 1. Start Internet Explorer, go to Long Range Estimates.
- 2. Click Tools, and then click Internet Options.
- 3. Click Security tab
- 4. Select Trusted Sites
- 5. Select the Sites button
- 6. Type the address of the website in the **Add this website to zone** text box. (website address should be default value)
- 7. Click Add to add the site to the Trusted Sites zone list, SAVE all windows and close.
- 8. Visit the Long Range Estimates website again to see whether the issue is resolved

Second.....Change the Trusted Sites zone Security Level for this zone to LOW

Internet Options	? ×					
General Security Privacy	Content Connections Programs Advanced					
Select a zone to view or c	hange security settings.					
Internet Local int	ranet Trusted sites Restricted sites					
Trusted sites This zone contai	ins websites that you					
 trust not to damage your computer or your files. You have websites in this zone. 						
Security level for this zon	ne					
Allowed levels for this zone: All						
Low - Minimal safeguards and warning prompts are provided - Most content is downloaded and run without prompts - All active content can run - Appropriate for sites that you absolutely trust						
Enable Protected Mode (requires restarting Internet Explorer)						
	Custom level Default level					
Reset all zones to default level						
Some <u>settings</u> are managed by your system administrator.						
	OK Cancel Apply					

From IE Tools | Internet options | Security | Trusted Sites zone Select Custom Level button and scroll down to "downloads" and verify below is checked
