Comments: (5-28-19, Internal)
We need to change this specification to allow for minor rehab projects not requires QP1 and SSPC designation. When you are just installing a couple of braces or misc metals, you should be able to do this work with your own forces.

Seems we have overlapping and inconsistent language between the proposed language and Section 110-6.2.2, as it pertains to the removal of hazardous coating

It should be noted that SSPC does not and will not review or approve QC plans.
