SUBJECT: Proposed Specification: **9710104 PAVEMENT MARKING MATERIALS**

In accordance with Specification Development Procedures, we are sending you a copy of a proposed specification change.

This change was proposed by Kenneth Bergum to add a statement to allow the usage of National Transportation Product Evaluation Program (NTPEP) data for the acceptance of standard paint to the Approved Products List in the Standard Specification.

Please share this proposal with others within your responsibility. Review comments are due within four weeks and should be sent to Mail Station 75 or online at <http://fdotwp1.dot.state.fl.us/programmanagement/development/industryreview.aspx> . Comments received after **July 9, 2020**, may not be considered. Your input is encouraged.

PAVEMENT MARKING MATERIALS**(REV 5-7-20)**

SUBARTICLE 971-1.4 Is deleted and the following substituted:

971-1 General Requirements.

971-1.4 Approved Product List (APL): All pavement marking materials shall be one of the products listed on the Department's Approved Product List (APL). Manufacturers seeking evaluation of their product shall submit an application in accordance with Section 6 and the infrared identification curve (2.5 to 15 μm) for the vehicle component. The Department will test all pavement marking materials in accordance with FM 5-541, Part B. For Standard Paint, the Department will accept National Transportation Product Evaluation Program (NTPEP) field test data in lieu of evaluation testing as per FM 5-541, Part B. A notation of the number of coats and the thickness of each coat at which the product passes testing may be placed on the APL. When listed, this will be the minimum criteria for application of the pavement marking material.
