Comments: (Industry 6-3-20) Please clarify "known" habitat. Does this refer to occupied habitat determined by species specific surveys or suitable habitat that meets the criteria in the guidelines?

Response: The use of the word “known” is to be consistent with other similar species special provisions. “Known” habitat could be occupied (based on surveys) or presumed occupied (i.e. suitable, but no survey conducted), based on the use of the soon to be executed **FDOT Programmatic Agreement for Minor Transportation Activities**.
