Comments: (5-7-21, Internal)

In the 461 spec change, the numbered list seems to be for “work”. Number 6 is describing “incidental materials”. Would you consider changing “work” to “items”?

461-9 Basis of Payment.

461-9.1 Basic Items of Bearings: The Contract unit price per each for bearings will be full compensation for all work and materials necessary for the complete installation. Such price and payment will include, but not limited to, the following specific incidental ~~work~~ items:

1. testing,
2. tools and equipment required for installation,
3. any work to replace rejected bearings,
4. any repairs to the metalized coating on the bearings,
5. all costs associated with the manufacturer’s installation technician,
6. sole plate, masonry plate, high strength bolt assemblies and anchor rod assemblies.
