I guess we are deleting the spec and concept of Prepared Soil Layer?

Response: Yes.

Will pay item be deleted as well? How will soil layer be paid for and how will it be quantified?

Response: The pay item has been deleted. There will no longer be a “soil layer”. For landscape project, Section 580 includes language to address the soil requirements on landscape projects. For Section 570, soil is incidental to the turf. The contractor is responsible for turf establishment.

Ensure BOE is updated as well.

Response: The BOE has been updated.
