RON DESANTIS GOVERNOR KEVIN J. THIBAULT, P.E SECRETARY

MEMORANDUM

DATE: December 10, 2020

TO: Specification Review Distribution List

FROM: Daniel Strickland, P.E., State Specifications Engineer

SUBJECT: Proposed Specification: 6820104 Video Equipment.

In accordance with Specification Development Procedures, we are sending you a copy of a proposed specification change.

This change was proposed by Derek Vollmer from the Traffic Engineering and Operations Office to provide guidance on field acceptance testing with Section 611.

Please share this proposal with others within your responsibility. Review comments are due within four weeks and should be sent to Mail Station 75 or online at http://fdotewp1.dot.state.fl.us/programmanagement/development/industryreview.aspx. Comments received after January 7, 2021, may not be considered. Your input is encouraged.

VIDEO EQUIPMENT (REV 11-12-20)

SUBARTICLE 682-1.4 is deleted and the following substituted:

682-1.4 Field Acceptance Testing.

Develop and submit a field acceptance test (FAT) plan to the Engineer for review and approval. The test plan must demonstrate all functional requirements specified for the device or system under test. Perform the FAT on the equipment covered in Article 682-1. The Engineer reserves the right to witness all tests. Conduct field acceptance testing in accordance with Section 611.

Perform local field <u>inspection operational tests</u> at each local CCTV field sites to verify and confirm the following:

- 1. Physical construction has been completed as specified in the Plans and all existing and proposed lanes are clearly visible with no line of site obstructions.
 - 2. The quality and tightness of ground and surge protector connections.
 - 3. Proper voltages for all power supplies and related power circuits.
 - 4. All connections, including correct installation of communication and

power cables.

- 5. Video signal from the camera is present and of consistent quality at all connection points between the camera, the cabinet, and any video devices therein.
- 6. The communication link between the cabinet and the camera is functioning properly by performing PTZ and focus in all directions and executing a minimum of three other unique programming commands.
